| IDENTIFIERS | *College Board Computerized Placement Tests; *User Guides |

ABSTRACT

This user manual describes procedures for using Version 3.0 Computerized Placement Tests (CPTs) software and provides information about the hardware required to operate it. The software features the College-Level Mathematics (CLM) test, Seamless Serial Testing branching capabilities, new system installation and uninstallation procedures, and new Main Menu features. CPTs Version 3.0 continues to provide users with the ability to administer any or all of the original four CPTs (in the areas of reading comprehension, sentence skills, arithmetic skills, and elementary algebra skills), in addition to the new CLM test. The four original CPTs contain only multiple-choice questions. The CLM introduces free-response (open-ended) questions; however, most of the questions remain multiple choice. The CPTs are part of the ACCUPLACER system of student information management. The manual contains the following sections: (1) introduction; (2) system requirements; (3) system installation; (4) system operation; (5) reporting; (6) uninstalling CPTs; (7) interfacing CPTs with institutional systems; (8) CPTs error messages; (9) a glossary; and (10) six appendices that include lists of prompt messages and critical error messages. Twenty-nine pages of tables of scaled scores for CPTs, as well as college codes for data entry, are included. (SLD)

## Installation and Operation

Version 3.0

Including the

COLLEGE-LEVEL MATHEMATICS TEST

and

SEAMLESS SERIAL TESTING™

February 1991

This software User Manual contains the installation, operating, and uninstall procedures for the version 3.0 Computerized Placement Tests (CPTs) software, and information about the hardware required to operate it. For information about the new College-Level Mathematics Test and about Seamless Serial Testing, please refer to the CPTs Coordinator's Guide. For information about the four original CPTs — Reading Comprehension, Sentence Skills, Arithmetic Skills, and Elementary Algebra, please see the original Coordinator's Notebook for the CPTs, July 1986.

# HOW TO USE THIS MANUAL

This manual is designed to enable the beginner, as well as the advanced user, to understand and use the Computerized Placement Tests (CPTs). Please note the following features of the manual:

- Chapter name, specific topic, and page number appear on each page.
- The ☐ symbol normally indicates steps to be followed or a list of items. You can also use the boxes to check off the steps as you complete them.
- The ☞ symbol is used to specify important points or to give additional information. The ☛ symbol is used for very important points. You should always read these notes carefully.
- Items in the text appearing in square brackets, such as [ENTER] or [Esc], refer to keys on the keyboard. They also appear this way on the screen displays. The exceptions are the arrow keys: ←,↑,→,↓, which will not appear in brackets.
- Text in **bold** is either the name of a screen item or is used for emphasis. Highlighted screen items often appear in bold in this manual. An option or a phrase on a screen may be highlighted for emphasis even though it is not actually highlighted on the screen itself.
- Items in ***italics*** are used to show what to type on the keyboard.
- In this manual, we refer to the [ENTER] key. On some keyboards it is called the [RETURN] key.
- The manual often refers to **function keys.** Pressing such a key normally accomplishes a particular task. For example, pressing the [F10] function key is always required to save data you have modified on the screen. Function keys on most keyboards are called **F1, F2**, etc.
- Some keyboard entries include a backslash: \ . Be sure to use \ , not /.
- The entry of DOS commands can be in uppercase, lowercase, or both. *BACKUP*, *backup*, or even *BackUp* are OK.
- Use the **GLOSSARY** beginning on page 101 to obtain the definitions of words you may not understand.

> Items appearing on your screen will normally be shown in a frame like this. The contents of the frame will essentially match what is displayed on your screen. Messages displayed by CPTs are discussed separately in the text, often where a ☞ appears.

Many, but not all, of the messages you will see as you operate the system are reviewed in this manual. A full list of them appears beginning on page 115 in the **APPENDIX.**

In a number of the screens, the system shows defaults. These are options or values provided with the system. You may either select these as presented or modify them as you wish. If you change them, they then become the new default and will appear the next time you access them.

Due to the great variety of software and hardware, it is not possible to include detailed instructions for subjects like DOS commands or specific locations of keyboard keys. Some information is provided in the **APPENDIX.** You should also consult your DOS manual or other sources for assistance.

Should you have any recommendations for improving this manual, or any problems with the CPTs software itself, we would appreciate your comments. Please contact us at:

# INTRODUCTION

This User Manual is for the **Computerized Placement Tests™ (CPTs™)**, Version 3.0 software. This software features the College-Level Mathematics (CLM) test, Seamless Serial Testingœ (SST) branching capabilities, new system installation and uninstall procedures, and new Main Menu features. Other information about the CPTs can be found in the CPTs Coordinator's Guide.

The new **College-Level Mathematics (CLM) test** was developed in response to our users' needs for a higher-level mathematics test. Seamless Serial Testing (SST) creates new user-controlled branching capabilities. This process enhances the value of the new **CLM** test, and the original Elementary Algebra and Arithmetic Skills tests by allowing users to select among various branching options.

CPTs Version 3.0 continues to provide users with the ability to administer any or all of the original four CPTs — **Reading Comprehension (RC)**, **Sentence Skills (SS)**, **Arithmetic Skills (AR)**, and **Elementary Algebra Skills(EA)** — in addition to the new CLM test. The four original CPTs contain only multiple-choice questions. CLM introduces **free-response** (open-ended) questions; however, the majority of the questions remain multiple choice.

For institutions continuing their use of the CPTs, Version 3.0 introduces brand-new, simpler system installation and system uninstall procedures and a Main Menu that provides easy access to test administration parameters previously accessed through the Installation/Setup procedures of Version 2.0. Other software enhancements provide for greater flexibility for interface with local institutional databases. For institutions just beginning to use the CPTs, these improved features will seem basic.

**Inspection Sets** of the CPTs are available upon request for a handling fee of $25.00 which is credited to your first full order of CPTs. If you are working with an Inspection Set of CPTs, please read the **Special Notes** section, **Inspection Sets of CPTs** on page 106 of the **APPENDIX** before you try to install and operate it. Then proceed to read this manual, particularly the **SYSTEM INSTALLATION** chapter beginning on page 11 and the **SYSTEM OPERATION** chapter beginning on page 51. Step-by-step instructions are provided.

☞For additional assistance, please call Educational Testing Service, CPTs Program Direction, at (609) 734-5782, or (215) 750-8410, or write to Computerized Placement Tests, Program Direction, 07-E, Educational Testing Service, Princeton, New Jersey 08541.

## Visually Handicapped

The following two software programs may be used with the Computerized Placement Tests to enhance the visibility of the test for visually impaired students:

- VISTA from Telesensory Systems, Inc., 455 North Bernardo Avenue, Post Office Box 7455, Mt. View, CA, 94039.
- LP DOS/EL PICASSO from VisionWare Software, Inc., Post Office Box 1676, Brookline, MA, 02146. (Note: At the DOS prompt the tester must first invoke LP DOS, but disengage the software until the CPTs password is typed. After the password is entered the software may be reinvoked.

# SYSTEM REQUIREMENTS

## Equipment Requirements

To operate **CPTs** you must have the following equipment:

- An IBM PC, XT, AT or fully compatible computer, or an IBM Personal System/2 or fully compatible.
- At least 512K of internal (RAM) memory available.
- DOS (Disk Operating System) — any version from 2.1 through 3.3.
- A hard disk, or two 5-1/4 inch floppy disk drives, or two 3-1/2 inch 720KB disk drives. At least one 5-1/4 inch or 3-1/2 inch disk drive is required for hard disk installation.
- If installing on a hard disk, at least 2 MB of available space.
- A graphics board and monitor. The following graphics boards are supported as part of the standard CPTs shipment:
    - IBM Color Graphics Adaptor (CGA)
    - IBM Enhanced Graphics Adaptor (EGA)
    - IBM Video Graphics Array (VGA)
    - IBM Multi-color Graphics Array (MCGA)
    - Compaq Enhanced Color Graphics Board, ECGB (SPECIAL)
    - AT&T Display Enhancement Board
    - Sigma Designs Color 400
    - Tseng Labs EVA and EVA/480
    - Hercules Monochrome Graphics

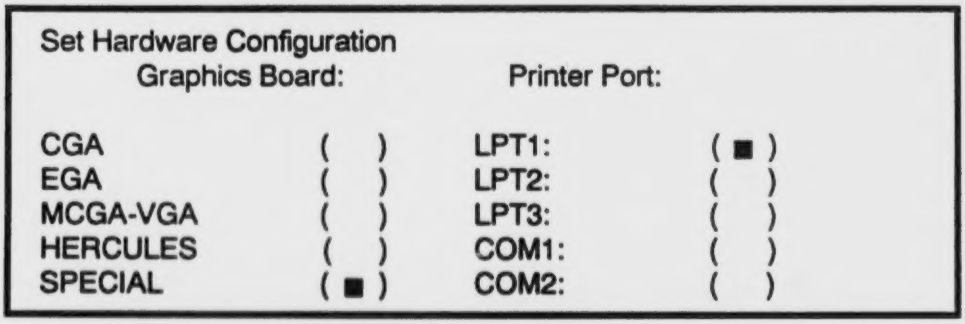
☞512K of memory (RAM) must be available for use by CPTs. Any resident programs causing less memory to be available must be removed.

☞If you use the AT&T, Sigma or Tseng, select the EGA option when installing CPTs. See the **SYSTEM INSTALLATION** chapter beginning on page 11 for details.

The following graphics boards are supported by special order :

- Amdek MAI
- Conographics Model 40
- IBM PC jr
- New Media Graphics PC Overlay
- STB Graphix Plus II
- Tecmar Graphics Master
- WYSE WY-700

☞ If you ordered a special graphics board it will become the default **Special option** on the screen shown below. This screen is discussed in the **SYSTEM INSTALLATION** chapter beginning on page 11.



Set Hardware Configuration

| Graphics Board: | | Printer Port: | |
|---|---|---|---|
| CGA | ( ) | LPT1: | (■) |
| EGA | ( ) | LPT2: | ( ) |
| MCGA-VGA | ( ) | LPT3: | ( ) |
| HERCULES | ( ) | COM1: | ( ) |
| SPECIAL | (■) | COM2: | ( ) |

☞ Any monitor compatible with your graphics board may be used. A color monitor may be used but is not necessary.

- A printer is required if you wish to produce printed reports from CPTs. Either a laser or dot-matrix printer is acceptable.

CPTs will operate in any of three basic "configurations," depending on your disk storage facilities:

- **5-1/4 floppy configuration**: CPTs operates from two 5-1/4 inch floppy disk drives, with no hard disk used. Approximately 375 tests (e.g., 75 students taking 5 tests each) may be administered on each set of floppies. Approximately 700 student records can be converted into the Reporting System on each set of floppies, but no more than 450 student records can be converted in one batch.

- **3-1/2 inch diskette configuration:** CPTs operates from two 3-1/2 inch 720KB disk drives, with no hard disk used. Approximately 1,500 tests (e.g., 300 students taking 5 tests each) may be administered on each set of disks. Approximately 2,000 student records can be converted into the Reporting System on each set of disks, but no more than 450 student records can be converted in one batch for either size disk.
- **Hard disk configuration:** CPTs operates from a hard disk, with the 5-1/4 or 3-1/2 inch disk drive used only for installation. The number of tests that can be administered and converted into the Reporting System on this configuration depends only on the amount of available hard disk space. We recommend that you install on a system with at least 2 megabytes available. For your information, about 1,326 bytes are used per student record where the student takes the full battery (i.e., answers standard background questions and takes all five tests).

CPTs will also operate on any DOS-based local area network (LAN). For network setup see the **SYSTEM INSTALLATION** chapter beginning on page 26.

☞Since we cannot guarantee successful operation of CPTs on all possible equipment, you may want to try an **INSPECTION SET** of CPTs on sample equipment before making any significant hardware decisions. See the note about Inspection Sets in the **Special Notes** section on page 106 of the **APPENDIX**, and the **SYSTEM INSTALLATION** and **SYSTEM OPERATION** chapters for how to operate the Inspection Set. Follow the procedures indicated. To order an Inspection Set of CPTs, write or telephone the CPTs Program as indicated on page 2 of the **HOW TO USE THIS MANUAL** chapter. A handling fee is charged for Inspection Sets, but that fee is credited to your initial order.

## Materials Checklist

Before you begin, make sure that you have a complete set of materials. You should have the following:

- ☐ CPTs User Manual: Installation and Operation
- ☐ CPTs Coordinator's Guide
- ☐ CPTs software configured for your hardware environment as follows:
  - ☐ **CPTs SOFTWARE FOR STANDALONE FLOPPY DISK DRIVE OPERATION:**

    For each standalone computer equipped with two 5-1/4 inch or two 3-1/2 disk drives, you will need one complete set of CPTs software consisting of one each of Disks 1, 2, 3 (or 2/3), 4, and 5. Since a 5-1/4 inch Disk 1 only has space for 75 students taking all five tests, and a 3-1/2 inch Diskette 1 only has space for 300 students taking all five tests, you may have been shipped multiple copies of Disk 1 depending on the total number of students you indicated you plan to test. You may also have received multiple copies of Disk 4 (Reporting Disk) since each 5-1/4 inch floppy disk only has space for approximately 700 student records, and each 3-1/2 diskette for about 2,000 student records. You will also receive a set of Master Disks. Put these aside in a safe place. Do not use these disks for installation. Do not use these masters without contacting the CPTs Program for authorization and instructions. These disks are used to repair software errors.

☐ **CPTs SOFTWARE FOR STANDALONE HARD DRIVE OPERATION:**

For standalone hard drive installations you will need a full distribution set of CPTs software consisting of Disks 1, 2, 3, 4, and 5. Your distribution set may include a sufficient number of tests for installation on several standalone hard drive systems, depending on your order form specifications. You will also receive a set of Master Disks. Put these aside in a safe place. Do not use these disks for installation. Do not use these masters without contacting the CPTs Program for authorization and instructions.

☐ **CPTs SOFTWARE FOR DOS-SUPPORTED LOCAL AREA NETWORK FILE SERVER OPERATION:**

For a DOS-supported Local Area Network (LAN) file server, you will need a full distribution set of CPTs software consisting of Disks 1, 2, 3, 4, and 5. Your distribution set may include a sufficient number of tests for installation on more than one file server depending on your order information.

Each of the five distribution disks contains the following:

☐ **DISK 1**: Contains files necessary to install the CPTs system. It is also the disk onto which student test data will be written when operating in a floppy disk or diskette environment.

☐ **DISK 2**: Contains test administration files required for student familiarization and sign-on, background questions, and the two verbal tests — Reading Comprehension and Sentence Skills.

☐ **DISK 3**: Contains test administration files for the three mathematics tests — College-Level Mathematics, Elementary Algebra Skills, and Arithmetic Skills.

☐ **DISK 4**: Contains the CPTs score Reporting System.

☐ **DISK 5:** Contains the standard graphics drivers supplied by the CPTs program.

☐ A set of Master Disks is included. Store it in a safe place. Do not use these disks for installation. Do not use these masters without contacting the CPTs Program for authorization and instructions.

☞ For added convenience (i.e., to reduce the amount of disk swapping), Disks 2 and 3 may have been combined in 3-1/2 inch diskette drive configurations.

☞ To conserve disk usage in cases where orders require sizable numbers of sets of CPTs, each set may not contain its own Disk 5. Any Disk 5 may be used for any set of CPTs, provided a special order graphics board is not necessary.

☐ If you ordered Version 3.0 of the Computerized Placement Management Software, the CPMS User Manual and software distribution disks should also be included here. Version 3.0 of CPMS is the only version compatible with Version 3.0 of CPTs.

☛ **If any CPTs materials are missing, call the hotline number (609) 734-5782 or (215) 750-8410.**

☛ **Always store the CPTs disks in a secure, climate controlled place.**

☛ Please note that the CPTs disks contain copyrighted material. Reproducing or distributing copies of these disks, for any purpose, is a violation of U.S. copyright law and is therefore illegal.

# SYSTEM INSTALLATION

This chapter instructs you on how to install CPTs. Each set of software you purchase may be installed in one of three primary environments: on each standalone computer having a hard disk, on each standalone computer with two floppy disk drives (no hard disk needed), or on the file server of the network to which your computer is attached. In a network, CPTs is installed on the file server. CPTs need not be installed on each individual workstation. In order to make the installation instructions as clear as possible, each of these types of installation is discussed in a separate section later in this chapter. Please refer to the section appropriate for your type of installation and ignore the others. These sections are:

- **Standalone Computer with Hard Disk**
- **Standalone Computer with Floppy Disks**
- **Network File Server**

If you need to install CPTs on computers falling into more than one of the above categories, you must refer to the appropriate sections. Note that the number of tests you receive can be distributed in any proportion you desire among your computer systems. That will be explained later in this chapter.

Before attempting to install CPTs, you should be familiar with the operation of your computer(s) and with DOS. You should know how to boot your computer, how to insert and remove floppy disks, how to operate the keyboard, etc. If you are installing CPTs on a network, you may need assistance from a person familiar with the operation of that network.

For all three types of installation, CPTs can optionally be installed using a RAM disk. This permits the software to run from memory instead of a disk, thereby increasing operational speed. Please refer to your DOS manual to create a RAM disk. The RAM disk must be at least 512K with at least 40 directory entries. It may be larger, but you must leave at least 512K of internal memory for operation of CPTs itself. The drive letter will be identified during installation of CPTs.

If you wish to install multiple copies of CPTs to use for retesting students, keeping test data separate, or merely as a demonstration version, see the final section in this chapter, **Installing Multiple Copies of CPTs**, beginning on page 47.

The installation process discussed in this chapter includes setting up the system configuration and various testing parameters. For information on how to use the other features of CPTs, please refer to the **SYSTEM OPERATION** chapter beginning on page 51. For additional information, see the **Special Notes** section of the **APPENDIX** starting on page 106.

☛ Each installation takes about 10 minutes and requires two megabytes of hard disk space for hard disk installations. Once the installation process has started, do not abort it. Never turn the computer off during this process. Observe all messages displayed since these tell you what to do next. Always wait for the light on the floppy disk drive to turn off before removing the disk.

## Disk Drive Environment

The CPTs distribution software package consists of five 5-1/4 inch floppy disks or four or five 3-1/2 inch diskettes. The disks are numbered 1, 2, 3, 4, and 5 except for 3-1/2 diskette environments in which case Disks 2 and 3 may be combined (i.e., Disk 2/3). Should you receive a combined Disk 2/3, use it whenever Disk 2 or Disk 3 is specified in this manual. Each disk environment is discussed below.

### 5-1/4 Inch Floppy Disk Drive Environment

If you are operating on a computer having two 5-1/4 inch floppy disk drives (two floppy disk drives are required), you will need one set (one software package) of CPTs for each computer on which you plan to administer tests to candidates simultaneously. You may find it helpful to number each set of CPTs to correspond to your computers (e.g., set 1 for computer 1, set 2 for computer 2, etc.). Since the same serial number is on each disk in a set, you can use these serial numbers in a one-to-one correspondence between sets of CPTs and computers.

### 3-1/2 Inch Diskette Drive Environment

If you are operating on a computer having two 3-1/2 inch disk drives (two 720KB diskette drives are required) you will need one set (one software package) of CPTs for each computer on which you plan to test candidates simultaneously. You may find it helpful to number each set of CPTs and assign each to a specific computer.

## Hard Disk Drive or Network File Server Environment

If you are operating on a computer with a standalone hard disk drive or on a computer that is part of a Local Area Network (LAN), then you need one set of CPTs that has been prepared by ETS with the total number of tests you will administer. To install the software, the computer needs only one 3-1/2 inch or 5-1/2 inch disk drive. You may install all available tests in one installation or you can distribute the total number of available tests across several installations. Once you have installed the software onto each of your hard disks or the file server, you will not need to use the distribution disks again until you either need to add more tests to the installation or to uninstall the software. **All functions of CPTs can be invoked from any workstation on the network** or from the file server via the **Main Menu.**

## Standalone Computer with Hard Disk

☐ Boot your computer by turning it on.

☐ Enter the current date and time if requested. Be careful to enter the correct date since it will be used as the testing date and will appear on all reports. When you see the DOS prompt (usually C:\>) proceed with the following steps.

☐ Place the CPTs Version 3.0 Disk 1 in the drive A floppy disk drive.

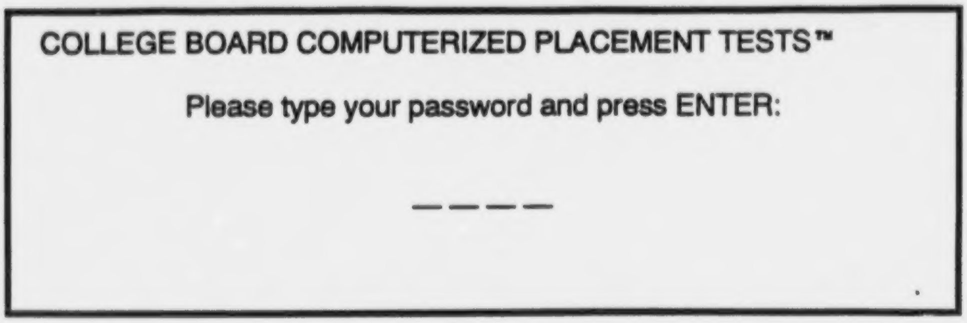
☐ Change the DOS prompt to drive A by typing *A:* and press [ENTER].

☐ Type *CPTS3* and press [ENTER].

☞If you forget to switch to drive A before typing *CPTS3*, the installation procedure will abort and return to the DOS prompt.

☞CPTs will automatically check for sufficient disk space. If CPTs detects that you do not have sufficient space on the hard disk (a minimum of two megabytes), you will see a message advising you to either abort the installation or to name another disk drive.

☐ When the following screen appears, type your password and press [ENTER]. The password will not appear on the screen as you type it so that it cannot be observed by others. You will find your password with your order of diskettes.



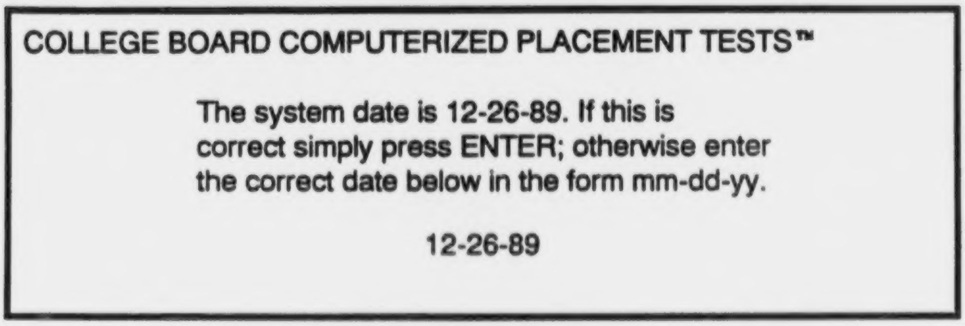
```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

        Please type your password and press ENTER:

                         ----
```

☞ If you enter the wrong password, you will immediately be returned to the DOS prompt. Repeat the installation process.

☐ After the system accepts your password, the following screen will appear (12-26-89 is for illustration only):



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

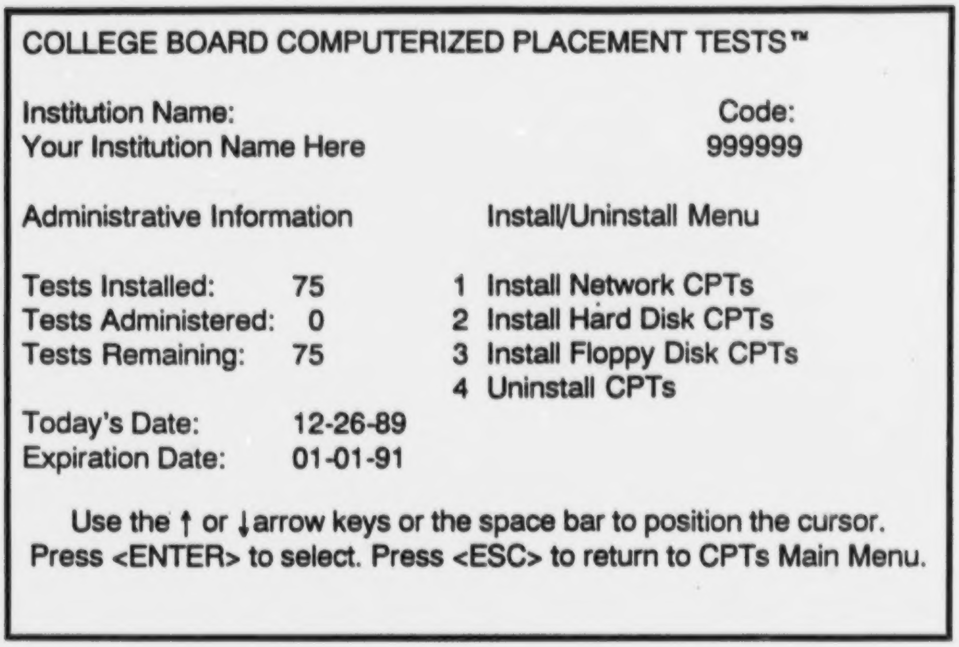
        The system date is 12-26-89. If this is
        correct simply press ENTER; otherwise enter
        the correct date below in the form mm-dd-yy.

                         12-26-89
```

☐ Type in the current date if the date displayed is not correct. It is very important to enter the correct date here since this date will be logged as the testing date and also appear on your reports.

☐ Press [ENTER] and you will receive the message **Working . . . Please Wait.**

☐ The following screen will now appear:



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Institution Name:                                    Code:
Your Institution Name Here                          999999

Administrative Information          Install/Uninstall Menu

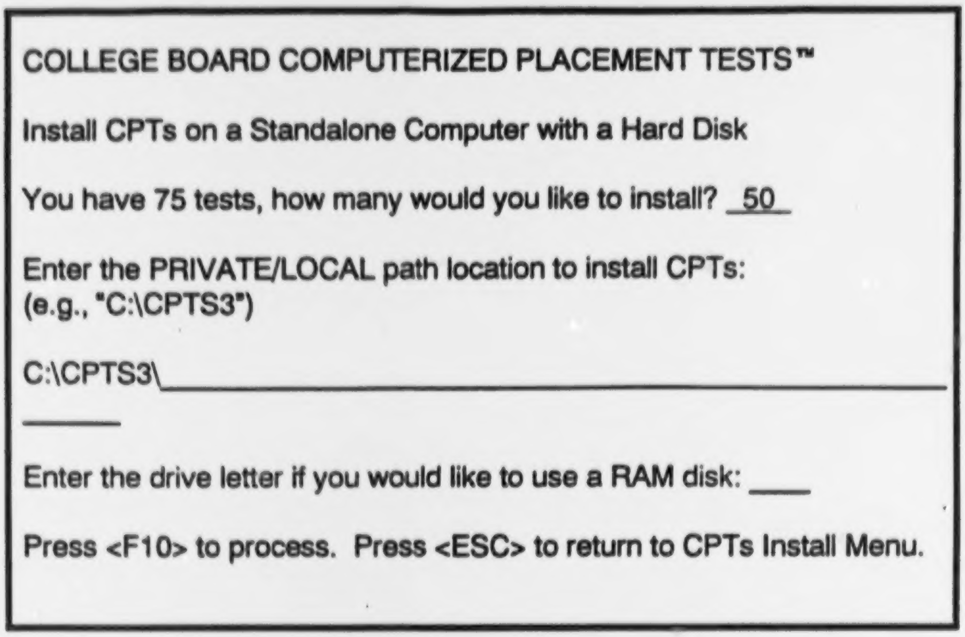
Tests Installed:       75       1  Install Network CPTs
Tests Administered:     0       2  Install Hard Disk CPTs
Tests Remaining:       75       3  Install Floppy Disk CPTs
                                4  Uninstall CPTs
Today's Date:          12-26-89
Expiration Date:       01-01-91

   Use the ↑ or ↓arrow keys or the space bar to position the cursor.
Press <ENTER> to select. Press <ESC> to return to CPTs Main Menu.
```

☐ The **Administrative Information** section on the left of this screen contains data for your information. You cannot change these data at this time. The **Install/Uninstall Menu** section on the right of this screen contains various options you can use to install or uninstall CPTs. Follow the directions at the bottom of the screen to highlight the type of installation you want.

☞ When you are asked to type information on subsequent screens, the normal editing keys on the keyboard can be used. When you are done typing your entry, press [ENTER] to move to the next field. On some screens, you may need to move around the options with the [Space Bar] or the ↑ and ↓ arrow keys, and then use the [ENTER] key to move to the next field. You may cycle around all the fields with the [ENTER] key, so that if you want to change something but have passed it, keep pressing [ENTER] until it reappears. Instructions appear at the bottom of each screen.

☐ Select option 2, **Install Hard Disk CPTs**, from the **Install/Uninstall Menu**. The following screen will appear:



COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Install CPTs on a Standalone Computer with a Hard Disk

You have 75 tests, how many would you like to install? 50

Enter the PRIVATE/LOCAL path location to install CPTs:
(e.g., "C:\CPTS3")

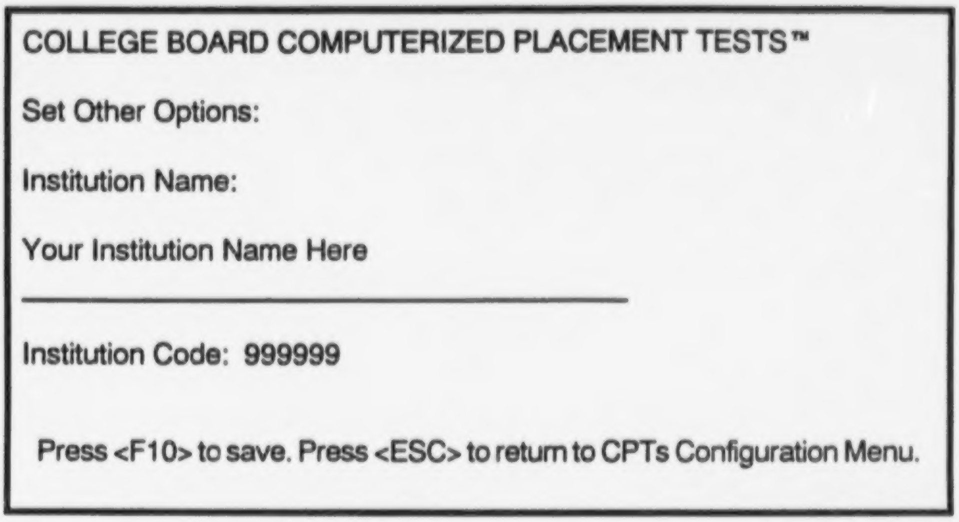
C:\CPTS3\____________________

Enter the drive letter if you would like to use a RAM disk: ____

Press <F10> to process. Press <ESC> to return to CPTs Install Menu.

- ☐ The total number of tests available is shown (75 is illustrated). Enter the number of tests you wish to install, up to this maximum (50 is illustrated). Press [ENTER].
- ☐ Enter the **PRIVATE/LOCAL path location to install CPTs.** This is the drive and directory where you want to install the CPTs. If you already have Version 2.0 of the CPTs installed on another subdirectory (probably in C:\CPTS), and you plan to use both versions, choose a different path from the Version 2.0 path. Press [ENTER].
- ☐ If you are using a RAM disk, enter the disk letter.
- ☐ Press [F10]. You must press [F10] to process what you have entered on the screen.
- ☐ The following message is now displayed: **Copying files please wait . . . .** As the files are copied, additional dots appear to let you know this process is in progress. Follow the instructions on the screen when requested to insert the remaining floppies, Disks 2 through 5.
- ☐ Press any key when you see the message **CPTs Installation Complete . . . Press any key to exit install.**

☐ The following screen will now be displayed. Press [ENTER] to go from one field to the next. Use the [Del] and [Backspace] keys to correct any errors. Type directly over **Your Institution Name Here** and **999999**. You may want to enter the institution name in capital letters. When you are done, press [F10] to save your entries.



COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Set Other Options:

Institution Name:

Your Institution Name Here

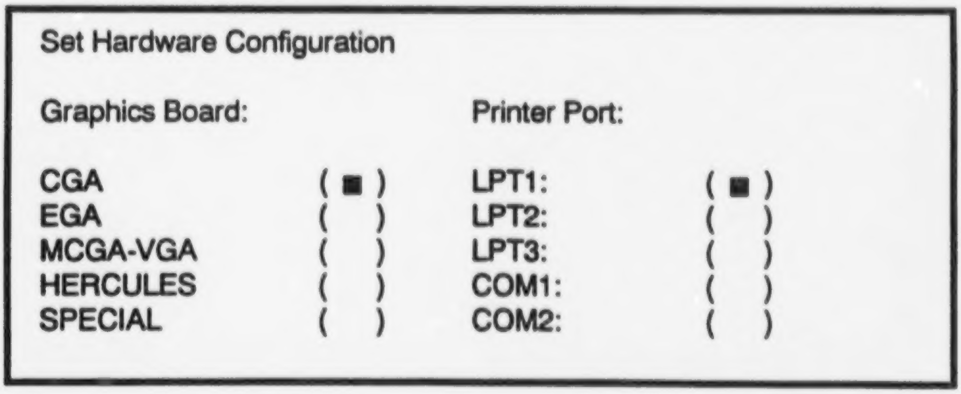
Institution Code: 999999

Press <F10> to save. Press <ESC> to return to CPTs Configuration Menu.

☞ If your institution is not included in the College Code list beginning on page 165, please call the hotline number (609) 734-5782.

☞ The information on this screen may be subsequently changed at any time by selecting the **System Configuration Menu** option from the CPTs Main Menu shown on page 57. Then select the **Set Other Options** item. The screen shown above appears and the desired information can be added.

☐ Press [Esc] to go to the following screen:



Set Hardware Configuration

| Graphics Board: | | Printer Port: | |
|---|---|---|---|
| CGA | ( ■ ) | LPT1: | ( ■ ) |
| EGA | ( ) | LPT2: | ( ) |
| MCGA-VGA | ( ) | LPT3: | ( ) |
| HERCULES | ( ) | COM1: | ( ) |
| SPECIAL | ( ) | COM2: | ( ) |

☐ CPTs automatically checks your system hardware and places the ■ symbol to the right of the appropriate board/driver in the **Graphics Board** column on the left of this screen. In the **Printer Port** column on the right of this screen, the default is **LPT1** as shown. If your system varies from this, change to the appropriate Graphics Board and Printer Port settings. See the notes below. Use the [Space bar] or ↑ and ↓ arrow keys to select a single entry in each column and use [ENTER] to switch between the two columns. Press [F10] to save your choices.

☞ Select **SPECIAL** if you ordered a special graphics device driver or your computer is equipped with a Compaq Enhanced Color Graphics Board (ECGB).

☞ Select **EGA** if your graphics board is an AT&T Display Enhancement Board, a Sigma Designs Color 400, or a Tseng Labs EVA or EVA/480.

☞ Try to find out which type of graphics board you have prior to installation of CPTs. In any case, the installation program will attempt to help you with a message about your monitor type. In some cases of "compatible" graphics boards, the program may report that you have an EGA board, but when you install this driver, you will get blank screens or unintelligible information on the screen when you enter testing. This means that you do not have a true EGA board. You may have a Compaq Enhanced Color Graphics Board, so try the **SPECIAL** setting. The graphics board setting can be changed at any time by following the procedure on page 19.

☞ You can try each of the other options offered during installation, but if none of these work, you will need to determine exactly what type of board you have and notify Educational Testing Service. We may need to provide you with a special graphics driver that matches your particular board. If you previously ordered a special graphics driver, it should be present on your Disk 5 and you should choose the SPECIAL option. If you see the message **Installed adapter is EGA, this doesn't match your settings. Install as set anyway? (Y/N)**, and you know that you want to install something other than EGA, press *Y* to proceed.

☞ Incorrect settings for the printer may cause the system to freeze, so try to determine proper settings prior to installation. Refer to your DOS or computer setup manual for information about your printer address ports. The printer settings of LPT1, LPT2, and LPT3 are for parallel printers; the settings of COM1 and COM2 are for serial printers.

- ☐ Press [Esc] to have the first of two introductory credit screens appear.

☞ If you selected an incorrect graphics driver setting, the introductory credit screen will not appear. In order to change to the correct driver, you need to go to the CPTs Main Menu. Do this by typing, from the DOS prompt,

*CPTS3 xxxx* (where *xxxx* is your password)

and press [ENTER]. The Main Menu shown on page 57 appears. Select the **System Configuration Menu** option and then select the **Set Hardware Configuration** option. The screen shown at the bottom of page 17 appears. Select the desired graphics board from this screen.

- ☐ Press [ENTER] twice to bypass the two introductory screens.
- ☐ Proceed to the **Continuing CPTs Installation** section on page 37.

## Standalone Computer with Floppy Disks

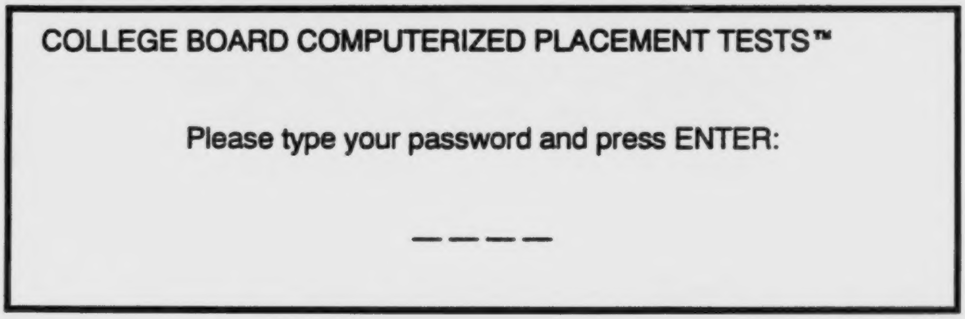
☐ Boot your computer by turning it on.

☐ Enter the current date and time if requested. Be careful to enter the correct date since it will be used as the testing date and will appear on all reports. When you see the DOS prompt (A:\>) proceed with the following steps.

☐ Place the CPTs Version 3.0 Disk 1 in drive A.

☐ Type *CPTS3* and press [ENTER].

☐ When the following screen appears, type your password and press [ENTER]. The password will <u>not</u> appear on the screen so that it cannot be observed by others. You will find your password with your order of diskettes.



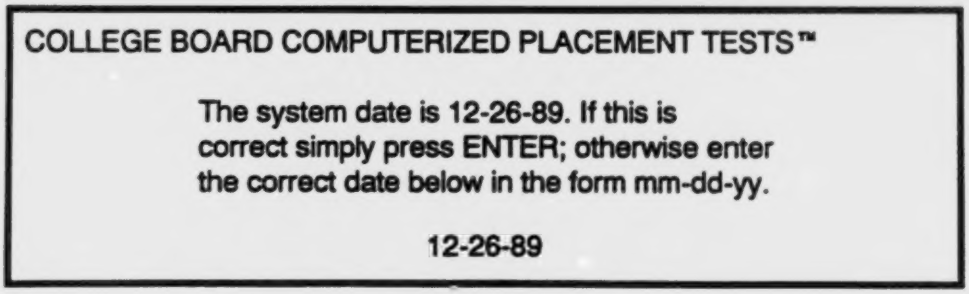
```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

        Please type your password and press ENTER:

                        ____
```

☞ If you enter the wrong password, you will immediately be returned to the DOS prompt. Type *CPTS3* to try again.

☐ After the system accepts your password, the following screen will appear (12-26-89 is for illustration):



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

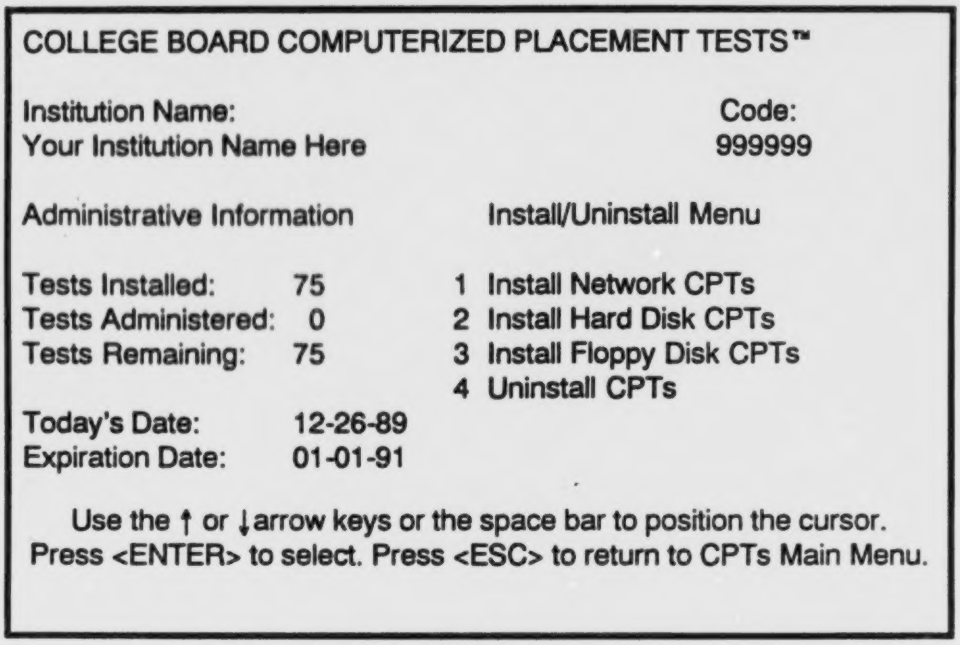
          The system date is 12-26-89. If this is
          correct simply press ENTER; otherwise enter
          the correct date below in the form mm-dd-yy.

                         12-26-89
```

☐ Type in the current date if the date displayed is not correct. It is very important to enter the correct date here since it will be logged as the testing date and will also appear on your reports.

☐ Press [ENTER] and you will receive the message **Working . . . Please Wait.**

☐ The following screen will now appear:



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Institution Name:                                   Code:
Your Institution Name Here                          999999

Administrative Information          Install/Uninstall Menu

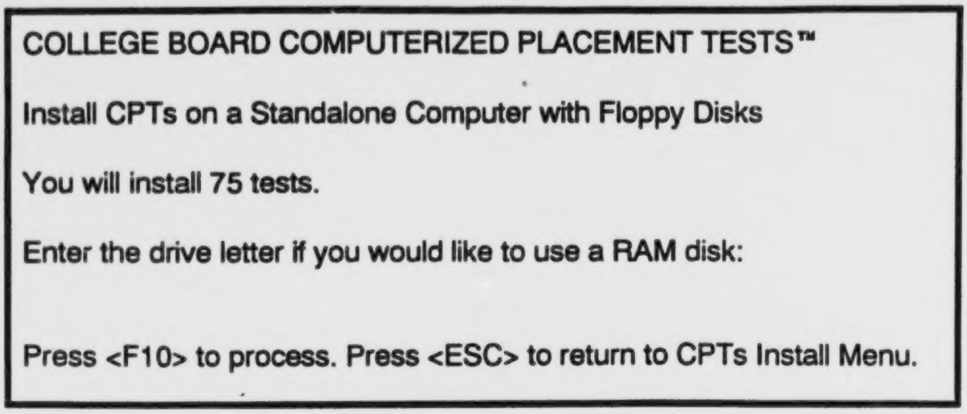
Tests Installed:       75          1  Install Network CPTs
Tests Administered:     0          2  Install Hard Disk CPTs
Tests Remaining:       75          3  Install Floppy Disk CPTs
                                   4  Uninstall CPTs
Today's Date:          12-26-89
Expiration Date:       01-01-91

   Use the ↑ or ↓ arrow keys or the space bar to position the cursor.
 Press <ENTER> to select. Press <ESC> to return to CPTs Main Menu.
```

☐ The **Administrative Information** section on the left of this screen contains data for your information. You cannot change these data at this time. The **Install/Uninstall Menu** section on the right of this screen contains various options you can use to install or uninstall CPTs. Follow the directions at the bottom of the screen to highlight the type of installation you want.

☞ When you are asked to type information on subsequent screens, the normal editing keys on the keyboard can be used. When you are done typing your entry, press [ENTER] to move to the next field. On some screens, you may need to move around the options with the [Space Bar] or the ↑ and ↓ arrow keys, and then use the [ENTER] key to move to the next field. You may cycle around all the fields with the [ENTER] key, so that if you want to change something but have passed it, keep pressing [ENTER] until it reappears. Instructions appear at the bottom of each screen.

☐ Select option 3 **Install Floppy Disk CPTs.** Press [ENTER]. The following screen will appear:



COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Install CPTs on a Standalone Computer with Floppy Disks

You will install 75 tests.

Enter the drive letter if you would like to use a RAM disk:

Press <F10> to process. Press <ESC> to return to CPTs Install Menu.

☐ If you wish to use a RAM disk, enter the disk letter.

☐ Press [F10] to continue the installation. The following message appears: **WARNING... Are you sure you want to install CPTs as a floppy disk system? You won't be able to uninstall it later!!! Press (Y/N).**

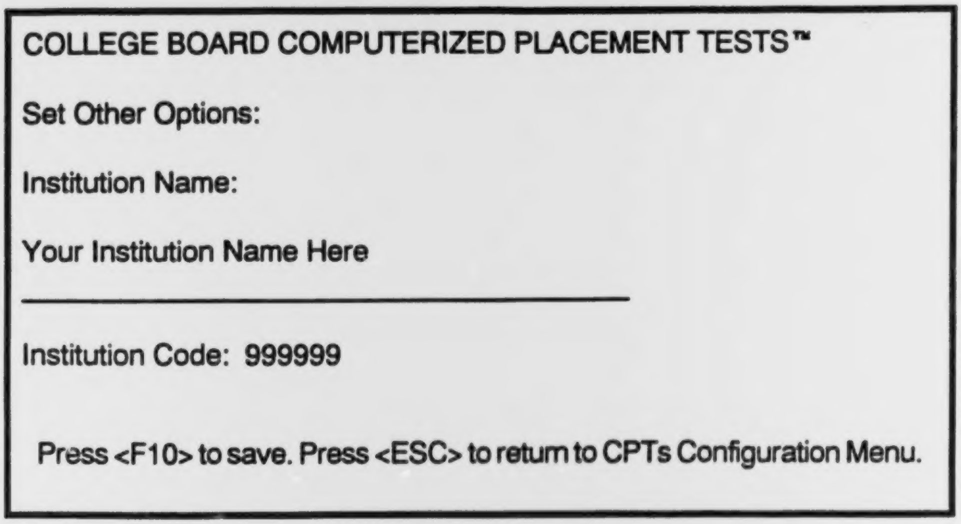
☛ When installing CPTs on a standalone computer with floppy disks, you must install all the tests. Once they are installed they can not be uninstalled and must be used on that computer. The number of tests to be installed is displayed on the screen as shown above (75 is illustrated).

☐ Enter *Y* to continue the installation or *N* to abort it.

☐ If you chose to install the tests, the following message is now displayed: **Copying files please wait . . . .** As the files are copied, additional dots appear to let you know this process is in progress. Follow the instructions on the screen when requested to insert the other floppies, Disks 2 through 5.

☐ Press any key when you see the message **CPTs Installation Complete . . . Press any key to exit install.**

☐ The following screen will now be displayed. Press [ENTER] to go from one field to the next. Use [Del] and [Backspace] to correct any errors. Type directly over **Your Institution Name Here** and **999999.** You may want to enter the institution name in capital letters. When you are done, press [F10] to save your entries.



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Set Other Options:

Institution Name:

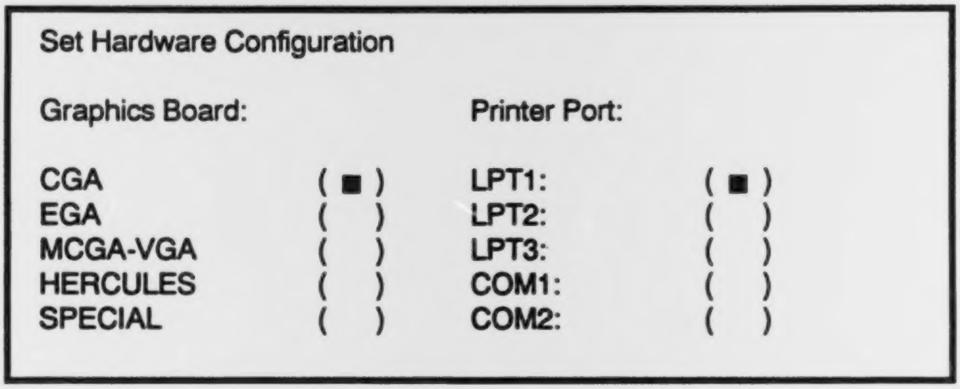
Your Institution Name Here
________________________________________

Institution Code:  999999

 Press <F10> to save. Press <ESC> to return to CPTs Configuration Menu.
```

☞ If your institution is not included in the College Code list beginning on page 165, please call the hotline number (609) 734-5782.

☐ Press [Esc] to go to the following screen:



```
Set Hardware Configuration

Graphics Board:                    Printer Port:

CGA              ( ■ )             LPT1:          ( ■ )
EGA              (   )             LPT2:          (   )
MCGA-VGA         (   )             LPT3:          (   )
HERCULES         (   )             COM1:          (   )
SPECIAL          (   )             COM2:          (   )
```

☐ When you are prompted, insert Disk 5 into drive A. The software will automatically check your computer for the correct graphics driver to install. Please be patient and wait for the computer to finish comparing all the drivers on Disk 5 with your equipment. You will know that the software has completed this verification when the drive indicator lights stop blinking and the message **Changes Saved** flashes on the screen. The ■ symbol is then placed to the right of the appropriate board/driver in the **Graphics Board** column on the left of this screen. In the **Printer Port** column on the right of this screen, the default is **LPT1**. If your system varies from this, change to the appropriate Graphics Board and Printer Port settings. See the notes immediately below. Use the [space bar] or the ↑ and ↓ arrow keys to select a single entry in each column and use [ENTER] to switch between the two columns. Press [F10] to save your choices.

☞ Select **SPECIAL** if you ordered a special graphics device driver or your computer is equipped with a Compaq Enhanced Color Graphics Board (ECGB).

☞ Select **EGA** if your graphics board is an AT&T Display Enhancement Board, a Sigma Designs Color 400, or a Tseng Labs EVA or EVA/480.

☞ Try to find out which type of graphics board you have prior to installation of CPTs. In any case, the installation program will attempt to help you with a message about your monitor. In some cases of "compatible" graphics boards, the program may report that you have an EGA board, but when you install this driver, you will get blank screens or unintelligible information on the screen when you enter testing. This means that you do not have a true EGA board. You may have a Compaq Enhanced Color Graphics Board, so try the SPECIAL setting. The graphics board setting can be changed at any time by following the procedure on page 19.

☞You can try each of the other options offered during installation, but if none of these work, you will need to determine exactly what type of board you have and notify Educational Testing Service. We may need to provide you with a special graphics driver that matches your particular board. If you previously ordered a special graphics driver, it should be present on your Disk 5 and you should choose the SPECIAL option. If you see the message **Installed adapter is EGA, this doesn't match your settings. Install as set anyway? (Y/N)**, and you know that you want to install something other than EGA, press *Y* to proceed.

☞Incorrect settings for the printer may cause the system to freeze, so try to determine proper settings prior to installation. Refer to your DOS or computer setup manual for information about your printer address ports. The printer settings of LPT1, LPT2, and LPT3 are for parallel printers; the settings of COM1 and COM2 are for serial printers.

☐ Press [Esc]. The first of two introductory credit screens appear. You will be prompted to insert Disk 2 into the A: drive.

☞If you selected an incorrect graphics driver setting, the introductory credit screen will not appear. In order to change to the correct driver, you need to go to the CPTs Main Menu. Do this by typing, from the DOS prompt,

*CPTS3 xxxx* (*xxxx* is your password)

and press [ENTER]. The Main Menu shown on page 57 appears. Select the **System Configuration Menu** option and then select the **Set Hardware Configuration** option. The screen shown at the bottom of page 17 appears. Select the desired graphics board from this screen. Insert Disk 5 into drive A when prompted to do so.

☐ Press [ENTER] twice to bypass the two introductory screens.

☐ Proceed to the **Continuing CPTs Installation** section on page 37.

## Network File Server

This procedure is for installing CPTs on a Local Area Network (LAN). **It should be performed by a local area network administrator or by someone very familiar with LAN operations.** Each computer attached to the file server will use CPTs without regard to what the other attached computers may be doing. As the installation proceeds, you will see messages informing you what to do next. Follow these instructions carefully. Always wait for the light on the disk drive to disappear before removing the disk.

☐ Boot the file server computer and, if necessary, the computer from which the installation will be done.

☐ Have your LAN administrator identify a directory on the file server for installation of CPTs. The administrator should also assign a fixed (permanent) drive letter to that directory. This drive letter must be mapped to the file server directory for all network workstations and for the file server itself. The drive code and subdirectory will be identified to CPTs during the installation process. Installation can take place on any workstation having the proper access to the file server (i.e., LAN administrator privileges).

☐ Enter the current date and time if requested. Be careful to enter the correct date since it will be used as the testing date and will appear on all reports. When you see the DOS prompt (usually C:\>) proceed with the following steps.

☐ Set up two drive types for the CPTs system. The first drive type is on the file server and is for the CPTs software itself. It must be a public drive accessible to all users (test takers) on a read-write basis and must include a specific path (e.g., F:\CPTS3). The drive letter must be different for private and public drives.

☐ The second drive type should be a private (local) drive for each computer attached to the file server on which tests will be administered. It may be a local disk drive on each computer connected to the file server, such as C:, or it may be a drive on the file server with exclusive rights available only to one user. The private drive for each user needs to have the same drive letter to address it (i.e., each user may have a private drive such as **D**: mapped to that user's private area on the file server). You need a private drive for each workstation or computer attached to the LAN.

☞Do not install a Faculty Use Set on a hard disk drive/LAN file server on which an installation for student testing is also being installed.

☐ Place the CPTs Version 3.0 Disk 1 in the drive A floppy disk drive.

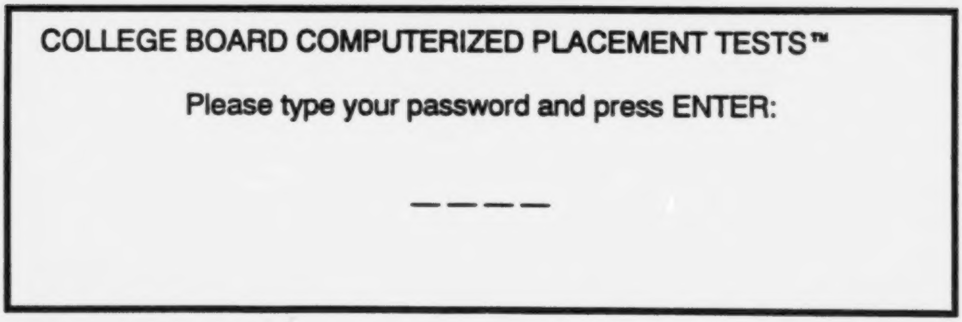
☐ Change the DOS prompt to drive A by typing *A:* and press [ENTER].

☐ Type *CPTS3* and press [ENTER].

☞If you forget to switch to drive A before typing *CPTS3*, the installation procedure will abort and return to the DOS prompt.

☞CPTs will automatically check for sufficient disk space. If CPTs detects that you do not have sufficient space on the hard disk (a minimum of two megabytes), you will see a message advising you to either abort the installation or to name another disk drive.

☐ When the following screen appears, type your password and press [ENTER]. The password will not appear on the screen so it cannot be observed by others. You will find your password with your order of diskettes.



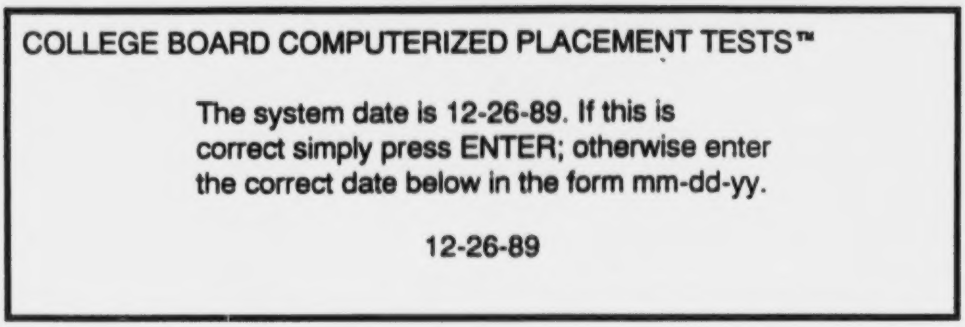
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Please type your password and press ENTER:

_ _ _ _ _

☞ If you enter the wrong password, you will be returned to the DOS prompt. Repeat the installation process by typing *CPTS3*.

☐ After the system accepts your password, the following screen will appear (12-26-89 is for illustration only):



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

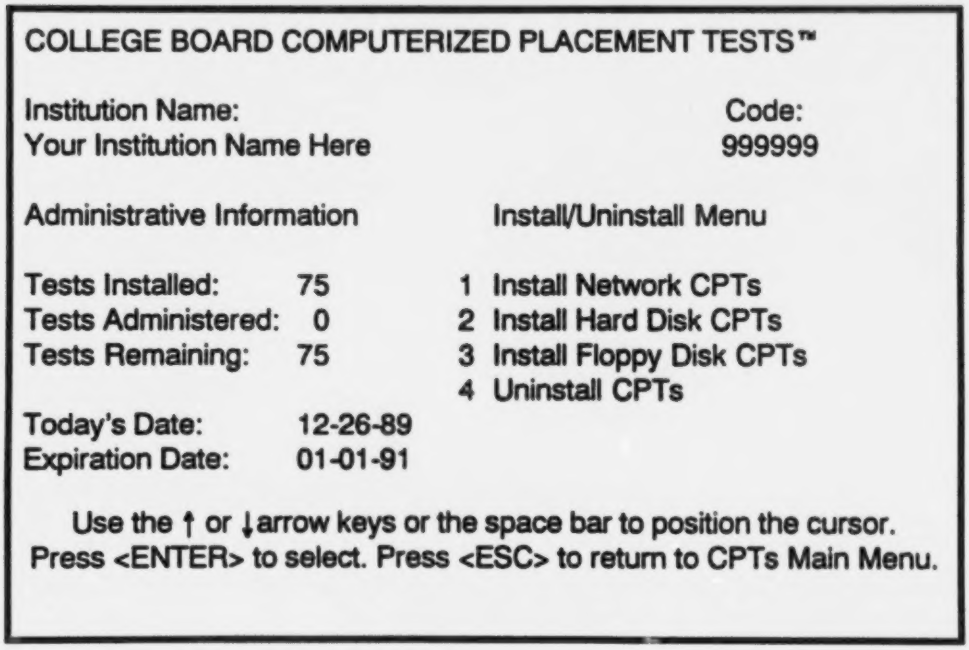
              The system date is 12-26-89. If this is
              correct simply press ENTER; otherwise enter
              the correct date below in the form mm-dd-yy.

                             12-26-89
```

☐ Type in the current date if the date displayed is not correct. It is very important to enter the correct date here since this date will be logged as the testing date and will also appear on your reports.

☐ Press [ENTER] and you will receive the message **Working . . . Please Wait.**

☐ The following screen will now appear:



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Institution Name:                                        Code:
Your Institution Name Here                               999999

Administrative Information           Install/Uninstall Menu

Tests Installed:       75          1  Install Network CPTs
Tests Administered:     0          2  Install Hard Disk CPTs
Tests Remaining:       75          3  Install Floppy Disk CPTs
                                   4  Uninstall CPTs
Today's Date:          12-26-89
Expiration Date:       01-01-91

    Use the ↑ or ↓arrow keys or the space bar to position the cursor.
  Press <ENTER> to select. Press <ESC> to return to CPTs Main Menu.
```

☐ The **Administrative Information** section on the left of this screen contains data for your information. You cannot change these data at this time. The **Install/Uninstall Menu** section on the right of this screen contains various options you can use to install or uninstall CPTs. Follow the directions at the bottom of the screen to highlight the type of installation you want.

☞ When you are asked to type information on subsequent screens, the normal editing keys on the keyboard can be used. When you are done typing your entry, press [ENTER] to move to the next field. On some screens, you may need to move around the options with the [space bar] or the ↑ and ↓ arrow keys, and then use the [ENTER] key to move to the next field. You may cycle around all the fields with the [ENTER] key, so that if you want to change something but have passed it, keep pressing [ENTER] until it reappears. Instructions appear at the bottom of each screen.

☐ Select option **1 Install Network CPTs** from the **Install/Uninstall** Menu.

☐ The following screen will appear:

```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

You have 75 tests, how many would you like to install? _50_

Enter the PUBLIC/NETWORK path location to install CPTs:
(e.g., "F:\CPTS3")

F:\CPTS3\______________________________________________

Enter the PRIVATE/LOCAL path location to operate CPTs:
(e.g., "D:")

D:_____________________________________________________

Enter the drive letter if you would like to use a RAM disk: ____

Press <F10> to process. Press <ESC> to return to CPTs Install Menu.
```

☐ The total number of tests available is shown (75 is illustrated). Enter the number of tests you wish to install up to the maximum (50 is illustrated). Press [ENTER].

☐ Enter the **PUBLIC/NETWORK path location to install CPTs**. Press [ENTER].

☐ Enter the **PRIVATE/LOCAL path location to operate CPTs**. Press [ENTER].

☞ If you are using a network drive for the private drive, do not include a path. Instead, just use the drive with a colon. Then, map that drive using network software.

☞ Example: The network is set up so the public drive on the file server is F:. The private drive that each attached computer uses is drive D:. The **PUBLIC/NETWORK** path entered in the screen above would be *F:\CPTS3*. The **PRIVATE/LOCAL** path would be D:.

☐ A batch file named **CPTS3.BAT** is created on the local/private drive. This file is used to invoke CPTS3 on the file server's public drive. Copy this file to every local/private drive.

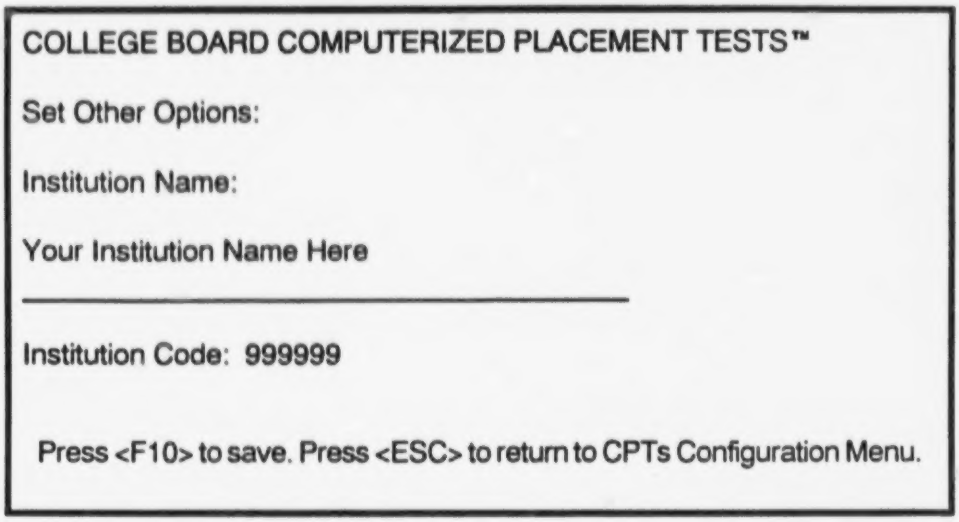
☛ Do not alter the CPTS3.BAT file in any way.

☐ The following message is now displayed: **Copying files please wait . . . .** As the files are copied, additional dots appear to let you know this process is in progress. Follow the instructions on the screen when requested to insert the remaining floppies, Disks 2 through 5.

☐ Press any key when you see the message: **CPTs Installation Complete . . . Press any key to exit install.**

☛ IMPORTANT: The following steps enable you to set up the system configuration. The configuration can also be changed at any other time. Do NOT change the system configuration while anyone else is using CPTs or while CPTs tests are being administered.

☐ The following screen will now be displayed. Press [ENTER] to go from one field to the next. Use [Del] and [Backspace] to correct any errors. Type directly over **Your Institution Name Here** and **999999**. You may want to enter the institution name in capital letters. When you are done, press [F10] to save your entries.



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Set Other Options:

Institution Name:

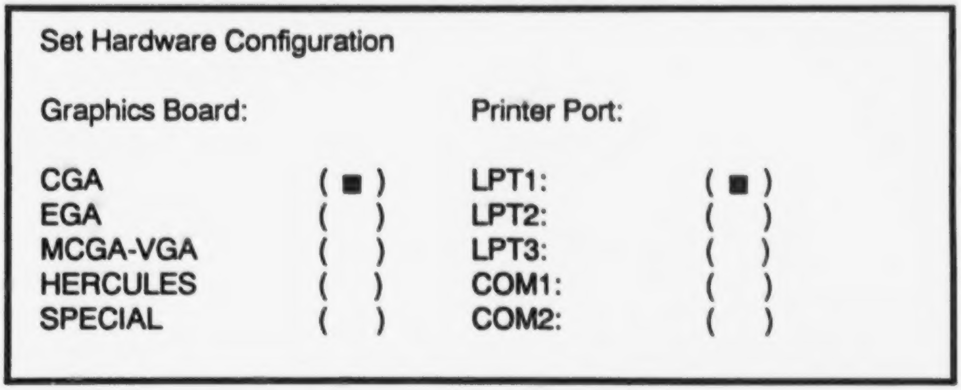
Your Institution Name Here
______________________________________

Institution Code:  999999

 Press <F10> to save. Press <ESC> to return to CPTs Configuration Menu.
```

☞ If your institution is not included in the College Code list beginning on page 165, please call the hotline number (609) 734-5782.

☐ Press [Esc] to go to the next screen shown below:



```
Set Hardware Configuration

Graphics Board:                   Printer Port:

CGA             ( ■ )             LPT1:          ( ■ )
EGA             (   )             LPT2:          (   )
MCGA-VGA        (   )             LPT3:          (   )
HERCULES        (   )             COM1:          (   )
SPECIAL         (   )             COM2:          (   )
```

☐ CPTs automatically checks your system hardware and places the ■ symbol to the right of the appropriate board/driver in the **Graphics Board** column on the left of this screen. In the **Printer Port** column on the right of this screen, the default is **LPT1** as shown. If your system varies from this, change to the appropriate Graphics Board and Printer Port settings. See the notes immediately below. Use the [space bar] or ↑ and ↓ arrow keys to select a single entry in each column and use [ENTER] to switch between the two columns. Press [F10] to save your choices.

☞ Select **SPECIAL** if you ordered a special graphics device driver, or your computer is equipped with a Compaq Enhanced Color Graphics Board (ECGB).

☞ Select **EGA** if your graphics board is an AT&T Display Enhancement Board, a Sigma Designs Color 400, or a Tseng Labs EVA or EVA/480.

☞ Try to find out which type of graphics board you have prior to installation of CPTs. In any case, the installation program will attempt to help you with a message about your monitor. In some cases of "compatible" graphics boards, the program may report that you have an EGA board, but when you install this driver, you will get blank screens or unintelligible information on the screen when you enter testing. This means that you do not have a true EGA board. You may have a Compaq Enhanced Color Graphics Board, so try the **SPECIAL** setting. The graphics board setting can be changed at any time by following the procedure on page 19.

☞ You can try each of the other options offered during installation, but if none of these work, you will need to determine exactly what type of board you have and notify Educational Testing Service. We may need to provide you with a special graphics driver that matches your particular board. If you previously ordered a special graphics driver, it should be present on your Disk 5 and you should choose the SPECIAL option. If you see the message **Installed adapter is EGA, this doesn't match your settings. Install as set anyway? (Y/N)**, and you know that you want to install something other than EGA, press *Y* to proceed.

☞ During network installation a batch file called **CPTS3.BAT** is created on the local/private drive from which you did the installation. This file is used to invoke CPTS3 on the file server's Public drive. **Copy this file to every local/private drive**.

☞ After installation, the CPTs software is to be started from each user's private drive. All of the necessary files (programs and data) are then downloaded from the public drive to the private (default) drive. Processing is then performed on each private drive until testing on that computer is completed. The last function CPTs performs is to append the test taker's results to the public **ADM.LOG** file and clear the downloaded files from the private drive.

☞ If you need to utilize a special graphics driver you must create a batch file* on each computer on the network that has a special graphics monitor installed. This file must contain the following statement:

```
COPY <public-path>\SPECIAL.DEV <private-path> \GBOARD.DEV

CPTS3
```

Be sure to include any spaces shown. Execute this file, instead of the standard CPTS3 file. This will cause the required monitor display driver for that computer to be loaded and will automatically start CPTs. After a testing session is completed, the driver will be deleted automatically. In the COPY command shown, replace **<public-path>** with the path name where CPTs is installed on the network, and replace **<private-path>** with the path name from which CPTs is invoked.

* You can give this file any name you wish except CPTS3 and it must have the BAT "extension." For example, if you use the file name CPTSSPEC, the actual name must be CPTSSPEC.BAT. We recommend you place this file in the root directory of the computer. As with any batch file, execute it without typing the BAT; i.e., type *CPTSSPEC* and then press [ENTER].

☞ Incorrect settings for the printer may cause the system to freeze, so try to determine proper settings prior to installation. CPTs can be installed on the file server from any workstation having proper access to it (i.e., LAN administrator privileges). Refer to your DOS or computer setup manual for information about your printer address ports. The printer settings of LPT1, LPT2, and LPT3 are for parallel printers; the settings of COM1 and COM2 are for serial printers.

☐ Press [Esc] to have the first of two introductory credit screens appear.

☞ If you selected an incorrect graphics driver setting, the two introductory credit screens will not appear. In order to change to the correct driver, you need to go to the CPTs Main Menu. Do this by typing, from the DOS prompt,

*CPTS3*

and press [ENTER] twice to bypass two blank screens. Then press [ENTER] a third time. The Main Menu shown on page 57 appears. Select the **System Configuration Menu** option and then select the **Set Hardware Configuration** option. The screen shown at the bottom of page 17 appears. Select the desired graphics board from this screen.

☐ See the following special notes for Novell or IBM PC Network Installations. Then proceed to the **Continuing CPTs Installation** section beginning on page 37.

## Special Note for IBM PC Network Installation

Do not attempt to start CPTS3 until the procedure outlined below has been completed. For IBM PC networks, the file access must be changed to Read-Only, shareable, for all files except the following which must be left as is:

- CPT.CFG
- INST.CFG
- SST.CFG
- GBOARD.DEV
- STEM.DBF
- OPTION.DBF
- INST.SST
- CPT2PMS.DAT
- STUDENT.DBF

## Special Note for Novell Network Installation

Do not attempt to start CPTS3 until the procedure outlined below has been completed. For Novell networks, the file access must be Read-Only Shareable for all files except for the following. These must be set to Read/Write/Non-Shareable. Users of Novell Version 2.0 may find that the batch file explained on the following page for Iclass users will be helpful.

- CPT.CFG
- INST.CFG
- SST.CFG
- GBOARD.DEV
- STEM.DBF
- OPTION.DBF
- INST.SST
- CPT2PMS.DAT
- STUDENT.DBF

☞ Do not specify the Public Drive as the search drive.

☛ Before uninstalling CPTs from a network environment, any file set to Read-Only must be changed to Read/Write. If this is not done, these files will not be deleted.

## Instructions for Iclass Users

In order to install CPTs with a Novell System using Iclass you must exit Iclass and return to DOS. The regular install instructions may then be followed. Be sure to flag the files for read/write as explained under **Special Note for Novell Network Installation.**

Create a batch file which can be invoked and run from Iclass. The batch file should contain the following:

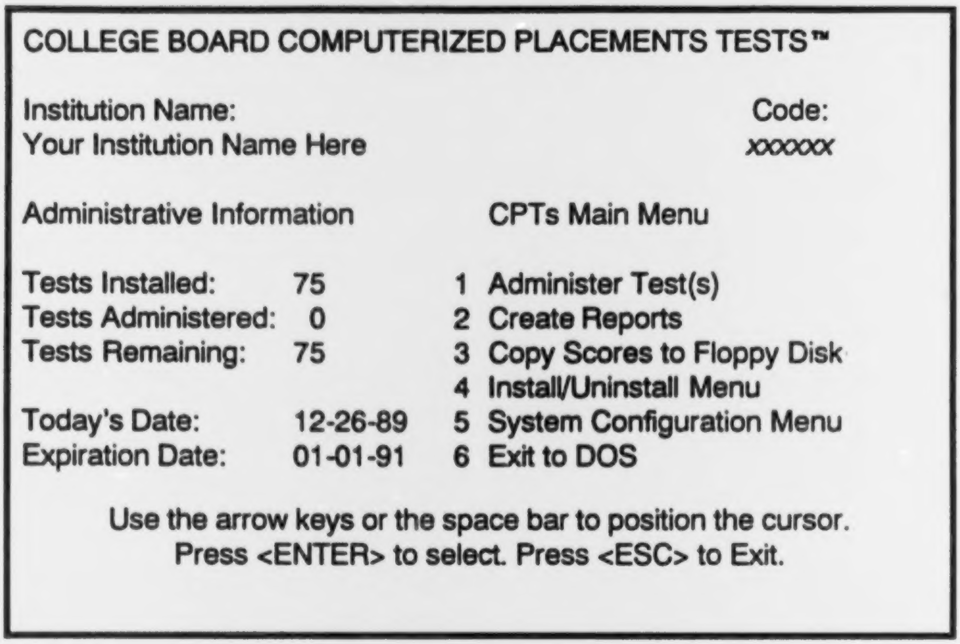
```
ncopy <public>\gboard.dev <private>
ncopy <public>\inst.cfg <private>
ncopy <public>\gfont.914 <private>
ncopy <public>\stem.dbf <private>
ncopy <public>\option.dbf <private>
ncopy <public>\sst.cfg <private>
ncopy <public>\studlin.ndx <private>
ncopy <public>\studin.ndx <private>
call CPTS3
```

Name the batch file anything but CPTS3. You will invoke CPTS3 by using this special batch file.

☞ Call will only work for DOS 3.2 or higher. If you have an earlier version of DOS you will have to invoke the batch file above. When it has completed execution, invoke CPTS3.BAT by typing CPTS3.

## Continuing CPTs Installation

☐ You will now see the **CPTs Main Menu** screen, which is shown below. The **Administrative Information** portion on the left side of the screen displays information about the tests you have installed. Your institution name appears as you entered it during installation. The right side of the **CPTs Main Menu** screen contains the options for using CPTs. The *xxxxxx* represents the college code you entered during installation. As part of the installation, we will use the **System Configuration Menu** option. The other options will be discussed starting on page 57 in the **SYSTEM OPERATION** chapter.



```
COLLEGE BOARD COMPUTERIZED PLACEMENTS TESTS™

Institution Name:                                        Code:
Your Institution Name Here                               xxxxxx

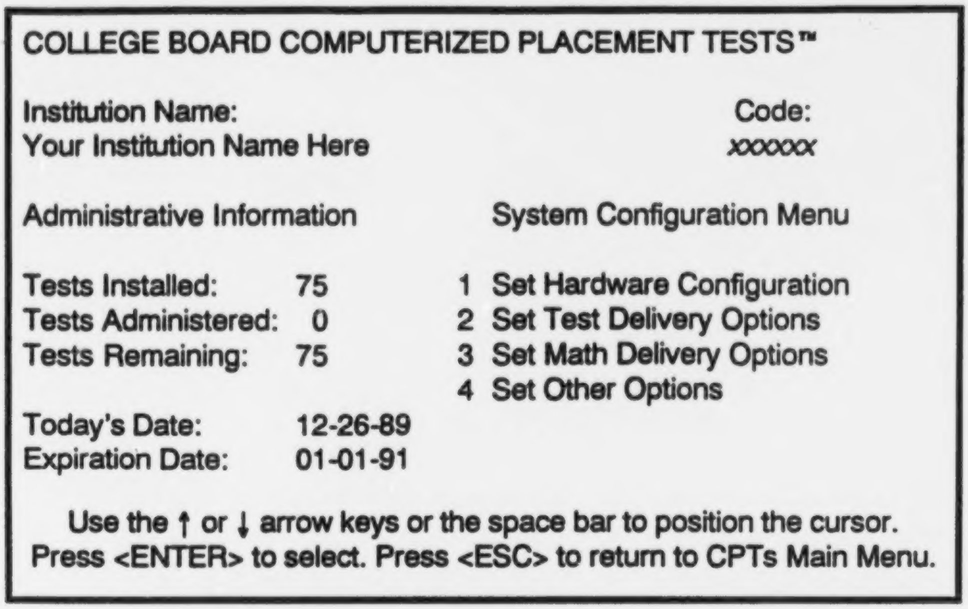
Administrative Information           CPTs Main Menu

Tests Installed:       75          1  Administer Test(s)
Tests Administered:     0          2  Create Reports
Tests Remaining:       75          3  Copy Scores to Floppy Disk
                                   4  Install/Uninstall Menu
Today's Date:          12-26-89    5  System Configuration Menu
Expiration Date:       01-01-91    6  Exit to DOS

      Use the arrow keys or the space bar to position the cursor.
           Press <ENTER> to select. Press <ESC> to Exit.
```

☐ Choose option **5 System Configuration Menu.** This screen is shown below.

☞ If you highlight an option by using the [space bar] or the ↑ and ↓ arrow keys, you must then press [ENTER] to select that option. However, if you select it by entering its number, you need not press [ENTER]; the system will react as if you had pressed [ENTER].



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

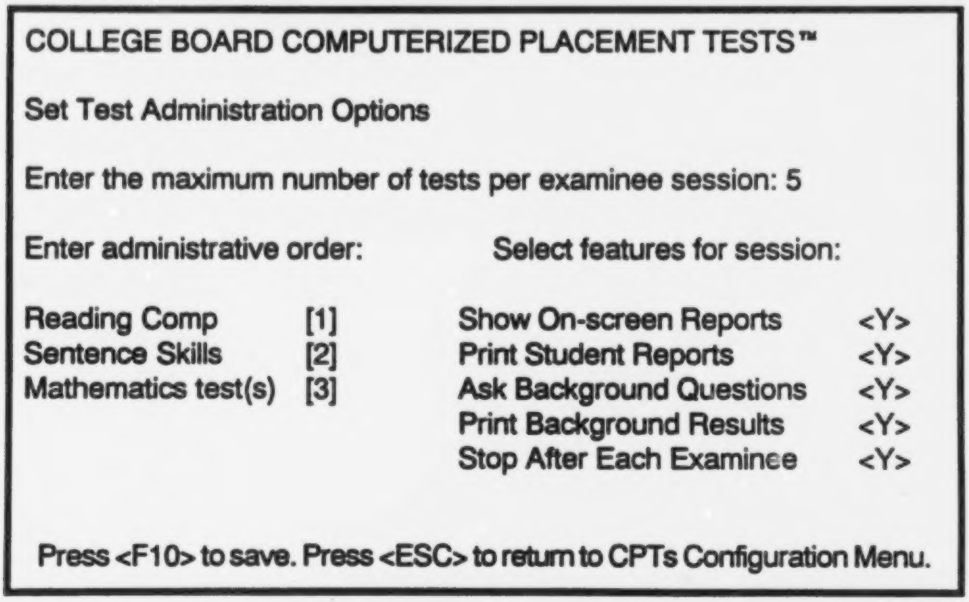
Institution Name:                                   Code:
Your Institution Name Here                          xxxxxx

Administrative Information         System Configuration Menu

Tests Installed:      75         1 Set Hardware Configuration
Tests Administered:    0         2 Set Test Delivery Options
Tests Remaining:      75         3 Set Math Delivery Options
                                 4 Set Other Options
Today's Date:         12-26-89
Expiration Date:      01-01-91

   Use the ↑ or ↓ arrow keys or the space bar to position the cursor.
  Press <ENTER> to select. Press <ESC> to return to CPTs Main Menu.
```

☐ The right side of the screen changes to the **System Configuration Menu** shown. Choose option **2 Set Test Delivery Options.** Press [ENTER] if necessary. This screen then appears:



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Set Test Administration Options

Enter the maximum number of tests per examinee session: 5

Enter administrative order:        Select features for session:

Reading Comp           [1]       Show On-screen Reports       <Y>
Sentence Skills        [2]       Print Student Reports        <Y>
Mathematics test(s)    [3]       Ask Background Questions     <Y>
                                 Print Background Results     <Y>
                                 Stop After Each Examinee     <Y>

 Press <F10> to save. Press <ESC> to return to CPTs Configuration Menu.
```

☐ Use the [ENTER] key to move among the fields in this screen. Use the [ENTER] key or the ↑ and ↓ arrow keys to move among the options within a field.

☐ You will see **Enter the maximum number of tests per examinee session: 5**. Accept the maximum default of five (5) or decrease it if desired.

☞ If you plan to use all of the tests, leave the maximum number of tests per examinee session equal to five (5). If you plan to use branching among the three math tests and to administer the two verbal tests, you must have five (5) tests entered here even though only two math tests may actually be administered. If you want to ensure that each student takes fewer than five tests, perhaps two math tests and two verbal tests, because of time constraints, you could enter four (4) for the maximum number of tests.

☐ Make entries for the test types under **Enter administrative order** on the left side of the screen. If you do not want a test to be administered, type *X* next to it. If you want the tests to be presented in a different order than is shown, type *1*, *2*, and *3* adjacent to each test type to indicate the desired order. The order shown on this screen is the default order that comes with CPTs.

☐ Under **Select features for session:** specify the features you wish or do not wish by typing *Y* (Yes) or *N* (No) adjacent to each feature.

- **Show On-screen Reports**: This will cause the student's test results (percentile report) to display on the screen at the conclusion of testing.
- **Print Student Reports**: The Individual Student Report will be printed after the test, provided your printer is ready to print.
- **Ask Background Questions**: Each student will be asked the standard biographical questions or those you specially ordered.
- **Print Background Results**: This will cause the responses to the background questions to appear on the Individual Student Report.
- **Stop After Each Examinee**: This requires the testing supervisor to follow the standard **Escape Procedure** (press [Esc], followed by your password) after each student, before beginning to test the next student.

☞The Escape Procedure is discussed in detail starting on page 74 in the **SYSTEM OPERATION** chapter. NOTE: If you choose *N* for this option, the supervisor need only press [ENTER] to test the next student. Caution: If *N* is chosen here, unauthorized student testing could result without supervisor knowledge.

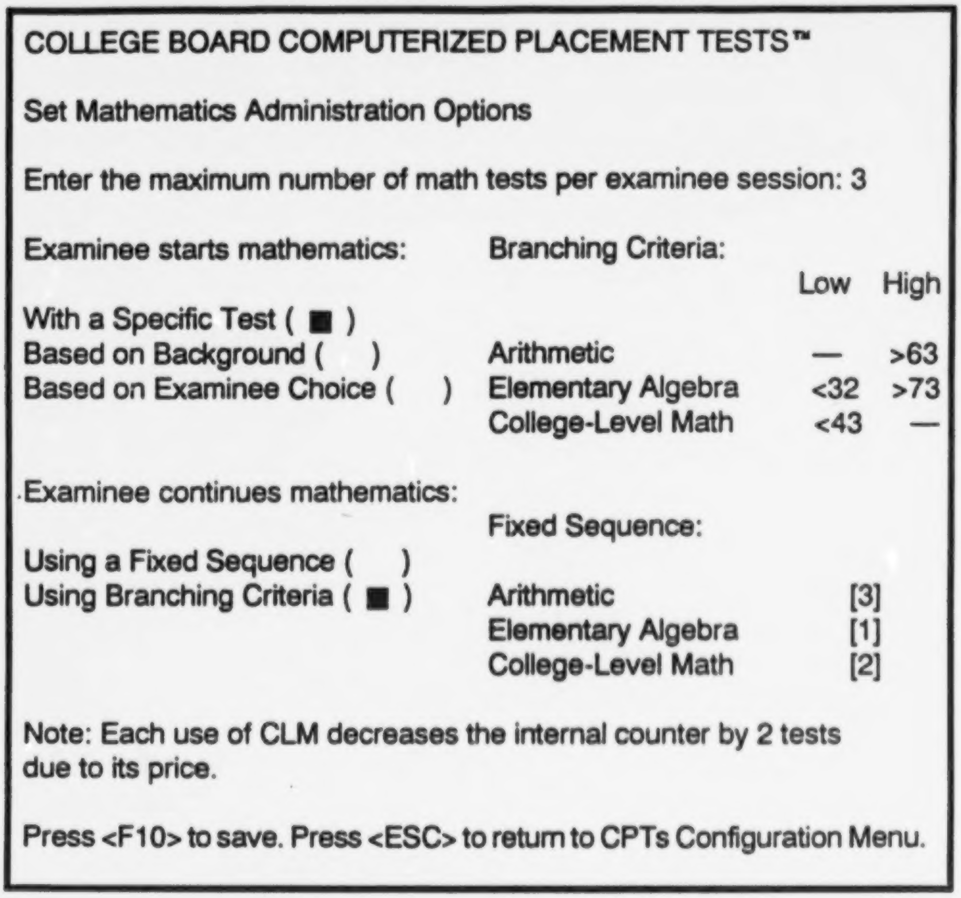
☛ **IMPORTANT**: The way in which you respond to these options will affect the sequence of events during the actual testing procedure. In the **SYSTEM OPERATION** chapter, which begins on page 51, we illustrate the procedures assuming all the options have been answered with *Y* as shown in the screen above. Please be aware that the sequence of events will vary depending on the way in which you answer the questions.

☐ Press [F10] to save your changes.

☐ Press [Esc] to return to the previous Menu.

☐ Choose option **3 Set Math Delivery Options.**

☐ You will be presented with the **Set Mathematics Administration Options** screen shown below:



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Set Mathematics Administration Options

Enter the maximum number of math tests per examinee session: 3

Examinee starts mathematics:        Branching Criteria:
                                                            Low   High
With a Specific Test ( ■ )
Based on Background (   )           Arithmetic              —     >63
Based on Examinee Choice (   )      Elementary Algebra      <32   >73
                                    College-Level Math      <43   —

Examinee continues mathematics:
                                    Fixed Sequence:
Using a Fixed Sequence (   )
Using Branching Criteria ( ■ )      Arithmetic                [3]
                                    Elementary Algebra        [1]
                                    College-Level Math        [2]

Note: Each use of CLM decreases the internal counter by 2 tests
due to its price.

Press <F10> to save. Press <ESC> to return to CPTs Configuration Menu.
```

☐ At the **Enter the maximum number of math tests per examinee session: 3** message, accept the maximum default of three (3), or decrease it if desired.

☐ Under **Examinee starts mathematics:** choose the way you wish to <u>start mathematics testing:</u>

- **With a Specific Test.** You may set the order of presentation of the mathematics tests as shown in the bottom right portion of this screen (**Using a Fixed Sequence**). The test to be given <u>first</u> will be the one you indicate. Specify *1*, *2*, and *3* as desired. Use an *X* to indicate that a test should <u>not</u> be administered.
- **Based on Background.** The appropriate mathematics test will be administered <u>first</u>, dependent upon answers to three of the standard mathematics experience questions from the background questions. See page 111 in the **APPENDIX** for the logic used by CPTs.

- **Based on Examinee Choice.** If you want each student to decide which mathematics test to take first, use this option. At the appropriate point, the system will display a screen on which the test taker will indicate the first mathematics test to be taken.

☐ Select the desired option under **Examinee continues mathematics:**. Choose the way you want to continue mathematics testing:

- **Using a Fixed Sequence.** You may set the order of presentation of the mathematics tests as shown in the bottom right portion of this screen. The test to be given second will be the one you indicate. This option is available only if you start with fixed sequence.
- **Using Branching Criteria.** Use this option if you want the following mathematics test(s) to be determined by the system based on the minimum and maximum scores achieved on the previous mathematics tests. You will set these levels in the next step.

☐ Enter the **Branching Criteria** desired. Set the branching levels you want to continue mathematics testing (if you have chosen to continue testing in this manner in the previous steps). See page 114 in the **APPENDIX** for an explanation of what this notation means.

☞ The initial default values are:

- Arithmetic: Low —, High >63
- Elementary Algebra: Low <32, High >73
- College-Level Math: Low <43, High —

☞ Once you change these values on the screen, they become the new default values. Of course, you can change them any time.

☛ Never change the configuration on a network while the system is being used to administer tests.

☞ If you have chosen not to use branching rules above, you will not be able to enter branching values.

☐ Set the specified order in which you want the mathematics tests to be presented. This option may be used to start and continue testing. If you have NOT chosen to use a specified order to start and continue, you will not be able to enter sequence numbers.

☐ Press [F10] to save any changes to the default settings.

☐ Press [Esc] to return to the previous menu.

☐ Press [Esc] again to return to the CPTs Main Menu.

☐ Choose option **1 Administer Test(s)**. A summary screen is displayed with settings that will be used in testing. If these are not as you want them, press [Esc] to return to the CPTs **Main Menu** and change to the desired settings as explained beginning on page 37. If the summary is set the way you want it, press [ENTER] to begin testing. The first student testing screen displays the symbol of the [ENTER] key on it, i.e., ↵.

☐ Continue to page 51 of the **SYSTEM OPERATION** chapter to operate CPTs.

☞ To install additional tests at any time, please see the procedure beginning on the following page.

## Installing Additional Tests

Once the installation of CPTs has been completed according to the previous sections in this chapter, it normally does not need to be repeated. However, additional tests may be secured and installed at any time without repeating the software installation process. The procedure to do this follows below.

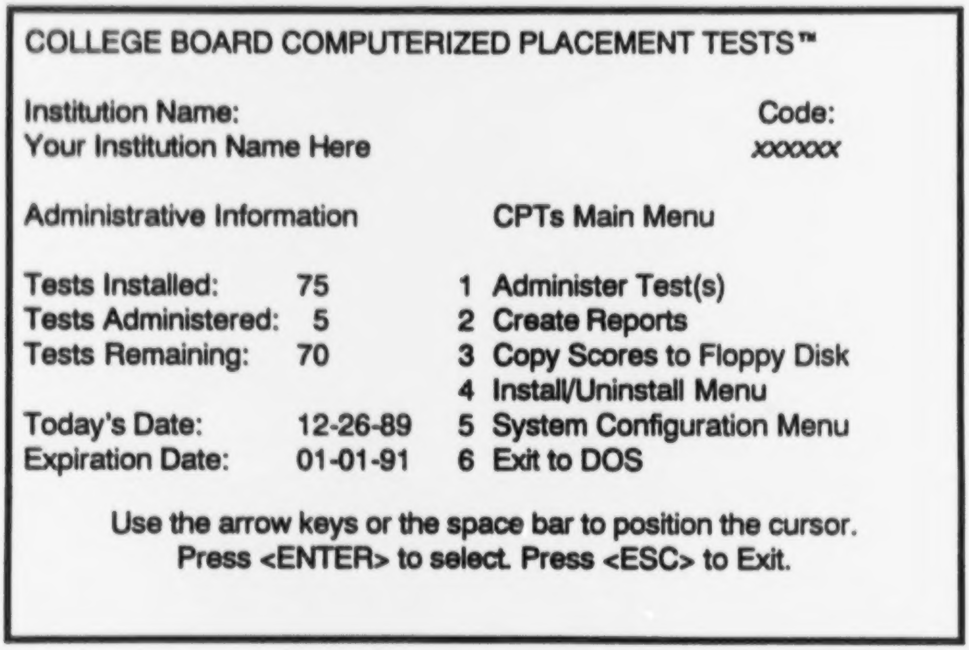
☐ Invoke CPTs as explained beginning on page 53 of the **SYSTEM OPERATION** chapter. Be sure to follow the procedure corresponding to your particular installation (5-1/4 inch or 3-1/2 inch disk drive environment, hard disk drive, or network).

☞This is not possible for floppy disk installations.

☐ Complete the password and system date procedures.

☐ When each of two introductory credit screens appears, press [ENTER] to bypass it.

☐ The CPTs Main Menu screen will now appear as shown below:



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

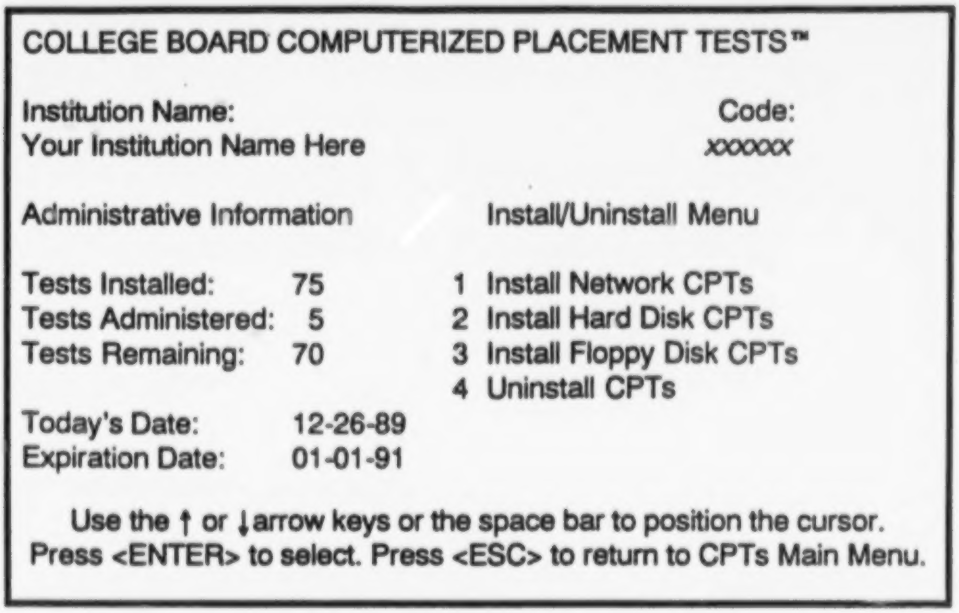
Institution Name:                                        Code:
Your Institution Name Here                               xxxxxx

Administrative Information          CPTs Main Menu

Tests Installed:        75          1  Administer Test(s)
Tests Administered:      5          2  Create Reports
Tests Remaining:        70          3  Copy Scores to Floppy Disk
                                    4  Install/Uninstall Menu
Today's Date:        12-26-89       5  System Configuration Menu
Expiration Date:     01-01-91       6  Exit to DOS

      Use the arrow keys or the space bar to position the cursor.
           Press <ENTER> to select. Press <ESC> to Exit.
```

☐ Select option 4 **Install/Uninstall Menu**. The following screen will appear:



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Institution Name:                                      Code:
Your Institution Name Here                             xxxxxx

Administrative Information        Install/Uninstall Menu

Tests Installed:       75       1  Install Network CPTs
Tests Administered:     5       2  Install Hard Disk CPTs
Tests Remaining:       70       3  Install Floppy Disk CPTs
                                4  Uninstall CPTs
Today's Date:          12-26-89
Expiration Date:       01-01-91

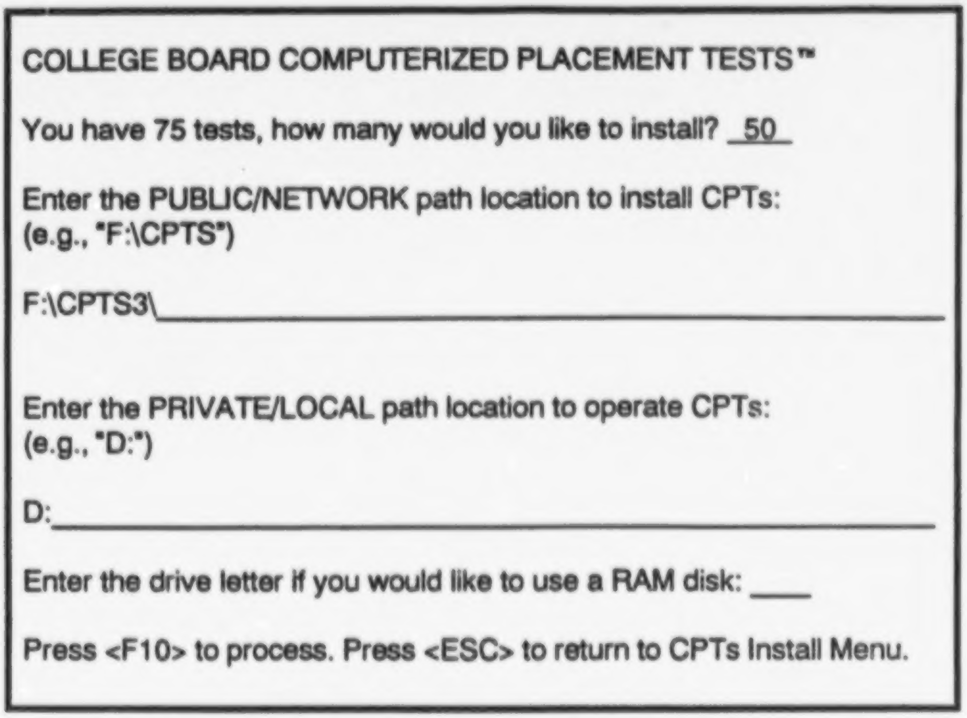
    Use the ↑ or ↓arrow keys or the space bar to position the cursor.
  Press <ENTER> to select. Press <ESC> to return to CPTs Main Menu.
```

☐ Place Disk 1, containing the additional tests you wish to install, into drive A:.

☐ Select option **1 Install Network CPTs** if you are adding these tests to a network, or option **2 Install Hard Disk CPTs** if you are adding them to a standalone hard disk system.

☐ The system will read the disk in drive A: and report the number of tests available on the following screen (75 is shown for illustrative purposes):

☞ If the number of tests you elect to install is less than the number with which you started on Disk 1, this disk should be retained for future installation of the remaining tests.



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

You have 75 tests, how many would you like to install? _50_

Enter the PUBLIC/NETWORK path location to install CPTs:
(e.g., "F:\CPTS")

F:\CPTS3\________________________________________

Enter the PRIVATE/LOCAL path location to operate CPTs:
(e.g., "D:")

D:_______________________________________________

Enter the drive letter if you would like to use a RAM disk: ____

Press <F10> to process. Press <ESC> to return to CPTs Install Menu.
```

- ☐ Enter the number of available tests you wish to add to the installation (50 is shown for illustrative purposes). Press [ENTER].
- ☐ If you chose option **2 Install Hard Disk CPTs**, the information referring to the Public/Network-path location will not appear on this screen. **PRIVATE/LOCAL-path location to operate CPTs** will already contain the proper entry. Press [ENTER] to accept this entry.
- ☐ If you chose option **1 Install Network CPTs**, **PUBLIC/NETWORK** and **PRIVATE/LOCAL** will already contain the proper entries. Press [ENTER] to accept them.
- ☐ If you are using a **RAM disk**, enter the disk letter.
- ☐ Press [F10].
- ☐ The tests will now be read from drive A: to the hard disk. At the message **CPTs Installation Complete . . . Press any key to Exit Install**, press the [ENTER] key.
- ☐ You will be returned to the Install/Uninstall screen. Press [Esc] to return to the Main Menu.

☞ Besides installing additional tests, this procedure will check the expiration date of the system. If the date for the newly installed tests is later than the date of the installed tests, the expiration date will be incremented to the later date.

## Installing Multiple Copies of CPTs

You may wish to install CPTs in more than one subdirectory. There might be several reasons for this.

- To keep one or more types of tests separate from the others. For example, College-Level Mathematics can be kept separate from regular student testing.
- To keep retest data for students separate from previous test results for those students.
- To maintain a separate system for demonstration or training purposes.

☞ When CPTs is installed, a batch file named CPTS3.BAT is created and placed in your root directory (typically, C:\). When you type *CPTS3*, it is this file that causes CPTs to be executed. If you attempt to install different kinds of tests in different subdirectories, the procedure will work. However, the CPTS3.BAT file created will allow you to access only those tests in the last subdirectory installed. Therefore, you should not install tests in different subdirectories without creating new .BAT files (see below).

This section assumes that you have already installed CPTs according to the standard procedures contained in this chapter. The installation of additional sets of CPTs differs for installation on a standalone hard disk computer, or on a network. Please adhere to the steps in the appropriate sections that follow.

You can avoid installing CPTs in two different directories by uninstalling any remaining tests from your hard disk. Then, install your other tests (such as College-Level Mathematics) and use them normally. When you are done with these, you can uninstall them and then reinstall your original tests. The uninstall procedure is discussed beginning on page 91. While we do not recommend this technique because it can be somewhat tedious and prone to error, it is an option available to you.

## Hard Disk Multiple Installation

☐ CPTS3.BAT will already exist from your first installation.

☐ Rename this file with an appropriate name. For example, if you installed only regular tests (not the CLM tests), you might name it CPTS3REG.BAT. (The DOS command for this is: *RENAME CPTS3.BAT CPTS3REG.BAT*, followed by pressing the [ENTER] key.

☐ Perform a second installation using the correct procedure explained earlier in this chapter. However, specify a different subdirectory from that of the original installation. For example, if you are installing College-Level Mathematics tests, you might call the subdirectory *CPTS3CLM*. This will again create a file called CPTS3.BAT. However, since you renamed the original CPTS3.BAT file CPTS3REG.BAT, it will not be replaced by the new one.

☐ If you wish to create yet a third subdirectory containing, for example, tests for faculty demonstration, you would follow the same procedure as illustrated below.

☐ Rename CPTS3.BAT, for example, CPTS3CLM.BAT. Use the DOS RENAME command as before. Press [ENTER].

☐ Perform a third installation using the desired tests. Specify yet a third subdirectory. For example, since this subdirectory will contain tests for faculty use, you might call it *CPTS3FAC*. The CPTS3.BAT file will once again be created during this installation.

☐ After these additional installations, you may execute CPTs in either of the three subdirectories at any time. Execution in one subdirectory will not affect execution in any other subdirectory.

☐ To execute your regular tests from the original installation, simply run CPTS3REG from the root directory.

☐ To execute your CLM tests from the second installation, simply run CPTS3CLM from the root directory.

☐ To execute CPTs from the directory for use by faculty, simply run CPTS3. (We did not rename this file since a fourth installation was not needed, and would have caused CPTS3.BAT to be lost. However, if you desire, you could rename it using an appropriate name such as CPTS3FAC.BAT.)

☞ As you may have noted, you should not execute a batch file by typing in the entire name. The "extension" (up to three letters to the right of the period) should not be typed. For example, to execute CPTS3REG.BAT you should type only *CPTS3REG* followed by the [ENTER] key.

## Network Multiple Installation*

In a network installation, each computer connected to the file server contains a private drive (e.g., D:) that will contain the files used during the testing process. The file server itself contains a public drive and path (e.g., F:\CPTS3) containing the software to be accessed by the computers attached to the network. In order to install additional copies on the network, the following steps must be followed:

☐ Create another private drive on the computer connected to the file server (e.g., E:).

☐ Create another public drive and path combination on the file server (e.g., F:\FACULTY). The drive itself can be the same or different at your option.

☐ Install CPTs again. You must do this from the same drive as the first installation (usually A:).

---

* If you have any computers on the network that use a special graphics monitor, you should be sure to also read the explanation on page 33 regarding the use of a special batch file.

☐ Ensure that you copy the CPTS3.BAT file created during installation to each local/private drive you intend to use.

☐ Using the names suggested above, initiate the faculty version of the tests by executing CPTS3 from the **E:** drive of your computer, or initiate the originally installed software by executing CPTS3 from the **D:** drive of your computer.

☛ Do not rename the CPTS3.BAT file as you can do when installing multiple copies of CPTs on a standalone hard-disk computer.

# SYSTEM OPERATION

## Overview

The **SYSTEM INSTALLATION** chapter explained how to install CPTs. It also included instructions about setting up testing sequences. This chapter explains the actual operation of CPTs.

CPTs consists of three major functions: TESTING, REPORTING, and COPYSCORES. Typically, testing sessions are followed by the conversion of candidate test data into the Reporting System for the generation of reports. COPYSCORES is a procedure that facilitates the management of test results data. This function should be executed periodically, as described later in the COPYSCORES section. COPYSCORES is applicable only in hard disk and network installations.

> ☛ In this manual, we may refer to a Main Menu option by specifying, for example, **COPYSCORES** instead of the actual option name of **Copy Scores to Floppy Disk**. Similarly, we may use the terms **TESTING**, **REPORTING**, **CONFIGURATION**, and **EXIT**.

Once you have installed CPTs you are ready to administer tests to candidates, and, through the Reporting System, to produce Individual Student Reports, Roster Reports, and Summary Reports. If you are also using the **Computerized Placement Management Software (CPMS)**, you can produce Placement Rosters and CPMS Individual Placement Reports in addition to the three reports produced by the CPTs Reporting System. You must use CPMS Version 3.0 with CPTs Version 3.0. See the separate CPMS User Manual.

> ☛ *IMPORTANT*: In the **Test Administration System Procedures** section of this chapter starting on page 62, the screen sequence shown is only a typical sequence. Depending on the entries you make in the **Set Test Administration Options** and the **Set Mathematics Administration Options** screens discussed beginning on page 38 in the **SYSTEM INSTALLATION** chapter, this order may vary.

# Specific Disk Drive Environments

The CPTs distribution software package consists of five 5-1/4 inch floppy disks or 3-1/2 diskettes: Disks 1, 2, 3, 4, and 5, except for 3-1/2 diskette environments, where Disks 2 and 3 may be combined (e.g., Disk 2/3). Depending on the type of computer environment you are in, the requirements for using the disks supplied to you may vary. Each of these environments is discussed below.

## 5-1/4 Inch Floppy Disk Drive Environment

While administering tests, you will need to have Disk 1 in drive A and either Disk 2 (verbal tests) or Disk 3 (mathematics tests) in drive B. While in the Reporting System (converting test data from the Testing System into the Reporting System database and/or generating reports), you will need to have Disk 1 in drive A and Disk 4 in drive B.

Each Disk 1 has a maximum testing capacity of 375 tests (e.g., 75 candidates taking 5 tests each). The maximum testing capacity on your CPTs is dependent upon your order specifications. Each reporting Disk 4 can accept test data from a maximum of 700 candidates, but no more than 450 records can be converted from testing into reporting in a single batch. You may want to use one reporting Disk 4 as a **Master Reporting disk**, onto which you convert the test data from several Disk 1s.

If you will be testing more than 700 candidates altogether, we recommend that you maintain a one-to-one correspondence between the testing disks and the reporting disks in each set of CPTs, or carefully keep track of which testing records are aggregated on a specific Master Report.

## 3-1/2 Inch Diskette Drive Environment

While administering tests, you will need to have Disk 1 in drive A and either Disk 2 (verbal tests) or Disk 3 (mathematics tests), or Disk 2/3 (verbal and mathematics tests) in drive B. While reporting, you will need Disk 1 in drive A and Disk 4 in drive B.

Each Disk 1 has a maximum testing capacity of 1,500 tests (e.g., 300 candidates taking 5 tests each). The maximum testing capacity on your CPTs is dependent upon your order specifications. Each reporting Disk 4 can accept test data from a maximum of 2,000 candidates, but no more than 450 candidate records can be converted in one batch.

You may want to use one reporting Disk 4 as a **Master Reporting disk**, onto which you convert the test data from several testing Disk 1s.

If you will be testing more than 2,000 candidates altogether, we recommend that you maintain a one-to-one correspondence between the testing disk and the reporting disk in each set of CPTs, or carefully keep track of which testing records are aggregated on a specific Master Report.

### Hard Disk Drive/Network File Server Environment

Once you have installed the software onto each of your hard disks/file servers you will not need to use the distribution disks until you either add more tests to the installation or uninstall the software. **All functions of CPTs can be invoked from any workstation on the network** or from the file server via the **Main Menu.**

## Invoking Computerized Placement Tests

### 5-1/4 Inch or 3-1/2 Inch Disk Drive Environment

☐ Having already booted with your appropriate DOS boot disk and having installed CPTs, you should have the DOS system prompt **A:\>** displayed on your screen. Insert CPTs Disk 1 into drive A and Disk 2 or Disk 3 (or Disk 2/3) into drive B. Be sure to close the drive doors after inserting the disks.

☐ At the DOS prompt, type

*CPTS3*

Press [ENTER]. This displays the screens discussed in Institution Sign-on (below), the date entry/verification screen, and the password screen.

## Hard Disk Drive Environment

☐ Having already booted with the appropriate version of DOS, you should see the DOS system prompt on which you have installed the CPTs Version 3.0.

☐ At the DOS prompt, usually C:\>, type

*CPTS3*

Press [ENTER]. This displays the screens discussed in Institution Sign-on (below), the date entry/verification screen, and the password screen.

## Local Area Network Environment

☐ At the private/local drive, as designated during the installation process, type

*CPTS3*

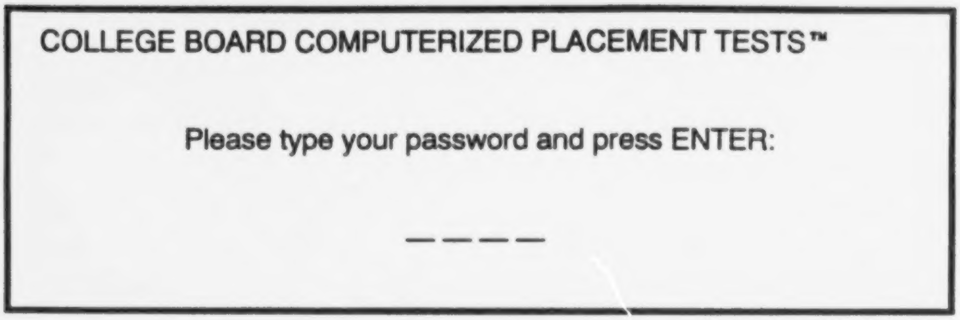
Press [ENTER].

☞ On a network, CPTs is started from the private/local drive for each user.

# Institution Sign-on

## Password Screen

☐ After invoking CPTs at the DOS system prompt by entering *CPTS3*, you will see the following screen:



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

        Please type your password and press ENTER:

                          ____
```

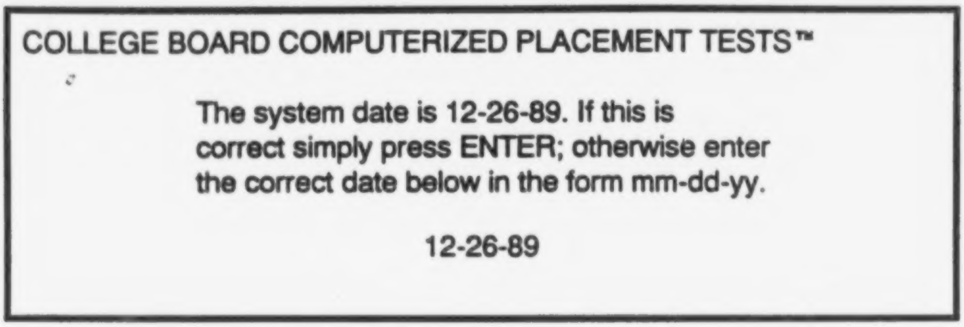
☐ Type the password. Either upper or lower case is OK. Press [ENTER]. Since the password should be kept secure so that only authorized personnel can enter the CPTs, the password is not displayed on the screen as you type it. Your password is provided with your diskettes.

☞ If you get an error message indicating an invalid password, you will be returned to DOS. Invoke CPTs again. Carefully retype your password. Press [ENTER] to continue. When you correctly type the password and press [ENTER], the system will display the system date screen shown below.

☞ The password is provided separately from these operating instructions.

## System Date Screen

☐ This screen is shown below. If the displayed date is correct, just press [ENTER]. Be sure to check that the displayed date is correct, because it will appear as the test date on Individual Student Reports. If the correct date is not displayed, you **MUST** type the correct date in DOS format (mm-dd-yy) at the cursor. If you make a mistake while typing the date, use the backspace key to erase the error, and retype.



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

        The system date is 12-26-89. If this is
        correct simply press ENTER; otherwise enter
        the correct date below in the form mm-dd-yy.

                      12-26-89
```

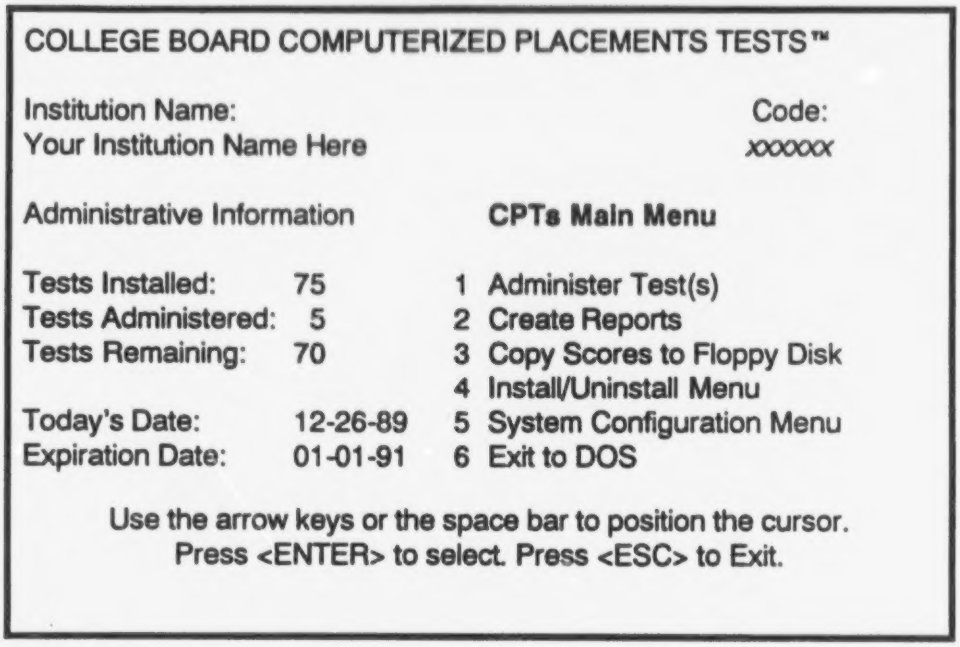
☞If the current date is past the CPTs expiration date, an error message will be displayed. You will not be able to continue past the error message and the system will return you to the DOS prompt.

☐ The system will display the first of two introductory credit screens. Press [ENTER] to display the second introductory screen. Press [ENTER] again to display the CPTs Main Menu screen.

## CPTs Main Menu/Administrative Information Screen

The Main Menu screen, shown below, contains the following information:

- The **Institution Name** and **Code** (*xxxxxx*) as it was entered during the installation process.
- The total number of **Tests Installed.**
- The total number of **Tests Administered** to date.
- The total number of **Tests Remaining**.
- **Today's Date** (assuming you entered it correctly when you signed on to the system).
- The **Expiration Date** of the CPTs—the date past which you can no longer administer tests and you should return the CPTs to ETS.



```
COLLEGE BOARD COMPUTERIZED PLACEMENTS TESTS™

Institution Name:                                        Code:
Your Institution Name Here                               xxxxxx

Administrative Information            CPTs Main Menu

Tests Installed:        75            1  Administer Test(s)
Tests Administered:      5            2  Create Reports
Tests Remaining:        70            3  Copy Scores to Floppy Disk
                                      4  Install/Uninstall Menu
Today's Date:           12-26-89      5  System Configuration Menu
Expiration Date:        01-01-91      6  Exit to DOS

      Use the arrow keys or the space bar to position the cursor.
            Press <ENTER> to select. Press <ESC> to Exit.
```

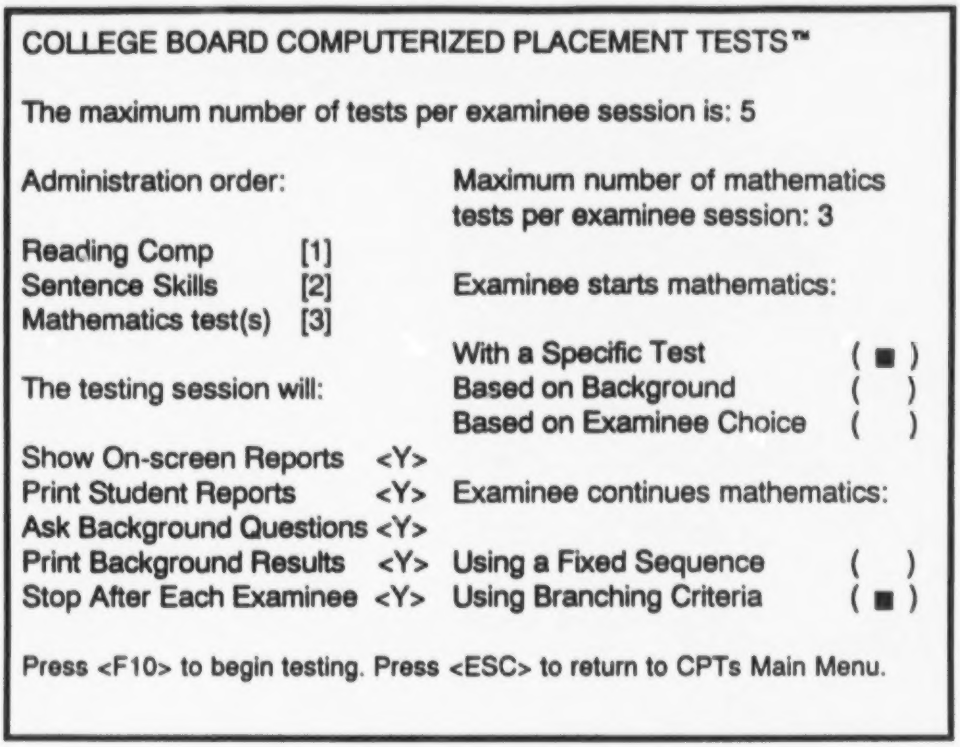
The test counters maintain running tallies of the total number of tests administered across testing sessions, the total number of tests remaining and yet to be administered by the specific set of CPTs (floppy environment), the specific computer (hard disk environment), or the file server (network environment). These counters change only when a test (Reading Comprehension, Sentence Skills, Arithmetic Skills, Elementary Algebra Skills or College-Level Mathematics) has been completed (**i.e., the candidate has answered all the questions in a test and the computer has calculated the score for that test**). For example, if a candidate finishes the Reading Comprehension Test, the **Tests Administered** counter will increase by one and the **Tests Remaining** counter will decrease by one. If a candidate finishes four tests (except for College-Level Mathematics, see the note below) the counters will each change by four. If a candidate starts a test but does not finish it (e.g., the test administrator uses the **ESCAPE** Procedure [explained later] to terminate the test or a power failure ends the session), the counters do not change and the scores are not recorded. If the test administrator skips over one or more tests to administer a different test or to go to next candidate, the counters do not change by the number of tests skipped.

> ☞Counters change by two for each College-Level Mathematics test to reflect their higher price.

> ☞Check the test counters before proceeding to make sure there are tests remaining to administer to the next candidate(s). The appearance of negative (minus) numbers indicates extra tests were administered to finish the testing of a candidate. No further tests can be administered.

The Main Menu is used to select any of the six options appearing on the right side of the screen. Each of these options is discussed below.

☐ To administer tests, position the cursor at the CPTs **Main Menu** first option: **1 Administer Test(s).** Press [ENTER]. The current test administration summary will be displayed as shown below. If this information is not correct press [Esc] to return to the CPTs **Main Menu**. Repeat the setup procedures explained earlier in the **SYSTEM INSTALLATION** chapter beginning on page 11.



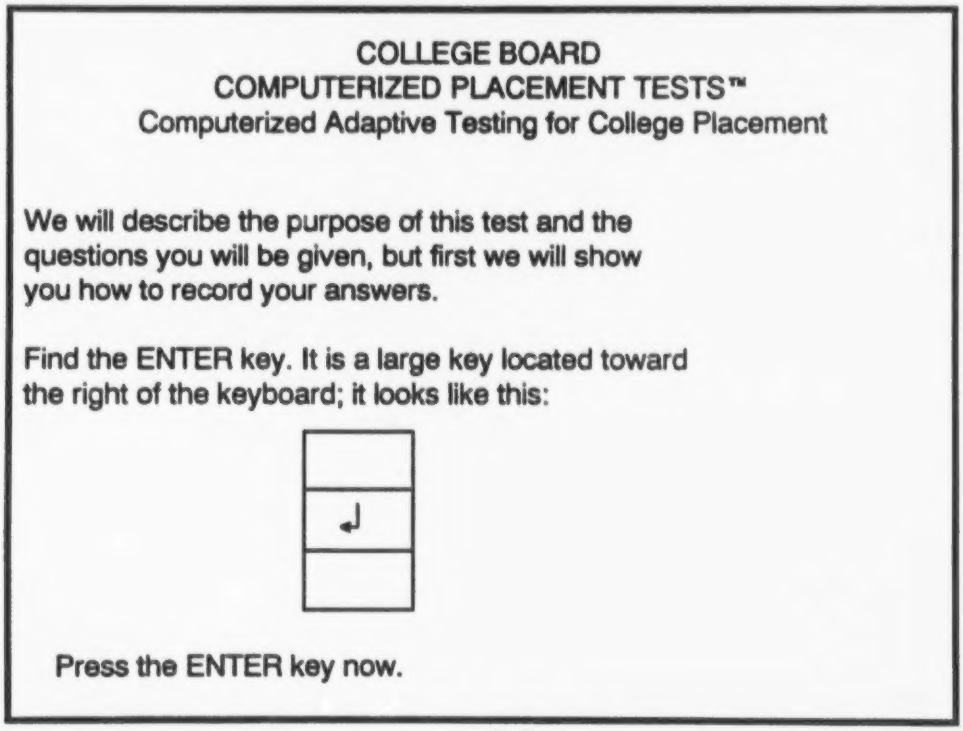
```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

The maximum number of tests per examinee session is: 5

Administration order:              Maximum number of mathematics
                                   tests per examinee session: 3
Reading Comp          [1]
Sentence Skills       [2]          Examinee starts mathematics:
Mathematics test(s)   [3]
                                   With a Specific Test          ( ■ )
The testing session will:          Based on Background           (   )
                                   Based on Examinee Choice      (   )
Show On-screen Reports     <Y>
Print Student Reports      <Y>     Examinee continues mathematics:
Ask Background Questions <Y>
Print Background Results   <Y>     Using a Fixed Sequence        (   )
Stop After Each Examinee   <Y>     Using Branching Criteria      ( ■ )

Press <F10> to begin testing. Press <ESC> to return to CPTs Main Menu.
```

☐ If the information represents the desired testing setup, press [ENTER]. The first student screen appears:



COLLEGE BOARD
COMPUTERIZED PLACEMENT TESTS™
Computerized Adaptive Testing for College Placement

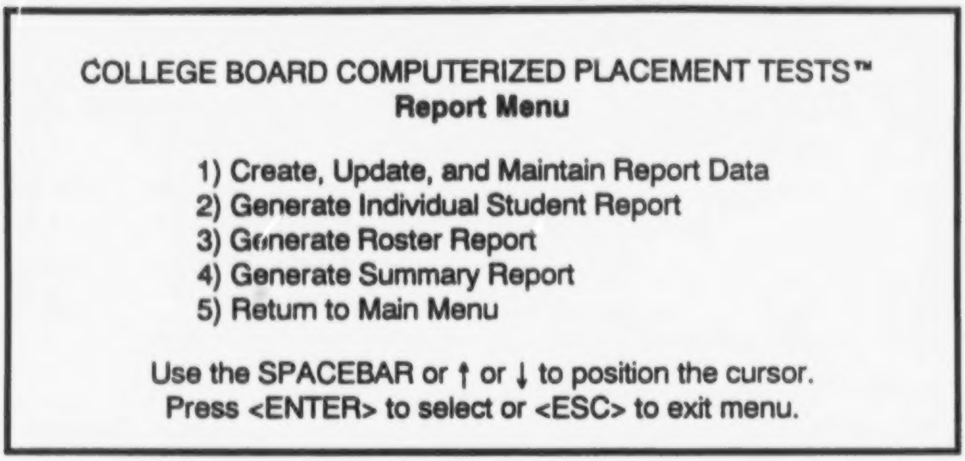
We will describe the purpose of this test and the questions you will be given, but first we will show you how to record your answers.

Find the ENTER key. It is a large key located toward the right of the keyboard; it looks like this:

Press the ENTER key now.

☞The remaining screens used to initiate the testing process will be discussed in the **Test Administration System Procedures** section later in this chapter. The rest of this section is devoted to discussing the other **Main Menu** options.

☐ To enter the Reporting System, position the cursor at the second option, **2 Create Reports.** Press [ENTER]. The Report Menu appears as shown below. See the **REPORTING** chapter starting on page 77 for details.



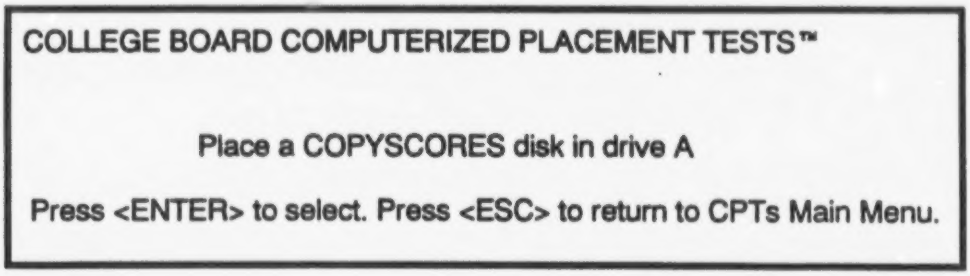
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™
**Report Menu**

1) Create, Update, and Maintain Report Data
2) Generate Individual Student Report
3) Generate Roster Report
4) Generate Summary Report
5) Return to Main Menu

Use the SPACEBAR or ↑ or ↓ to position the cursor.
Press <ENTER> to select or <ESC> to exit menu.

☞In 5-1/4 and 3-1/2 inch floppy disk drive environments place Disk 4 in drive B. In a network configuration you may invoke reporting from any network workstation. See the **REPORTING** chapter for details.

☐ To execute the **Copy Scores to Floppy Disk** (COPYSCORES) procedure in a standalone hard disk drive or network configuration, position the cursor at the third option on the Main Menu, **3 Copy Scores to Floppy Disk.** Press [ENTER]. The first **COPYSCORES** screen will be displayed as shown below. See the **Copy Scores to Floppy Disk Procedures** toward the end of this chapter.

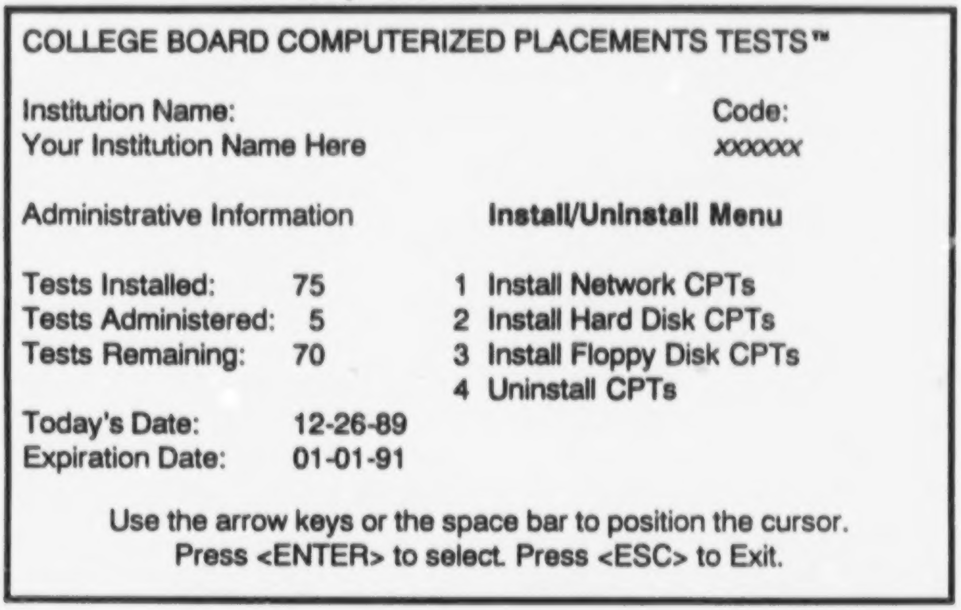


COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Place a COPYSCORES disk in drive A

Press <ENTER> to select. Press <ESC> to return to CPTs Main Menu.

☐ To uninstall CPTs, position the cursor at the fourth option, **4 Install/Uninstall Menu.** Press [ENTER]. The screen shown below appears. See also the **UNINSTALLING CPTs** chapter for details.



```
COLLEGE BOARD COMPUTERIZED PLACEMENTS TESTS™

Institution Name:                                        Code:
Your Institution Name Here                               xxxxxx

Administrative Information          Install/Uninstall Menu

Tests Installed:        75        1  Install Network CPTs
Tests Administered:      5        2  Install Hard Disk CPTs
Tests Remaining:        70        3  Install Floppy Disk CPTs
                                  4  Uninstall CPTs
Today's Date:           12-26-89
Expiration Date:        01-01-91

       Use the arrow keys or the space bar to position the cursor.
            Press <ENTER> to select. Press <ESC> to Exit.
```

☐ To review or change the system configuration, position the cursor at the fifth option, **5 System Configuration Menu.** Press [ENTER]. This screen was previously shown and discussed beginning on page 37 in the **SYSTEM INSTALLATION** chapter.

☐ To exit CPTs, position the cursor at the sixth option, **6 Exit to DOS.** Press [ENTER]. By selecting this option you will be returned to the CPTs **Main Menu** or to the DOS system prompt, depending on your hardware configuration.

☛ Another way to select each of the above options is to simply type the number corresponding to each option. It is not necessary to press [ENTER] when doing this.

## Test Administration System Procedures

In the beginning of this chapter, the CPTs **Main Menu** options were discussed. One of these options is **Administer Test(s)**. The **Main Menu** and the screen that appears when **Administer Test(s)** is selected are repeated immediately below:

```
COLLEGE BOARD COMPUTERIZED PLACEMENTS TESTS™

Institution Name:                                    Code:
Your Institution Name Here                           xxxxxx

Administrative Information          CPTs Main Menu

Tests Installed:        75       1  Administer Test(s)
Tests Administered:      5       2  Create Reports
Tests Remaining:        70       3  Copy Scores to Floppy Disk
                                 4  Install/Uninstall Menu
Today's Date:       12-26-89     5  System Configuration Menu
Expiration Date:    01-01-91     6  Exit to DOS

     Use the arrow keys or the space bar to position the cursor.
           Press <ENTER> to select. Press <ESC> to Exit.
```

```
COLLEGE BOARD COMPUTERIZED PLACEMENTS TESTS™

Current Test Administration Setup
The maximum number of tests per examinee session is: 5

Administration order:              Maximum number of mathematics
                                   tests per examinee session: 3
Reading Comp           [1]
Sentence Skills        [2]         Examinee starts mathematics:
Mathematics test(s)    [3]
                                   With a specific test          ( ■ )
The testing session will:          Based on Background           (   )
                                   Based on Examinee Choice      (   )
Show On-screen Reports      <Y>
Print Student Reports       <Y>    Examinee continues mathematics:
Ask Background Questions    <Y>
Print Background Results    <Y>    Using a Fixed Sequence        (   )
Stop After Each Examinee    <Y>    Using Branching Criteria      ( ■ )

Press <F10> to begin testing. Press <ESC> to return to CPTs Main Menu.
```

The first screen is for information only (i.e., you cannot change the settings here). It is presented prior to the tests themselves to give you an opportunity to note the current settings. The actual values and options shown were previously explained in the **SYSTEM INSTALLATION** chapter beginning on page 11. We will assume that you have already completed this procedure and we will now explain the data on the second screen:

- The **maximum number of tests per examinee session is:** indicates the maximum tests each candidate can possibly be given. The default value is **5** and you can change it as explained in the **SYSTEM INSTALLATION** chapter.
- The **Administration order** portion of the screen shows the three major testing areas: **Reading Comprehension, Sentence Skills,** and **Mathematics test**(s). The numbers **[1]**, **[2]**, and **[3]** indicate the order in which these tests will be administered. This can be set to any order you wish. See **SYSTEM INSTALLATION.**
- **The testing session will** portion of the screen lists various options. See **SYSTEM INSTALLATION** for details.
- **Show On-screen Reports** is *Y* if you wish to see the percentile report immediately after the student completes testing.
- **Print Student Reports** is *Y* if you want the student's Individual Student Report printed immediately after testing is completed.
- **Ask Background Questions** is *Y* if you wish to have the test takers answer the background questions.
- **Print Background Results** is *Y* if you wish to see the answers to these questions appear on the Individual Student Report. For details, see the **REPORTING** chapter starting on page 77.
- **Stop After Each Examinee** is *Y* if you do not wish the testing procedure to begin automatically for the next student.
- **Maximum number of mathematics tests per examinee session** is the maximum number of mathematics tests each candidate can be given during one session.
- **Examinee starts mathematics** portion of the screen allows you to see how the mathematics testing will start.

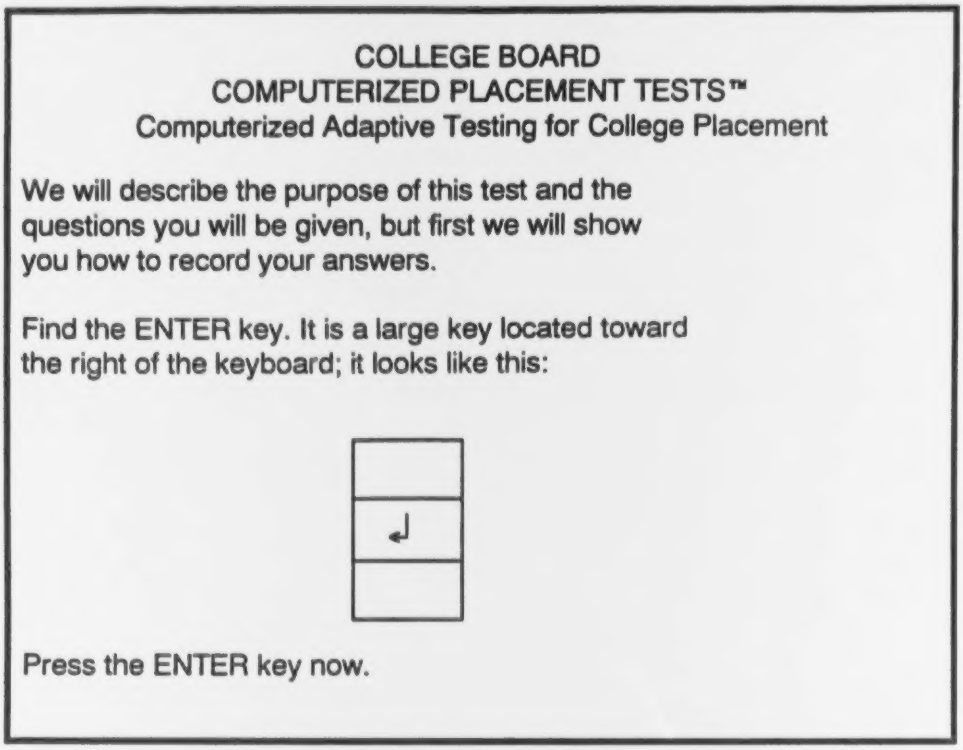
- **With a specific test** causes the mathematics test specified by the test administrator to be the first mathematics test administered by the software.
- **Based on Background** causes the student to take the mathematics test selected by the software, based on the student's responses to the three standard mathematics background questions.
- **Based on Examinee Choice** allows the student to select which test to start with. A screen appears asking the student to select the desired test.
- **Examinee continues mathematics** indicates how mathematics testing will continue.
- **Using a Fixed Sequence** causes the tests to be given in a fixed sequence, specified by the test administrator.
- **Using Branching Criteria** causes the sequence of tests to change depending on the scores of prior tests.

After the values shown on the prior screen are reviewed and found to be appropriate, continue with the following steps:

☛ **If the settings are not correct, press [Esc] and repeat the setup procedures explained in the SYSTEM INSTALLATION chapter.**

☐ Press [ENTER] to begin testing.

☐ The screen below was shown previously. **This is the first student testing screen:**



COLLEGE BOARD
COMPUTERIZED PLACEMENT TESTS™
Computerized Adaptive Testing for College Placement

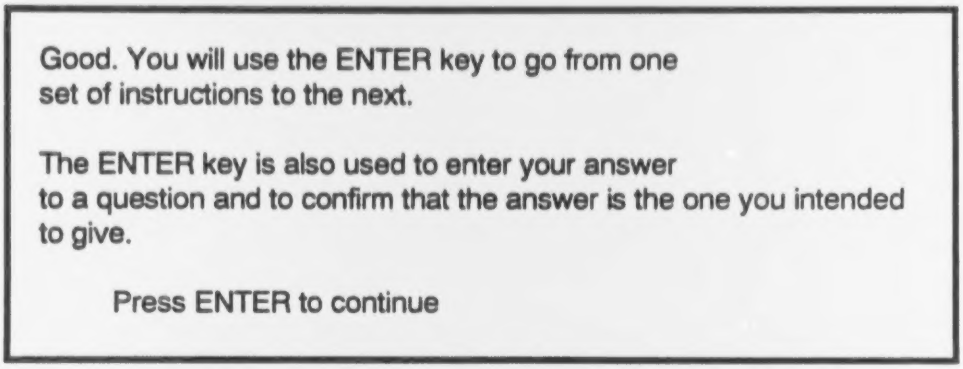
We will describe the purpose of this test and the questions you will be given, but first we will show you how to record your answers.

Find the ENTER key. It is a large key located toward the right of the keyboard; it looks like this:

Press the ENTER key now.

☐ Press [ENTER] when you are ready to continue.

☐ The next screen is:

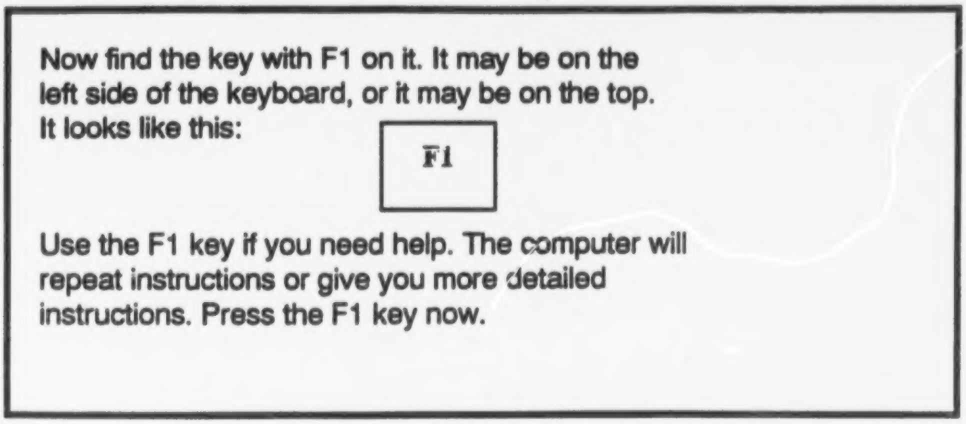


Good. You will use the ENTER key to go from one set of instructions to the next.

The ENTER key is also used to enter your answer to a question and to confirm that the answer is the one you intended to give.

Press ENTER to continue

☐ Press [ENTER] when ready and the following screen appears:



Now find the key with F1 on it. It may be on the left side of the keyboard, or it may be on the top. It looks like this:

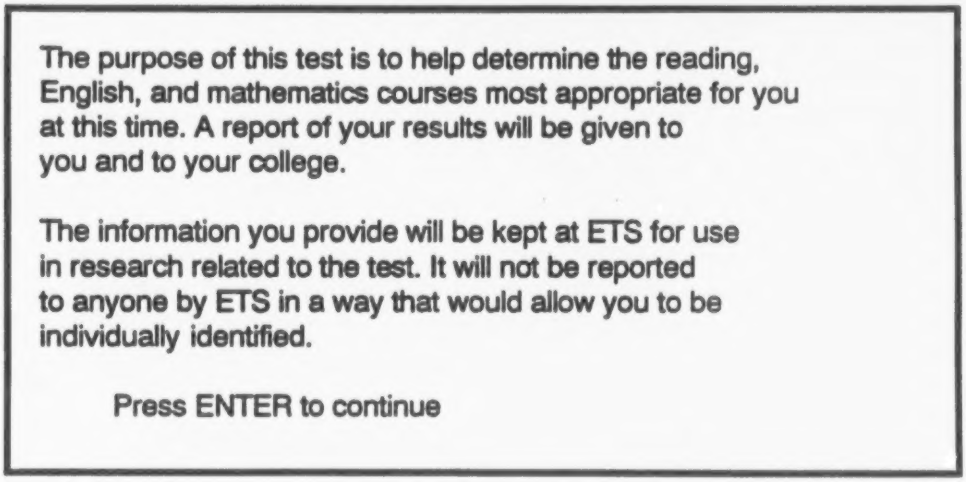
F1

Use the F1 key if you need help. The computer will repeat instructions or give you more detailed instructions. Press the F1 key now.

☐ Press the [F1] key. The following message will appear at the bottom of the screen: **Good. Press the F1 key to ask for help. Now press the ENTER key to go on to the next instruction.** Then press [ENTER].

☛ Testing can be canceled at any point by the test supervisor. Please see the **Escape Procedure** at the end of this chapter. **The Escape Procedure is NOT for student use!**

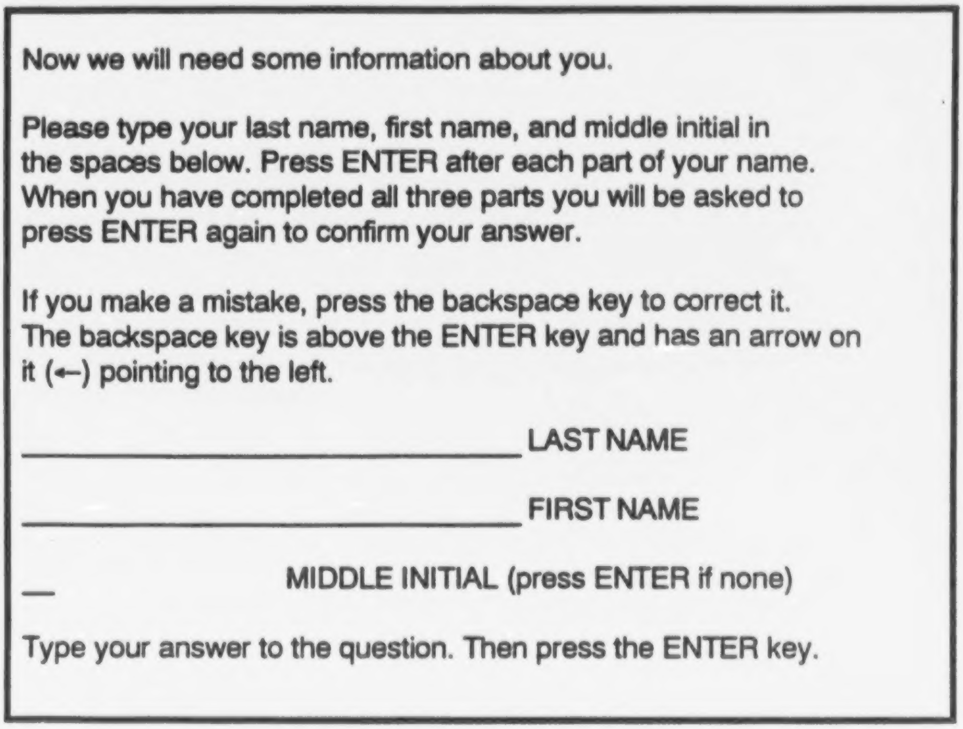
☐ You will now see the following screens:



The purpose of this test is to help determine the reading, English, and mathematics courses most appropriate for you at this time. A report of your results will be given to you and to your college.

The information you provide will be kept at ETS for use in research related to the test. It will not be reported to anyone by ETS in a way that would allow you to be individually identified.

Press ENTER to continue



Now we will need some information about you.

Please type your last name, first name, and middle initial in the spaces below. Press ENTER after each part of your name. When you have completed all three parts you will be asked to press ENTER again to confirm your answer.

If you make a mistake, press the backspace key to correct it. The backspace key is above the ENTER key and has an arrow on it (←) pointing to the left.

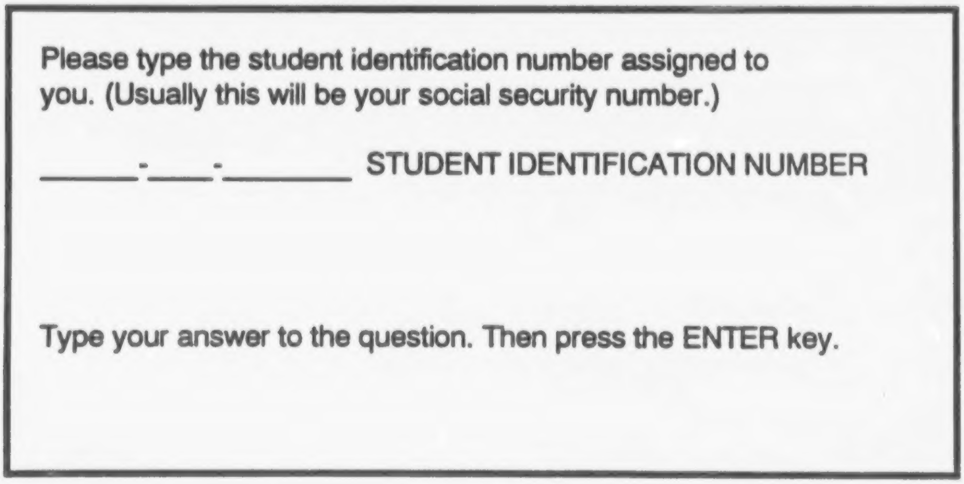
______________________________ LAST NAME

______________________________ FIRST NAME

__ MIDDLE INITIAL (press ENTER if none)

Type your answer to the question. Then press the ENTER key.

☐ Press [ENTER] after each of the three items. You will see the message **Press the ENTER key to confirm your answer. Press the BACKSPACE key to make corrections and then press ENTER.** Follow these instructions. After you press the last [ENTER], the following screen appears:



Please type the student identification number assigned to you. (Usually this will be your social security number.)

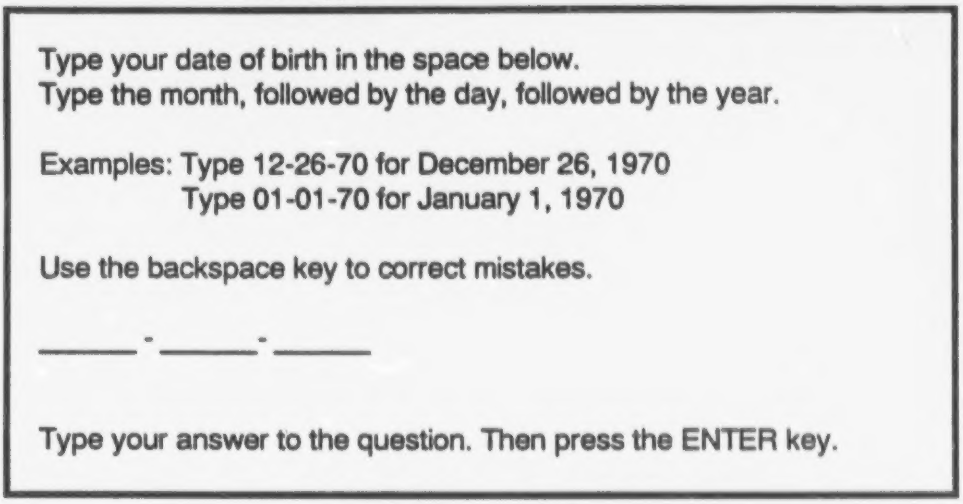
______-____-________ STUDENT IDENTIFICATION NUMBER

Type your answer to the question. Then press the ENTER key.

**Every student taking the CPTs must have a unique ID number. It is vital that students enter their Identification Number correctly. Many schools use the students' Social Security number.**

All zeroes are not accepted as a valid ID. If your institution uses ID Numbers having fewer than nine digits, instruct your test takers to key either leading or ending zeros to fill out the nine-digit field.

☐ Press the [ENTER] key when ready. Follow the instructions. After you press [ENTER], the following screen appears:



```
Type your date of birth in the space below.
Type the month, followed by the day, followed by the year.

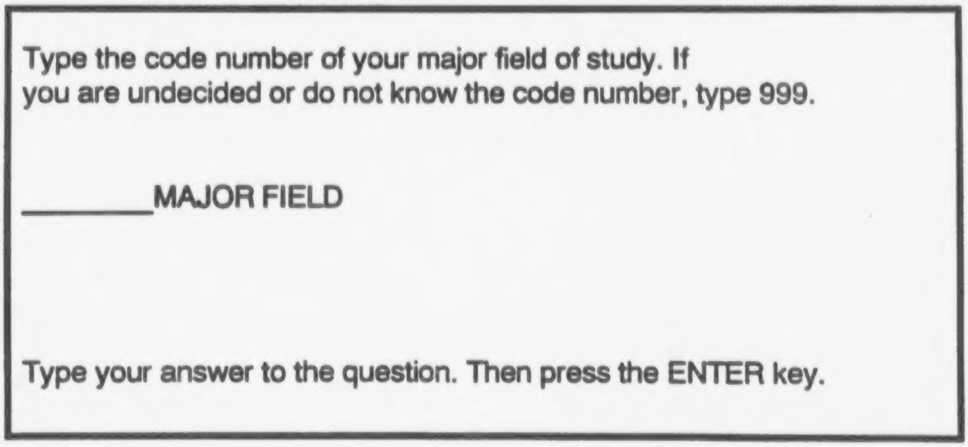
Examples: Type 12-26-70 for December 26, 1970
          Type 01-01-70 for January 1, 1970

Use the backspace key to correct mistakes.

______-______-______

Type your answer to the question. Then press the ENTER key.
```

☐ Follow the instructions and enter your date of birth. After pressing [ENTER] to confirm the date, you will be asked to press it again. Press [ENTER]. The following screen appears:



```
Type the code number of your major field of study. If
you are undecided or do not know the code number, type 999.

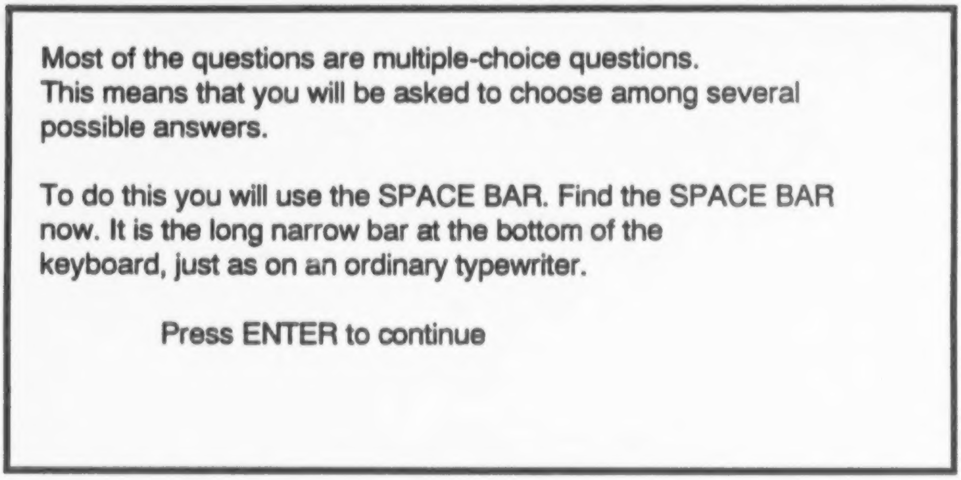
________MAJOR FIELD

Type your answer to the question. Then press the ENTER key.
```

☐ Type in the code number for your major field and press [ENTER].

☞The test administrator should provide candidates with the list of valid major-field codes. If the candidate is undecided, the screen instructs the student to type *999*. However, if your institution is not using the major field code screen, the candidate can press the [ENTER] key twice without typing any code, and the system will display the next screen.

☞The Computerized Placement Management Software, CPMS, a companion product to CPTs that places students in courses based upon CPTs scores and answers to background questions, will only accept numeric major-field codes. If you are planning to utilize data gathered in CPTs in the CPMS, be sure to enter only numeric major codes.



Most of the questions are multiple-choice questions.
This means that you will be asked to choose among several
possible answers.

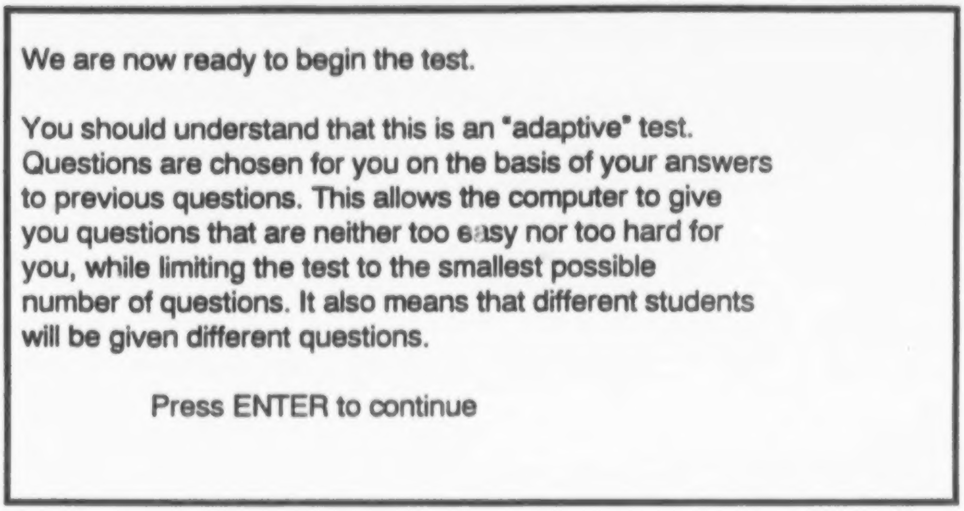
To do this you will use the SPACE BAR. Find the SPACE BAR
now. It is the long narrow bar at the bottom of the
keyboard, just as on an ordinary typewriter.

Press ENTER to continue

☐ You will now be presented with several **background questions**. Select the answer by using the [space bar] to move to the appropriate choice and then pressing [ENTER]. Press [ENTER] a second time to confirm your answer.

☞The institution can either use standard background questions or order special ones that it creates. If you order special background questions you must supply typed text that ETS can enter into the CPTs system. The maximum number of special or total questions is 20. See the **APPENDIX** beginning on page 108 for the standard set of background questions.

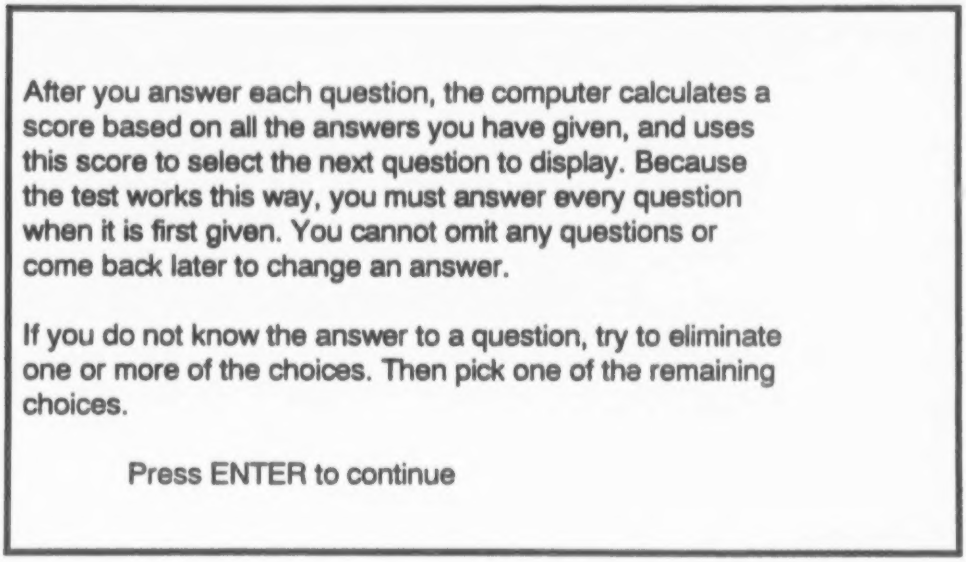
☐ Several screens follow that provide the test taker with instructions and exercises about how to select desired answers and how to ENTER and CONFIRM them. The [space bar] is used to select answers. The [ENTER] key is used to both "**enter**" and "**confirm**" answers.



We are now ready to begin the test.

You should understand that this is an "adaptive" test. Questions are chosen for you on the basis of your answers to previous questions. This allows the computer to give you questions that are neither too easy nor too hard for you, while limiting the test to the smallest possible number of questions. It also means that different students will be given different questions.

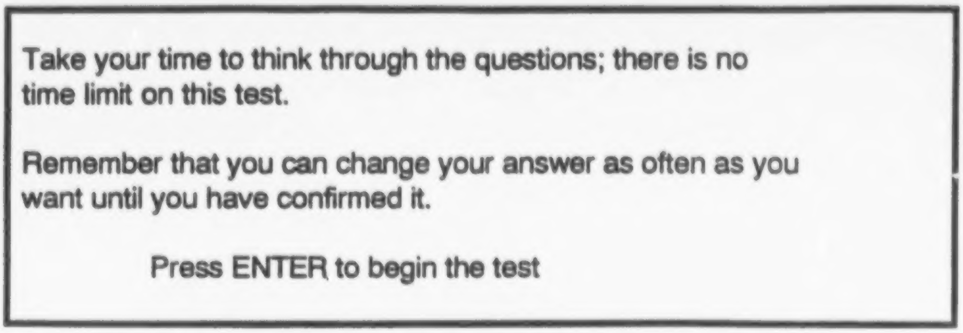
Press ENTER to continue



After you answer each question, the computer calculates a score based on all the answers you have given, and uses this score to select the next question to display. Because the test works this way, you must answer every question when it is first given. You cannot omit any questions or come back later to change an answer.

If you do not know the answer to a question, try to eliminate one or more of the choices. Then pick one of the remaining choices.

Press ENTER to continue



Take your time to think through the questions; there is no time limit on this test.

Remember that you can change your answer as often as you want until you have confirmed it.

Press ENTER to begin the test

☐ After these answer selection exercise screens, you will see the following three screens. After you view each, press [ENTER] to go to the next one.

☐ Finally, you will receive a message indicating that you are about to begin a test. For example, the message might be **READING COMPREHENSION TEST — This test measures your ability to understand what you read. Press ENTER to continue.** Press [ENTER].

☐ From this point on, follow the instructions on the screens. They will vary depending on the tests and other factors. The tests will run consecutively.

☞ Each test will be preceded by sample question(s) to familiarize the student with the types of questions in that particular test. The test itself then follows. Follow the instructions to answer these sample questions.

☐ Proceed with the remaining tests.

☐ When testing is completed, the student will see the message **This completes the test. Please call the test supervisor**. The test supervisor should now use the Escape Procedure.

☐ A menu will appear from which the test supervisor may select the desired option. The menu will vary depending on how you answered the questions in the **Set Test Administration Options** and **Set Mathematics Options.**

## Copy Scores to Floppy Disk

**COPYSCORES** is a backup utility that manages candidate testing data in HARD DISK drive and NETWORK environments. COPYSCORES serves several purposes.

☐ Provides the procedure for returning candidate test data (student log files) to ETS for research purposes at the conclusion of testing (which coincides with the expiration date programmed into the CPTs).

☐ Provides a simple procedure for making a backup copy of the candidate test data.

☐ The floppy disks created can be used to move candidate test data from the Testing Systems on several hard disks or file servers to a central hard disk or file server that is being used for a master report. These disks can be read using the **Convert Student Log File to Database** option. This option is accessed by selecting **Create Reports** from the **Main Menu**, then selecting **Create, Update, and Maintain Report Data**. See the **REPORTING** chapter starting on page 77 for details. These disks can also be read by the CPMS system.

☞ It is important to run COPYSCORES frequently to keep the candidate test data file (student log files) manageable in size so that the conversion of test data into the Reporting System (or into CPMS) remains efficient. COPYSCORES is not available in disk or diskette environments. It is available only on hard drive systems, including networks.

☐ To execute COPYSCORES from a hard disk or network configuration, select **Copy Scores to Floppy Disk** from the Main Menu, and press [ENTER]. Alternately, just enter the option number, *3*. The following screen appears:

```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

Copy Scores to Floppy Disk

Place a COPYSCORES disk in drive A

Press <ENTER> to begin.  Press <ESC> to return to CPTs Main Menu.
```

☐ Insert in drive A the disk provided in your CPTs shipment that is labeled COPYSCORES. It is a blank, formatted disk. You can provide your own formatted blank disk. Press [ENTER].

☞ COPYSCORES must be executed to drive A:. Do not use the DOS ASSIGN command with COPYSCORES.

☐ After the scores have been copied to the floppy disk, the message **Copy Scores to Floppy Disk Complete. . .Press any key to continue** will appear. Then press any key.

☞ If there are no scores to be converted, or none have been created since your last COPYSCORES procedure, the message **No Scores Found to Copy!! Press any Key** will appear. Press any key to proceed.

☞ If there is sufficient space on the Copyscores disk to copy additional test scores, a message will indicate this. If there is no additional space, a message will indicate this, too. In the latter case, put aside the full disk for return to ETS. If there is not enough room on the COPYSCORES disk for all test scores, you will be prompted to insert an additional COPYSCORES disk in drive A.

☞ You may want to make a backup copy of all COPYSCORES disks before you return them to ETS. This way, you will have a backup copy of your test data. This backup is encrypted. Test scores can only be used via the Computerized Placement Tests.

☞ We recommend that COPYSCORES be executed on a periodic basis, perhaps weekly or twice a month, depending on your testing volume. You may want to execute COPYSCORES after testing a certain number of candidates (e.g., 25, 50, or 100).

☞ Although COPYSCORES may be executed at any time, we recommend that it be executed at the end of a testing session before you have converted test data into the Reporting System (or into the Computerized Placement Management Software, CPMS). We further recommend that immediately after completing COPYSCORES, you convert (load) candidate test data into the Reporting System (see the **REPORTING** chapter) or into **CPMS** if you have purchased that program (see the separate User's Manual for CPMS).

☞ Performing the COPYSCORES procedure eliminates the candidate test data from the testing system, and at the same time, converts it into the reporting system (or into CPMS) in an ASCII database format. This procedure enhances the operating efficiency of the CPTs.

## Escape Procedure

During the testing procedures, the test supervisor may need to end the testing before it has been completed. This may be due to a variety of reasons, such as illness, an error in test administration, or a power failure*. Also, it may be necessary to skip over one or more modules of the testing system. The Escape Procedure is for use only by test administrators, not by students taking the CPTs. The procedure can be done at **any time** by following these steps:

☐ Press the [Esc] key. The screen will **not** change in appearance.

☐ Immediately enter your password. A menu with appropriate options will appear. For example:

---

* In case of a power failure, the score for the test in progress will be the only test score lost. The student must retake that test. Following the power failure, the **Recover From a Power Loss** procedure on page 81 should be followed.

Skip to next test

Skip to next candidate

End testing and return to DOS or main menu

☞ The options in this box will vary slightly depending on which options are relevant at the time the Escape Procedure is invoked.

☐ Use the [space bar] to select the desired option. Press [ENTER].

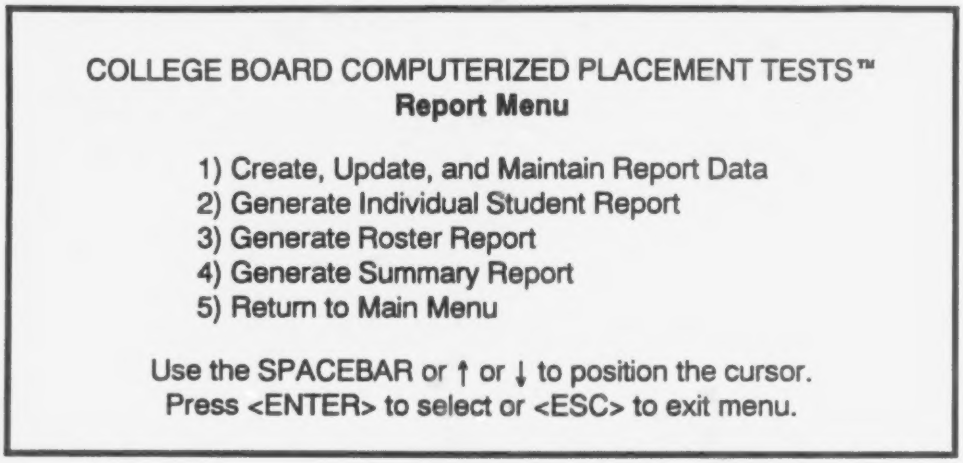
☞ Selecting **Skip to next test** will allow the student being tested to simply go to the next test. **Skip to next candidate** will return the system to the first student testing screen, the screen with the ↵ symbol. **End testing and return to DOS or main menu** will return you to the Main Menu. From there, you can choose option 6 to exit to DOS or continue using CPTs.

☞ If you indicated *N* to the **Stop After Each Examinee** option in the **Set Test Administration Options** screen, it will not be necessary to execute the Escape Procedure to prepare CPTs to test subsequent students. You must press the [ENTER] key once only. If you indicated *Y* to this option, you must execute the Escape Procedure. Similarly, answering the other questions *Y* or *N* will control the corresponding aspects of the testing. See the **SYSTEM INSTALLATION** chapter beginning on page 11 for more details. It is important to understand that the way these questions are answered will affect the operation of CPTs.

# REPORTING

## Reporting System Procedures

The main **Report Menu** (see below) appears after selecting **Create Reports** from the CPTs **Main Menu**. If you are on a 3-1/2 inch or a 5-1/4 inch diskette drive configuration you will be prompted to place Reporting Disk 4 into drive B. After doing this, press [ENTER], and the main **Report Menu** will appear.



COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™
**Report Menu**

1) Create, Update, and Maintain Report Data
2) Generate Individual Student Report
3) Generate Roster Report
4) Generate Summary Report
5) Return to Main Menu

Use the SPACEBAR or ↑ or ↓ to position the cursor.
Press <ENTER> to select or <ESC> to exit menu.

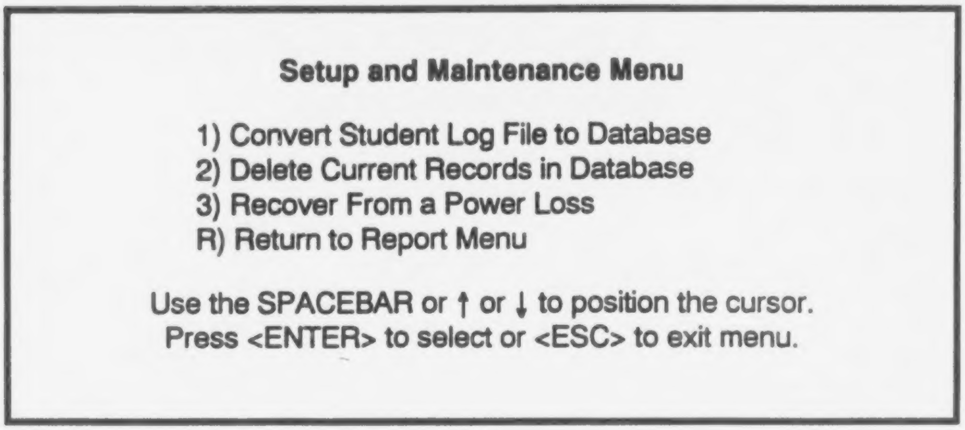
The first option on the menu is **Create, Update, and Maintain Report Data**. This option must be selected in order to convert the test data from the student log files into a reporting database. It is also used for clearing old test data out of the reporting database and for recovering from a power loss (by reindexing the reporting database).

The first time you select the **Report Menu**, the system will automatically guide you through the conversion of test data. After the initial use, you will have to select the necessary menu options. Selecting **1) Create, Update, and Maintain Report Data** will bring up the Setup and Maintenance Menu.

☞The other options on the main **Report Menu** (above) will be discussed in the following sections.

## Setup and Maintenance Menu

The **Setup and Maintenance Menu** is shown below:



**Setup and Maintenance Menu**

1) Convert Student Log File to Database
2) Delete Current Records in Database
3) Recover From a Power Loss
R) Return to Report Menu

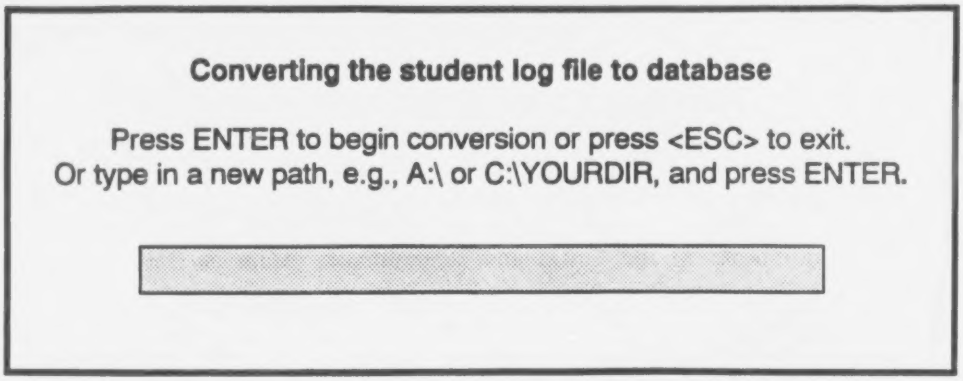
Use the SPACEBAR or ↑ or ↓ to position the cursor.
Press <ENTER> to select or <ESC> to exit menu.

### ■ Convert Student Log File to Database

It is necessary to convert test data into a database so that the raw testing data from the Testing System Student Log File (ADM.LOG) can be efficiently accessed. Converting to a reporting database stores your students' data in a compact and accessible form.

When should you convert? Most institutions convert their test data at the end of the day. They gather their test data from many PCs and merge it into one reporting database.

The Conversion Screen shown below appears when you position the cursor bar on the **Convert Student Log File to Database** option and press [ENTER]. You may also select this option by pressing the [*1*] number key. If you use the [*1*] number key you do not need to press [ENTER]:



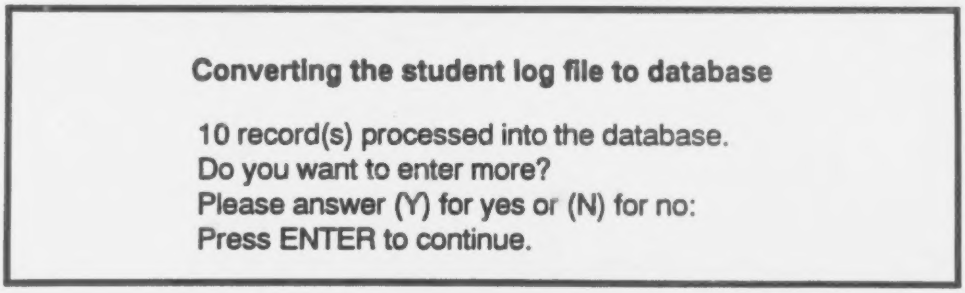
**Converting the student log file to database**

Press ENTER to begin conversion or press <ESC> to exit.
Or type in a new path, e.g., A:\ or C:\YOURDIR, and press ENTER.

This screen allows you to convert student log files from any drive and/or any path. It defaults to drive A (for floppy disk drive configurations) or to your current directory (for hard disk and network systems). (Note: **Path** refers to the drive code, i.e., drive A = **A:** and/or subdirectory if any, such as **C:\CPTS3**. The term **directory** refers to the location of the CPTs files on your hard disk or network file server.)

For example, if you are using a 5-1/4 inch floppy disk drive package, and you have your CPTs testing Disk 1 in drive A, and testing Disk 4 in drive B, just press [ENTER]. If you are on a hard disk system and you have administered tests, just press [ENTER]. If you want to convert testing data from floppy diskette drive configurations into the reporting database on your hard disk system, insert the CPTs testing Disk 1 in drive A, type *A:*, and press [ENTER]. COPYSCORES disks will also convert data into reporting if COPYSCORES is in drive A.

In any case, a screen with a running count of the records processed will appear. Do not turn off the machine or do anything to interrupt the conversion process. The conversion is finished when the following screen appears:



**Converting the student log file to database**

10 record(s) processed into the database.
Do you want to enter more?
Please answer (Y) for yes or (N) for no:
Press ENTER to continue.

☞This screen tells you how many student records were processed. Some of these records might have been processed before, so the number of new records added to the database might be lower.

If you want to convert more test data, answer *Y* and press [ENTER]. You will get the conversion screen again. If you want to exit, type *N* and then [ENTER]. You will see the message **Working. . .Reindexing the database file**. You are then returned to the Reporting **Setup and Maintenance Menu.**

### ■ Delete Current Records in Database

The second option on the Setup and Maintenance Menu is **Delete Current Records in Database.** It is mainly used to keep the report database down to a manageable size. As more students are added to a database, it takes longer to access them. On hard disk systems, it is recommended that no more than 1,000 students be entered into one database. On 5-1/4 inch and on 3-1/2 inch diskette systems, the limit is approximately 700 and 2,000 respectively, although no more than 450 records can be converted in one batch.

Because of this limit, you should have only current student data in the database. Older databases should be backed up and archived (see page 89, Special Notes about Backup Procedures ) so you can access them if needed.

Be <u>very</u> careful to select the **Delete Current Records in Database** option only when:

☐ you have backed up your database and you want to start converting data into a new, empty database.

☐ you want to erase data that you don't need anymore, and have used COPYSCORES to make a backup of your data.

When you press [ENTER], a final warning (see below) will appear giving you one last chance to change your mind. Type *Y* and [ENTER] to continue or *N* and [ENTER] to stop. If you answered *N* you will immediately be returned to the Setup and Maintenance Menu. If you answered *Y* the database will be deleted and then you will return to the Setup and Maintenance Menu.

```
Warning! All the current database records will be deleted.
Do you want to continue? Answer Y for yes or N for no:

Press ENTER
```

### Recover from a Power Loss

The third option on the Setup and Maintenance Menu should be used only if there is a problem accessing the database. The database uses index files to access students. If power was interrupted while these index files were being created, they could be incorrect. Option 3 will rebuild these indexes so that everything should work again. It is a good idea to select this option whenever the system appears to be acting somewhat strangely; it might resolve the problem.

If you get a message indicating that you have reached the upper limit of the Reporting data base and reindexing does not automatically occur, be sure to select option 3 to reindex your database.

If you have a problem accessing your database, select option 3. If you still have problems, please call the hotline telephone number: (609) 734-5782.

### Return to Report Menu

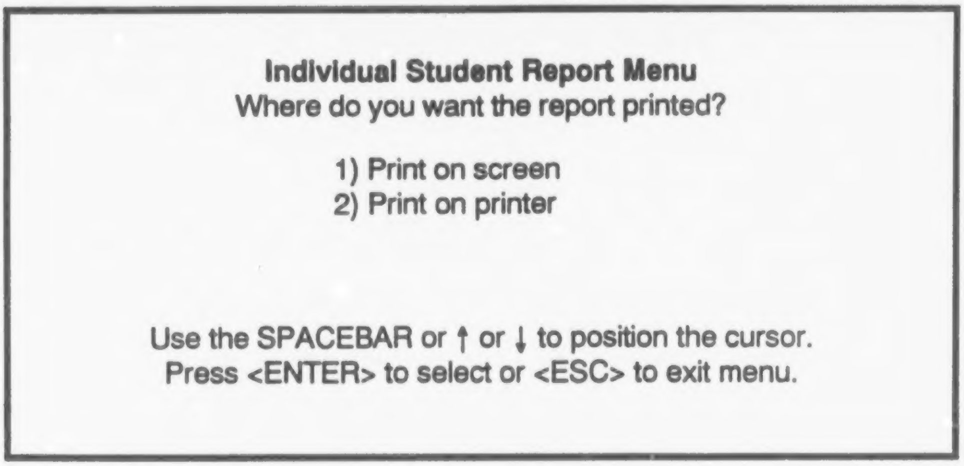
You can return to the main Report Menu either by selecting this option or by pressing [Esc].

## Generating Reports

As you can see from the main Report Menu, there are three types of reports that can be printed: **Individual Student**, **Roster**, and **Summary**. Individual Student Reports include all the data in the system that pertain to a particular student. (Background questions and answers will appear only if the system was programmed to include them. See the **SYSTEM INSTALLATION** chapter beginning on page 11 for details.) Roster reports include a list of students, their ID numbers, and their total right scores for each test. Summary Reports include the total right scores by range and test, not by student. The options for each of these reports are selected in the same manner.

With the main Report Menu displayed, position the cursor at the desired type of report and press [ENTER], or press the number or letter key preceding the desired option. The first option screen will appear.

The screens below appear when **Generate Individual Student Report** is selected. When the other report types are selected, the headings on the screens reflect those choices (e.g., Roster Report Menu or Summary Report Menu):



**Individual Student Report Menu**
Where do you want the report printed?

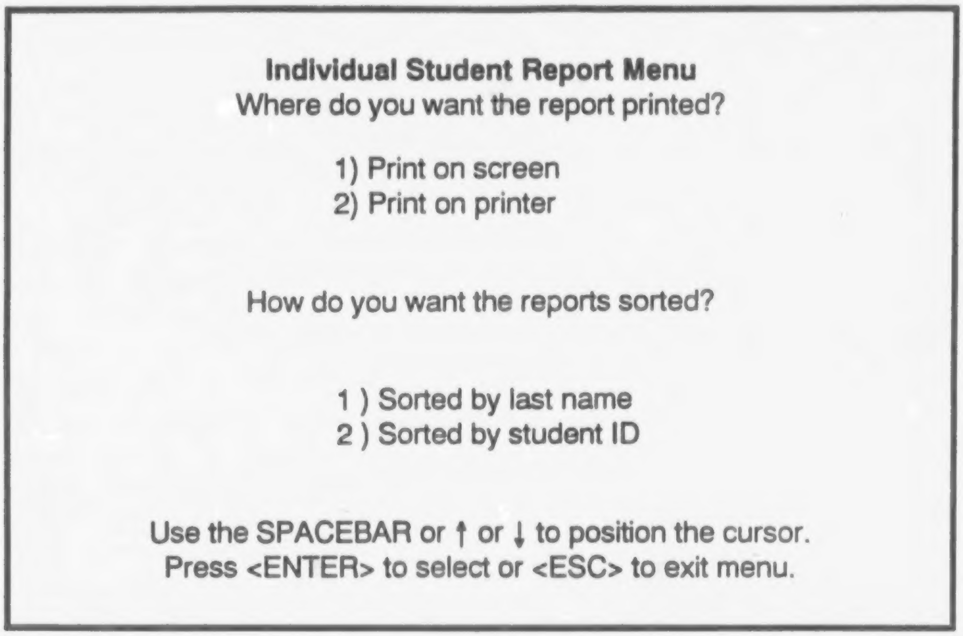
1) Print on screen
2) Print on printer

Use the SPACEBAR or ↑ or ↓ to position the cursor.
Press <ENTER> to select or <ESC> to exit menu.

If you select **Print on screen**, you will see one full screen of the selected report. You must press any key to continue viewing the report(s). The Roster and Summary reports that appear on the screen are identical to the versions that appear on the printer. But the screen version of Individual Student Reports will not include answers to the background questions.

Before you select **Print on printer**, make sure that the printer is plugged in and ready to print. Also make sure that you have plenty of paper. The printer will continue until all the selected reports have been printed. If you want to stop in the middle of printing, press [Esc]. You will be returned to the main Report Menu.

Once you select your print destination, the next set of options appears on the screen. These options allow you to select how the records in your database will be sorted (i.e., how they will be organized). They appear as follows:



**Individual Student Report Menu**
Where do you want the report printed?

1) Print on screen
2) Print on printer

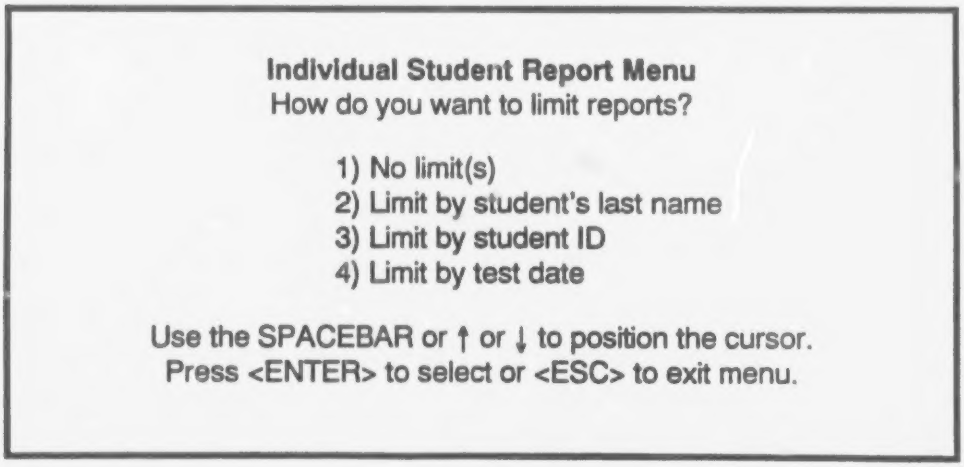
How do you want the reports sorted?

1 ) Sorted by last name
2 ) Sorted by student ID

Use the SPACEBAR or ↑ or ↓ to position the cursor.
Press <ENTER> to select or <ESC> to exit menu.

You have two choices. **Sort by last name** prints reports in alphabetical order. **Sort by student ID** begins printing reports from the lowest ID number. (Note: the sort options are not applicable for the generation of Summary Reports and therefore are not displayed.)

The last option determines how to limit the reports. If you select **No limit**(s), every student record in the database will be printed. This might not be a good idea if you have a large database (e.g., 1,000 students). There are three ways to limit reports: by **student's last name**, by **student ID**, or by **test date**.

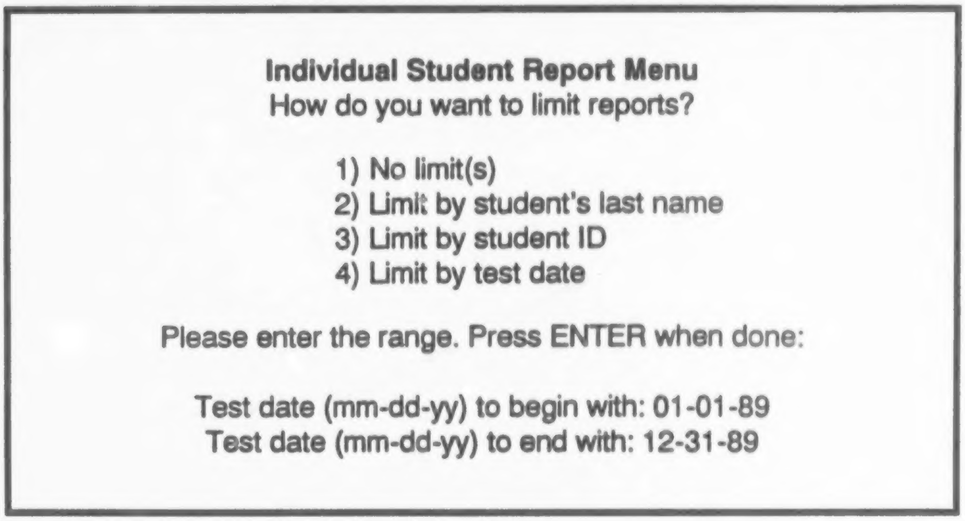


**Individual Student Report Menu**
How do you want to limit reports?

1) No limit(s)
2) Limit by student's last name
3) Limit by student ID
4) Limit by test date

Use the SPACEBAR or ↑ or ↓ to position the cursor.
Press <ENTER> to select or <ESC> to exit menu.

Selecting any of these limits will make an additional prompt appear for entering the starting and ending ranges. This is shown in the screen below:



**Individual Student Report Menu**
How do you want to limit reports?

1) No limit(s)
2) Limit by student's last name
3) Limit by student ID
4) Limit by test date

Please enter the range. Press ENTER when done:

Test date (mm-dd-yy) to begin with: 01-01-89
Test date (mm-dd-yy) to end with: 12-31-89

There are some rules on how to enter ranges. For **last name**, you can enter a general range like A to W, or enter specific last names like ADAMS to SMITH. For **student ID**, the system expects the ID in a Social Security format complete with dashes (e.g., 123-45-6789). You must fill all eleven spaces, and the ID can not be 000-00-0000. Make sure that your ending ID is greater than your starting ID.

For test dates, enter the dates in a DOS mm-dd-yy format, complete with dashes. You must fill all eight spaces. For example, a date of 1-1-90 must be typed as 01-01-90. If you are interested in a single date, enter that date as both the upper and lower limits.

After the limits are selected, press [ENTER] to start printing.

Remember, the options for Individual Student, Roster, and Summary reports are all selected in the same manner. Following are examples of the three printed reports. The first example is an **Individual Student Report**, the second example is a **Roster Report**, and the third is a **Summary Report**.

## Sample Individual Student Report:

### COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS

REPORT FOR: SIMS, ROBERT L.

ID: 735-93-8204 Birthdate: 12/13/66 Major: 118

| TEST RESULTS | TOTAL RIGHT SCORE | RANGE | PERCENTILE RANK | TEST DATE |
|---|---|---|---|---|
| Reading Comprehension | 116 | 114-117 | 99 | 01/04/90 |
| Sentence Skills | 118 | 117-119 | 96 | 01/04/90 |
| Arithmetic | 118 | 117-118 | >93 | 01/04/90 |
| Elementary Algebra | 109 | 104-114 | 88 | 01/04/90 |
| College Mathematics | 92 | 85-99 | 97 | 01/04/90 |

Each test you completed was chosen from a group of 120 questions. The TOTAL RIGHT SCORE shows how many of these you could expect to answer correctly if you took a test made up of all 120 questions.

Any test score is an estimate, not an exact measure of your skills. The RANGE tells you how accurate your score is. If you took a test a second time, you could expect your new score to fall somewhere within the RANGE that is shown.

The PERCENTILE RANK compares your score with the scores of entering college students who completed a test of basic skills in a statewide assessment program. A PERCENTILE RANK of 99, for example, means that your score is higher than those of 99 percent of the students who completed the test.

Responses to Background Questions

Years studied English in high school: 4
Years studied mathematics in high school: 4
Studied algebra in high school: Yes
Years since last mathematics course: 1
Sex: Male
Self description: Black or African American
English first language: Yes
Disabling condition: None
Father's education: Bachelor's degree
Mother's education: Bachelor's degree

## Sample Roster Report:

### COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS

ROSTER FOR: Acorn College

ROSTER OF: Total Right Scores

FOR: All Students

SORTED BY: LAST NAME

| NAME | ID | READING COMP | SENTENCE SKILLS | ARITH- METIC | ELEM ALGEBRA | COLL MATH |
|---|---|---|---|---|---|---|
| BERTRAM, SHERMAN C. | 290-34-8324 | 77 | 60 | 22 | | |
| CAIN, BETTY G. | 173-54-9011 | 94 | 118 | 89 | 65 | 62 |
| DAVIS, ELEANOR R. | 349-98-4929 | 116 | 97 | 113 | 103 | 83 |
| EDWARDS, JOHN N. | 348-95-9483 | 94 | 71 | 82 | 43 | |
| GARCIA, JAMES D. | 894-83-9485 | 67 | 67 | 108 | 84 | 62 |
| MADISON, SAMUEL F. | 023-94-8305 | 109 | 118 | 114 | 92 | 71 |
| MEYERS, ELIZABETH S. | 384-95-8396 | 79 | 115 | | 76 | 65 |
| SIMS, ROBERT L. | 735-93-8204 | 116 | 118 | 118 | 109 | 92 |
| SMITH, ROGER M. | 245-84-3211 | 65 | 43 | 80 | 32 | |
| WILLIAMS, JOAN B. | 534-39-4058 | 120 | 118 | 56 | 43 | 39 |

NUMBER OF STUDENTS PROCESSED: 10

## Sample Summary Report:

### COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS

SUMMARY REPORT FOR: Acorn College

REPORT OF: Total Right Scores

FOR: All Students

| RANGE | READING COMPREHENSION | SENTENCE SKILLS | ARITHMETIC | ELEMENTARY ALGEBRA | COLLEGE MATH |
|---|---|---|---|---|---|
| 116 - 120 | 2 | 8 | 4 | 5 | 1 |
| 111 - 115 | 1 | 9 | 6 | 6 | 3 |
| 106 - 110 | 2 | 15 | 9 | 7 | 2 |
| 101 - 105 | 8 | 12 | 8 | 5 | 3 |
| 96 - 100 | 16 | 12 | 4 | 5 | 5 |

| MEAN SCORE | 79.0 | 88.1 | 71.6 | 61.3 | 74.3 |
| STD. DEVIATION | 19.4 | 20.8 | 27.1 | 30.8 | 21.7 |

# Special Notes

## Generating Reports for Specific Students

The best way to produce an Individual Student Report for a specific candidate is to select the **Limit by student ID** option, and to enter that student's ID number as the lower and the upper limit. If you are not sure of the student's ID number, another approach is to select the **Limit by student's last name** option, and to enter the last name as the lower and the upper limit of the range. If you use the last name limit, you will get more than one report if your student database contains more than one candidate with that last name. You must key in the ID number or last name exactly as the student entered it during candidate sign-on.

If you wish to produce reports for all students whose last names begin with a specific letter, then enter that letter as the lower limit and enter the next letter in the alphabet as the upper limit. For example, a lower limit of G and an upper limit of H will produce records for all students whose last names begin with G.

## Limiting Reports by Test Date

Test data will be reported differently on the three types of reports produced through the CPTs Reporting System when you select the **Limit by test date** option and enter a date range.

☐ **Individual Student Report:**

An Individual Student Report is produced for all students who tested within the specified date range, whether or not all of their test dates are within that range. Each student's Individual Student Report will contain scores of tests taken within and outside of the date limit.

☐ **Roster:**

A student is included on a Roster if tested within the specified date range; however, **only the scores of tests taken within the date range appear in the student's record.**

☐ **Summary:**

Only scores of tests taken within the specified date range are reported on the Summary Report.

## Matching of Candidate Test Data

The data are matched on the student ID number. Therefore, it is essential for each student to have a **unique** ID number and to key it in correctly each time tested.

The CPTs Reporting System always reports the most recent test data for each student (i.e., for each ID number). Therefore, if a student repeats one or more test components, the **most recent score and background data** will be reported. If you want to keep "pretest" data separate from "posttest" data, you can either use different sets or installations of CPTs for pretesting and posttesting, or you can make a backup of your pretest reporting database before beginning posttesting. You can also use CPMS reports, which include all scores.

## Backup Procedures for CPTs Reporting System

If you have run the **COPYSCORES** routine, you have saved one copy of the testing data, but it is in an encrypted format that can only be read by the CPTs Reporting System (or by CPMS).

However, the student database files created by the CPTs Reporting System (or CPMS) are not encrypted. They are in ASCII delimited format. You should make backup copies of the reporting system database files. Do this by using the DOS COPY command. (Refer to your DOS manual.)

To make backup copies of your CPTs Reporting database (before you delete the records in it by executing the **Delete Current Records in Database** menu option), you must copy each of the following files onto a separate disk or into another subdirectory on your hard disk or file server. The three files are:

☐ STUDENT.DBF

☐ STUDLN.NDX

☐ STUDID.NDX

☞ All three files must be copied.

# UNINSTALLING CPTs

When you have used all your tests, want to move some tests from one computer to another, or reached the expiration of your CPTs license (even if tests remain), you need to uninstall CPTs from your standalone hard disks and file server.

☛ Before uninstalling CPTs from a network environment, any file set to Read-Only must be changed to Read/Write. If this is not done, these files will not be deleted.

## Hard Disk and Network Configurations

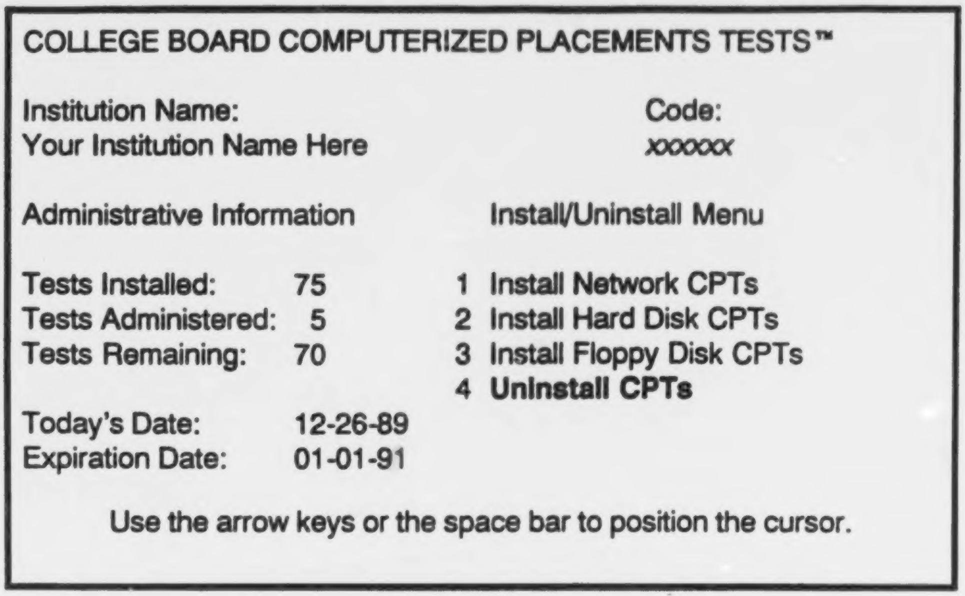
If you are operating from a hard disk (either networked or standalone), then proceed as follows for each hard disk on which CPTs is installed:

☐ Use the COPYSCORES procedures to capture the final set of test data on a **COPYSCORES** disk. See the **SYSTEM OPERATION** chapter for details.

☞ You cannot uninstall CPTs until all data have been transferred using the COPYSCORES procedures. If you have not captured all test data (on one or more COPYSCORES disk) you will receive a message to perform the COPYSCORES procedure.

☐ From the Main Menu, select **Install/Uninstall.**

☐ Select the **Uninstall CPTs** option (shown highlighted in the screen below) from the **Install/Uninstall** Menu:



```
COLLEGE BOARD COMPUTERIZED PLACEMENTS TESTS™

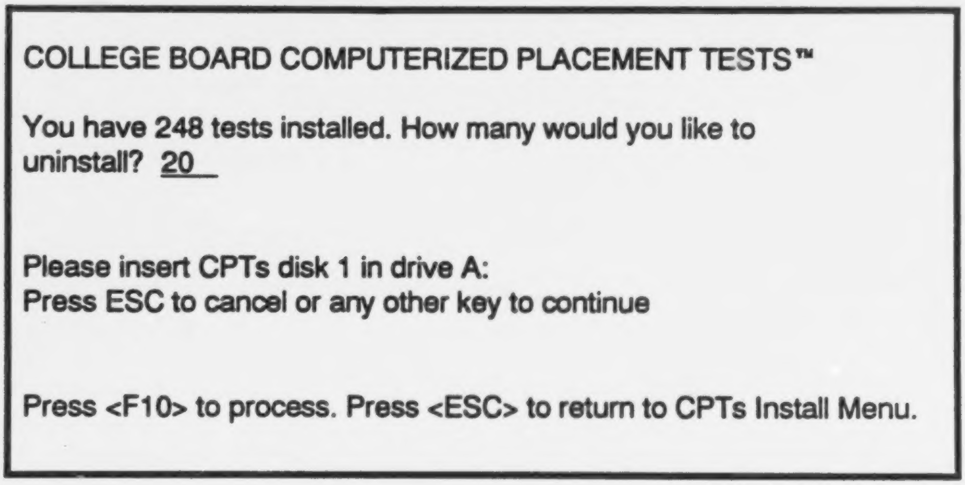
Institution Name:                              Code:
Your Institution Name Here                     xxxxxx

Administrative Information            Install/Uninstall Menu

Tests Installed:       75          1  Install Network CPTs
Tests Administered:     5          2  Install Hard Disk CPTs
Tests Remaining:       70          3  Install Floppy Disk CPTs
                                   4  Uninstall CPTs
Today's Date:          12-26-89
Expiration Date:       01-01-91

      Use the arrow keys or the space bar to position the cursor.
```

☐ The screen below then appears. (The **248** shown is only an example.) If you change your mind, press [Esc] to return to the CPTs Installation Menu. If you wish to continue with the uninstall procedure, indicate how many tests you wish to uninstall.



```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

You have 248 tests installed. How many would you like to
uninstall? 20_

Please insert CPTs disk 1 in drive A:
Press ESC to cancel or any other key to continue

Press <F10> to process. Press <ESC> to return to CPTs Install Menu.
```

☐ If you wish to uninstall a portion of those remaining, type in the number you wish to uninstall (20 is shown as an example). If you have zero tests left or a negative number left, press [F10] without typing a number. You will be prompted to place the appropriate disks in drive A. The **Uninstall** procedure only removes ETS' testing files and programs. Any other files and programs the user has placed in that subdirectory will not be removed (e.g., programs used to transfer data to the main frame).

☐ Insert CPTs Disk 1 into drive A and press [F10]. The following screen appears:

```
COLLEGE BOARD COMPUTERIZED PLACEMENT TESTS™

You have 228 tests installed.

Please insert disk 1 in drive A:
Press any key to continue
```

☐ The sample screen above shows **228** tests remaining. This is because 20 was indicated (in this example) as the number of tests to uninstall. Of course, you could have uninstalled all 248 tests. Following the instructions, insert Disk 1 in drive A and press any key.

☐ If you are uninstalling all the tests on the system, the screen will ask for Disk 2, Disk 3, Disk 4, and then Disk 5 to be inserted. Insert the appropriate disk each time and press any key to continue.

☐ After processing is completed with Disk 5, the message **Thank you for using CPTs** indicates that you are done.

☐ Return all COPYSCORES disks and installation disks to Computerized Placement Tests, Educational Testing Service, P.O. Box 6800, Princeton, N.J. 08541.

☞The above uninstall procedure may also be used to switch CPTs from one machine to another. For example, if a machine must be taken out of service and replaced with another, this procedure would be needed. Simply follow the steps above on the original machine, and then reinstall CPTs on the new machine as described in the **INSTALLATION** chapter beginning on page 11.

☞To move an installation from a hard disk to a network, or from a network installation to a hard disk, all remaining tests must first be uninstalled. They may then be reinstalled on the new configuration.

## Floppy and Diskette Configurations

☞Floppy or diskette users have no need to uninstall and are therefore prevented from doing so.

☐ Return your floppy or diskette sets of CPTs to ETS when all tests have been administered or when your license expires.

# INTERFACING CPTs WITH INSTITUTIONAL SYSTEMS

CPTs can interface with your own institution's computer systems, including mainframe systems, for managing student information. If you wish to build such an interface, then your technical systems staff will need to read this section. They may also want to contact the CPTs assistance hotline for additional information at (609) 734-5782.

You may interface CPTs Version 3.0 with either PC-based programs (such as CPMS Version 3.0) or to your own mainframe systems. The interface can be in "real time" while the student is using the PC or upon completion of the testing session. In the latter case the simplest interface is provided by CPMS Version 3.0 (see the CPMS User Manual for procedures).

The real-time interface is accomplished by exiting from CPTs to your own PC application at two points in the testing process: after the student identification has been entered, and after the student has completed all of the tests. At each of these points CPTs invokes a PC program provided by ETS (STDID.EXE and STDCLOSE.EXE, respectively) and passes it a string containing the following six fields:

- Last name
- First name
- Middle initial (if any)
- 9-digit identification
- 6-digit birth date
- Major code

In the case of STDCLOSE.EXE, the string contains the test scores as well as the six identifying fields repeated from STDID.EXE. [Note: The test scores are strung out in the administration sequence specified by your setup parameters. If your setup parameters call for fewer than five tests, the string will have fewer than five test score fields in the sequence specified in the setup. See the example below for Smith. In all cases, each field is separated from the prior field by a backslash (\) and the string has a normal string terminator (NULL).

```
STDID

ADAMS\JENNIFER\R\123456789\050968\999

STDCLOSE

WILLIAMS\ALAN\987654321\072867\999\85\107\0\92\73

SMITH\ROGER\999999999\032566\999\77\35
```

Note that in the STDCLOSE.EXE example for Williams, there is no middle initial. Also, the third score is zero which indicates that the third test was skipped using the ESCAPE Procedure (see page 74 of the **SYSTEM OPERATION** chapter).

The STDCLOSE example for Smith has only two test scores, as if your Installation Parameters were set to administer only two of the tests in the battery. For example, if your parameters called for the administration of the Arithmetic test followed by the Elementary Algebra test, the 77 would be the Arithmetic test score and the 35 would be the Elementary Algebra test score.

STDID and STDCLOSE must be in your CPTs working directory or your path.

Following is a sample shell for the STDID and STDCLOSE programs, written in C:

```
main (argc, argv)

int argc;

char*argv[1];

{

/*insert your code here to process the string*/

exit (0);

}
```

In this example, **argc** will be *2* and **argv[1]** will point to the student ID string (by convention, the first argument is the name of the program being invoked).

Your PC programs (STDID and STDCLOSE) may now take whatever action you require. One precaution: the student is waiting at the PC, so extended processing should be avoided and error conditions must be carefully managed.

If you are interfacing to a mainframe system (using an operating system such as CICS or TSO), then in addition to the two PC programs you will need PC-to-mainframe communications software (e.g., a 3270 emulation package). In this case STDID and STDCLOSE will need to initiate the mainframe application, pass the mainframe the appropriate data from the strings described above, interact with the student if necessary for additional information, receive data if appropriate from the mainframe data base, and terminate the mainframe application. Details for communicating with the mainframe are usually supplied with the communications package.

**Please feel free to call ETS at (609) 734-5782 for further information.**

# CPTs ERROR MESSAGES

Proceed as indicated below if any of the following error messages appear during CPTs installation or operation. A list of additioinal messages used in CPTs will be found beginning on page 115 of the **APPENDIX**.

■ **Installation error x**

- ☐ If **x** is between 1 and 19, then a file is missing from the installed CPTs system. Repeat the installation, making certain that the disk drive door is closed and that no disk errors occur.
- ☐ If **x** is between 20 and 29, then your computer does not have enough internal memory to operate CPTs. Install CPTs on a computer with more memory.
- ☐ If **x** is 30 or above, then an internal error has occurred. Please make note of the error number and report it to ETS.

☞Note: installation errors may be caused by incorrect hardware configuration settings in the "installation parameters." Therefore, check your hardware configuration parameters.

■ **Disk error. Press any key to re-try**

- ☐ Check that the proper disk is mounted and that the drive door is closed. If the error persists there is a disk hardware problem.

■ **Network not responding**

- ☐ The network is not available. See your network manager.

■ **Network not responding or vdisk problem**

- ☐ Either the network is not available, or there is not enough room on your virtual disk. See the **SYSTEMS INSTALLATION** chapter starting on page 11.

- ■ **This disk has expired. Please return it to ETS**
    - ☐ Return all disks to ETS. See the CPTs Participation Form for re-ordering information.
- ■ **All Tests Have Been Administered**
    - ☐ Return all disks to ETS. See the CPTs Participation Form for re-ordering information.
- ■ **Insufficient disk space**
    - ☐ You do not have sufficient disk space to continue testing. If you are on a floppy configuration then load any scores into the Reporting system and return Disk 1 to ETS. If you are on a hard disk configuration clear enough space from the hard disk (we suggest a minimum of 300K) to resume testing.
- ■ **Password is not valid**
    - ☐ Re-try with the correct password.

# GLOSSARY

| | |
|---|---|
| **Abort** | To end a given process. For example, to abort the installation if you do not have enough space on your hard disk. |
| **Arrow Keys** | The ←, ↑, →, and ↓ keys on your keyboard used to move the cursor around the screen. |
| **ASCII** | A standard computer code that represents each letter, number, or other character with a unique configuration. |
| **Background Questions** | Questions answered by the student that provide information specific to that student, such as the amount of experience in mathematics. |
| **Backup** | To copy information from a hard disk or set of floppy disks to another set of disks. The procedure is used to prevent the loss of data and is **essential**! |
| **Boot** | To load an operating system into a computer, preparing the computer for use. This process usually occurs automatically, when a computer is turned on. |
| **Clock** | A timer inside the computer used to maintain the time and date. This clock is active even if your computer is turned off. A clock is needed only if you wish to see the time or date displayed on the screen or recorded on reports. |
| **CPMS** | Computerized Placement Management Software. Another software system produced by the College Board. |
| **CPTs** | Computerized Placement Tests™. |
| **CRT** | Cathode ray tube; the monitor or device on which information is visually displayed. |
| **Current Item** | The item highlighted on your screen, such as a menu selection. |

| | |
|---|---|
| **Cursor** | The blinking (usually) bar or square that appears on the screen to indicate the current position. |
| **Database** | A set or collection of data established for a specific purpose. |
| **Default** | An option that is exercised when no alternative is indicated; the value a system assumes when one is not entered. |
| **Directory** | A list or index of data or files. The CPTs directory is created automatically when the software is installed. |
| **Display** | The device on which information is visually presented; a monitor or CRT. |
| **DOS** | Disk Operating System. The software used by the computer to control all internal operations. |
| **DOS Prompt** | Usually, the C:\> (if using hard disk) or A:\> (if using floppy disks) symbol displayed shortly after the computer is turned on. This may vary depending on how the system is configured. When you see the prompt, you can give various commands to the system, including starting the CPTs software by keying *CPTS3*. |
| **Extension** | The part of a DOS file or directory name following the period. For example, ABC.XYZ has an extension of XYZ. The extension is optional, and can be one, two, or three characters. |
| **Field** | A specific portion of a record. |
| **File Server** | The controlling computer that manages the transfer of information among all the connected computers in a network. |
| **Floppy Disk** | A magnetic storage medium used to hold software and data. CPTs software comes supplied on either 5-1/4-inch or 3-1/2-inch disks. |
| **Floppy Disk Drive** | The device that reads from, and writes to, floppy disks. |

| | |
|---|---|
| **Format** | To arrange or code a disk so that it can be used. The COPYSCORES disk with which you are supplied is already formatted. |
| **Function Keys** | Keyboard keys, each of which has a special function. Always shown in brackets [ ] in this manual (but not on the keyboard). The function keys are usually labeled **F1**, **F2**, etc. |
| **Graphics Card** | The electronic circuit board inside the computer that enables the screen to display graphic information properly. |
| **Hard Disk** | A device on which software and data are stored. Can be installed within a computer or be external to it. |
| **Highlight** | To emphasize an option on a screen by making it stand out from the others. |
| **Index Files** | Files that locate records on databases. |
| **Installation** | The process of placing software in position on a computer so that the software can be utilized. |
| **Major** | The student's preferred academic area of study. Also referred to as Major Field. |
| **Menu** | A list of options, functions, or procedures, displayed on the screen, from which the computer operator may select. |
| **Message** | A communication from or to a program or person (usually displayed on the monitor). |
| **Monitor** | The device on which information is visually presented; a display or CRT. |
| **Monochrome** | Having a single color; used to describe monitors that display only one color (besides the background hue). |
| **Path** | A route between areas within a directory. For example, if the root directory of drive C contains a subdirectory X, and subdirectory X, in turn, contains a subdirectory Y, the path of any file in subdirectory Y is **C:\X\Y\**. |

| | |
|---|---|
| **Printer** | A device that produces a record, on paper, of data sent to it. |
| **RAM Disk** | Random access memory used to emulate a disk drive. Information stored on a RAM disk can be accessed much more quickly than on a physical disk drive. |
| **Record** | Pieces of information about a particular topic. |
| **Report** | A document generated by software that can either be printed or displayed on a screen. |
| **Root Directory** | The first, or highest-level, directory on any drive. For example, C: on a hard disk. |
| **Screen** | The cathode ray tube (CRT) or information displayed on it. |
| **Software** | The instructions (programs) the computer uses to perform an operation. |
| **System** | Programs and files organized to perform specific functions. |

# APPENDIX

The sections on the following pages were created to supplement your understanding of CPTs. These sections include:

- ☐ Special Notes
- ☐ First Mathematics Test Selection Logic
- ☐ Decision Tables Used by CPTs for First Mathematics Test
- ☐ Branching Criteria for Mathematics Tests
- ☐ Prompt Messages
- ☐ Critical Error Messages

# Special Notes

## Inspection Sets of CPTs

CPTs Inspection Sets may be installed in any or all of the configurations supported by CPTs — standalone hard drive, local area network file server, and floppy/diskette drives.

If you would like to try the Inspection Set in both a hard disk/file server environment and in a diskette drive environment, first install it in a hard disk/file server configuration by selecting either **Install Hard Disk CPTs** or **Install Network CPTs** from the **Install/Uninstall** Menu. Follow the instructions and try out the system. Do not administer all 75 tests. Leave some so that you can experiment with other types of installations. When you are finished trying the hard disk/file server configuration, select the **Uninstall CPTs** option from the **Install/Uninstall** Menu. Then reinstall the remaining tests in the next type of installation you want to try.

If you install your Inspection Set of CPTs for use on hard disk drive or file server configurations, you have the capacity to administer 75 tests (e.g., 15 students each taking 5 tests). You can **install, uninstall, and reinstall the Inspection Set any number of times until the 75 tests have been administered**. Each time you uninstall, the number of tests administered will be automatically subtracted from the original total of 75 tests. (Note: Because of the price of the College-Level Mathematics (CLM) test, each administration of it decreases the total test count by two.)

However, as noted above, you may uninstall and install again any number of times, and each time you do so the actual number of tests remaining to be administered will be installed and will appear in the **Administrative Information** section of the **Main Menu**. You will also see in the **Administrative Information** portion of the screen three counters for the number of tests installed, administered, and remaining. The counters will be automatically adjusted as tests are administered. (Note: Each administration of the CLM test decrements the tests remaining counter by two.)

Each time you reinstall the tests, the **Administration Information** section of the **Main Menu** will display the screen counters for the number of tests installed, administered, and remaining. The counters will adjust automatically as the tests are administered.

If you install your Inspection Set of CPTs for use on 5-1/4 inch or 3-1/2 inch diskette drive configurations, please note that you can **install only once**. If you have not installed and administered tests on a file server or hard disk you will have the capacity to administer 75 tests (e.g., 15 students each taking all five tests). If you have previously installed some tests (i.e., with a hard disk or file server installation), you will have the capacity to install the number of tests remaining.

## Changing Test Administration and Hardware Parameters

In Version 3.0, after installation, all test administration and hardware parameters may be accessed and changed directly from the CPTs **Main Menu** by selecting the appropriate option(s). Institutional information (e.g., College Name) may also be accessed and changed.

> ☞These parameters may also be accessed directly from DOS by typing
>
> *CPTS3 xxxx* (*xxxx* represents yours password).
>
> Press [ENTER].

To review the parameters you previously set, you can select **Administer Tests** from the **Main Menu**. The first screen displays the current settings. If you wish to change them, press [Esc] to escape from the CPTs **Main Menu** and proceed by selecting the necessary options.

## Computers with High and Low Density Floppy Disk Drives

Computers are equipped with a variety of floppy and diskette drives. For example, you may have a **double-sided/double-density** drive which accepts only **double-sided/double-density** floppy disks. This type of disk drive can not accept **double-sided/high-density** disks. You must have a **high-density** disk drive for that. However, **high-density** disk drives will accept **double-sided/double-density** floppy disks. The distribution disks you receive from ETS are always **double-sided/double-density**. Therefore, you can use these in either type of floppy disk drive. When you copy data such as scores, from CPTs, you can place these data on either floppy disks or diskettes. Of course, if you copy scores onto a high-density disk, they can be read only on a high-density disk drive.

If you have both a 5-1/4 inch floppy disk drive and a 3-1/2 inch diskette drive on your computer, DOS permits you to copy from one to the other.

## Standard and Local Background Questions

Unless your order states otherwise, the "standard" set of background questions is shipped to you with CPTs. If you ordered "local" (custom) background questions, ETS has added them to your testing disks. If you also ordered Computerized Placement Management Software (CPMS) you must add the local background questions to it. Before doing this, you should be familiar with CPMS. We suggest you review the CPMS manual and the CPMS Tutorial explained in the manual. Listed below are the standard background questions and responses.

**What is the total number of years you studied English in high school (grades 9-12)? Count less than a full year of English as a full year, but do not count a repeated year of the same course as an additional year of study.**

- One year or the equivalent
- Two years or the equivalent
- Three years or the equivalent
- Four years or the equivalent
- More than four years or the equivalent
- I did not take any courses in English
- Omit

**What is the total number of years you studied mathematics in high school (grades 9-12)? Count less than a full year of mathematics as a full year, but do not count a repeated year of the same course as an additional year of study.**

- One year or the equivalent
- Two years or the equivalent
- Three years or the equivalent

- Four years or the equivalent
- More than four years or the equivalent
- I did not take any courses in mathematics
- Omit

**Did you study algebra for at least one semester in high school?**

- Yes
- No
- Omit

**How long has it been since you have taken a mathematics course or other formal mathematics training?**

- Less than one year
- One to three years
- Four to six years
- Seven or more years
- Omit

**What is your sex?**

- Female
- Male
- Omit

**How do you describe yourself?**

- Native American, American Indian, or Alaska Native
- Black or African American
- Mexican American or Chicano
- Puerto Rican
- Other Hispanic, Latino, Central American, or South American
- Asian or Pacific American
- White (non-Hispanic) or Caucasian
- Other
- Omit

**Is English the first language you learned?**

- Yes
- No
- Omit

**What disabling condition do you have, if any, that might affect the usefulness of your test scores as measures of your skills? (Select only one.)**

- None
- Blindness or other visual impairment
- Deafness or other hearing impairment
- Paraplegia
- Learning disability
- Other neurological or orthopedic impairment
- Other
- Omit

**What is the highest level of education completed by your father or male guardian?**

- Grade school or less
- Some high school
- High school diploma or equivalent
- Business or trade school
- Some college
- Associate degree
- Bachelor's degree
- Some graduate or professional school
- Completed graduate or professional school
- Omit

**What is the highest level of education completed by your mother or female guardian?**

- Grade school or less
- Some high school
- High school diploma or equivalent
- Business or trade school
- Some college
- Associate degree
- Bachelor's degree
- Some graduate or professional school
- Completed graduate or professional school
- Omit

**If you have any questions, please call CPTs Program Direction at (609) 734-5782**

## First Mathematics Test Selection Logic

The CPTs system uses information from the standard background questions to determine which mathematics test the student should take first. This procedure is established when you indicate that mathematics testing should start **Based on Background** (see page 41 in the **SYSTEM INSTALLATION** chapter for details). The three mathematics-related standard background questions and the possible responses (shown below) were used to create the table on the following pages. This table is used by CPTs to determine which mathematics test is given first.

### Mathematics Background Questions

**2. What is the total number of years you studied mathematics in high school (grades 9-12)? Count less than a full year of mathematics as a full year, but do not count a repeated year of the same course as an additional year of study.**

- One year or the equivalent
- Two years or the equivalent
- Three years or the equivalent
- Four years or the equivalent
- More than four years or the equivalent
- I did not take any courses in mathematics
- Omit

**3. Did you study algebra for at least one semester in high school?**

- Yes
- No
- Omit

**4. How long has it been since you have taken a mathematics course or other formal mathematics training?**

- Less than one year
- One to three years
- Four to six years
- Seven or more years
- Omit

## DECISION TABLE USED BY CPTs FOR FIRST MATHEMATICS TEST

| Question 3: Algebra at least one semester? | Question 2: Years of HS Math? | Question 4: Time since last math training? | First Math Test |
|---|---|---|---|
| Omit | None | Any response | AR |
| Omit | One | Any response | AR |
| Omit | Omit | Any response | EA |
| Omit | Two | Any response | EA |
| Omit | Three | Any response | EA |
| Omit | Four | Four to six | EA |
| Omit | Four | Seven or more | EA |
| Omit | More than four | Four to six | EA |
| Omit | More than four | Seven or more | EA |
| Omit | Four | Omit | CLM |
| Omit | Four | Less than 1 | CLM |
| Omit | Four | One to three | CLM |
| Omit | More than four | Omit | CLM |
| Omit | More than four | Less than 1 | CLM |
| Omit | More than four | One to three | CLM |
| Yes | None | Any response | AR |
| Yes | Omit | Any response | EA |
| Yes | One | Any response | EA |
| Yes | Two | Any response | EA |
| Yes | Three | Four to six | EA |

**KEY FOR FIRST MATH TEST**
**AR** = Arithmetic Skills, **EA** = Elementary Algebra Skills,
**CLM** = College-Level Mathematics

## DECISION TABLE USED BY CPTs FOR FIRST MATHEMATICS TEST

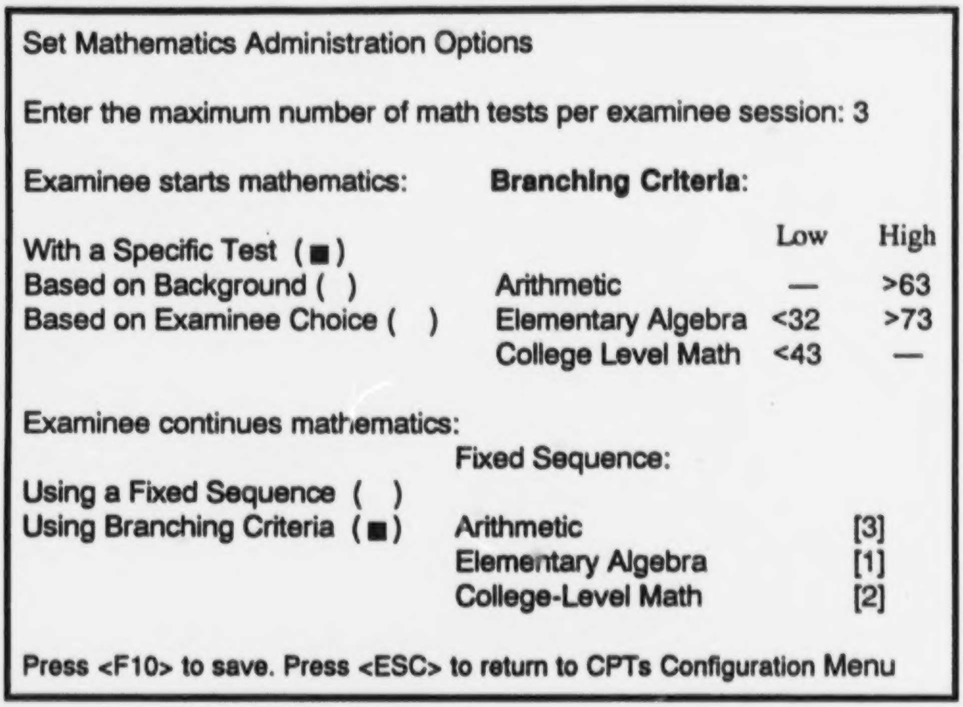
| Question 3: Algebra at least one semester? | Question 2: Years of HS Math? | Question 4: Time since last math training? | First Math Test |
|---|---|---|---|
| Yes | More than four | Four to six | EA |
| Yes | More than four | Seven or more | EA |
| Yes | Three | Omit | CLM |
| Yes | Three | Less than one | CLM |
| Yes | Three | One to three | CLM |
| Yes | Four | Omit | CLM |
| Yes | Four | Less than one | CLM |
| Yes | Four | One to three | CLM |
| Yes | More than four | Omit | CLM |
| Yes | More than four | Less than one | CLM |
| Yes | More than four | One to three | CLM |
| No | Omit | Any response | AR |
| No | None | Any response | AR |
| No | One | Any response | AR |
| No | Two | Any response | AR |
| No | Three | Any response | EA |
| No | Four | Any response | EA |
| No | More than four | Any response | EA |

### KEY FOR FIRST MATH TEST

AR = Arithmetic Skills, EA = Elementary Algebra Skills,
CLM = College-Level Mathematics

## Branching Criteria for Mathematics Tests

The screen below was discussed in the **SYSTEM INSTALLATION** chapter. The branching criteria shown are the default values. The system will automatically administer an additional mathematics test if the score on the prior test is above or below a certain value. For example, if the score on the Elementary Algebra test was high, it would be appropriate to administer the College-Level Mathematics (CLM) test for a better indication of the student's ability. Similarly, if the student obtains a very low score in Elementary Algebra, it would be best to administer the Arithmetic test next.



Set Mathematics Administration Options

Enter the maximum number of math tests per examinee session: 3

Examinee starts mathematics:

With a Specific Test ( ■ )
Based on Background ( )
Based on Examinee Choice ( )

**Branching Criteria:**

| | Low | High |
|---|---|---|
| Arithmetic | — | >63 |
| Elementary Algebra | <32 | >73 |
| College Level Math | <43 | — |

Examinee continues mathematics:

Using a Fixed Sequence ( )
Using Branching Criteria ( ■ )

Fixed Sequence:

| | |
|---|---|
| Arithmetic | [3] |
| Elementary Algebra | [1] |
| College-Level Math | [2] |

Press <F10> to save. Press <ESC> to return to CPTs Configuration Menu

You may modify these criteria but use great care, since certain combinations of values will result in specific tests always or never being administered. Use of the branching criteria are simple. Using the values shown above, if the score on the Elementary Algebra test is less than 32, the Arithmetic test is given next. If the score exceeds 73, the College-Level Mathematics test is given next. If the College-Level Mathematics test was given first, and the resulting score is less than 43, then Elementary Algebra is given next. If the score is 43 or more, then no further mathematics test is given. If the Arithmetic test is administered first and the score is greater than 63, Elementary Algebra is given next. If it is not greater than 63, then no other test is given. The first mathematics test given is determined by the values set in the **Set Mathematics Administration Options** screen explained beginning on page 40 in the **SYSTEM INSTALLATION** chapter.

## Prompt Messages

The following prompt messages are presented by the system at various times. They typically provide status information and frequently request that you take an appropriate action. Most of them ask you to press a key to continue. While most of them remain on the screen until you perform the requested operation, some are displayed momentarily and then disappear. The messages appear in alphabetical order.

- Appending ADM.LOG to REPORT.LOG
  then removing ADM.LOG file
  Please wait . . .
- Branch values can not be
  greater than 121
  Press any key to continue . . .
- Changes made but not saved . . . Exit anyway? (Y/N)
- Changes saved . . .
- Copy Scores to Floppy Disk Complete . . .
  Press any key to continue
- Copying files please wait . . .No Scores Found to copy !!!
  Press any key to continue . . .
- CPTs Installation Complete . . .
  Press any key to exit install
- Diskette in drive A: is full . . .
  Please insert a new diskette in drive A:
  Press any key to continue
- Diskette in drive A: is full . . .
  Please insert a new diskette in drive A:
  Press Esc to cancel or any other key to continue
- Install process aborted.
- Installed adapter is EGA, this doesn't match your settings. Install as set anyway? (Y/N)

- LOW Branch values can not be
  greater than HIGH branch values
  Press any key to continue . . .

- Please Enter between 1 and 3 . . .
  Press any key to continue

- Please Enter between 1 and 5 . . .
  Press any key to continue

- Please insert a diskette in drive A:
  Press any key to continue

- Please insert a diskette in drive A:
  Press Esc to cancel or any other key to continue

- Please insert CPTs disk 1 in drive A:
  Press Esc to cancel or any other key to continue

- Please insert CPTs disk 2 into drive B:
  Press any key to continue

- Please insert CPTs disk 2 into drive B:
  Press Esc to cancel or any other key to continue

- Please insert CPTs disk 4 into drive B:
  Press Esc to cancel or any other key to continue

- Please insert CPTs disk 5 into drive B:
  Press any key to continue

- Preparing to install . . .

- Problem making and/or changing to directories specified
  Please correct and try again
  Press any key to continue

- Processing student

- Removing files please wait . . .

- Thank you for using CPTs

- The first character in the path must be a drive letter
  Press any key to continue

- The path doesn't follow standard MS-DOS syntax
  Please check with MS-DOS reference manuals
  Press any key to continue

- The second character in the path must be a colon (":")
  Press any key to continue

- The third character in the path must be a backslash ("\")
  Press any key to continue

- This is a first time installation, if you really want to
  escape out, you will abort the install process . . .
  Press ESC to exit or press any other key to continue

- WARNING . . Are you sure you want to install
  CPTs as a floppy disk system?
  (You won't be able to uninstall it later!!!)
  Press (Y/N)

- Working . . . Please Wait

- You can not continue with a specified order
  unless you start with a specified order
  Press any key to continue . . .

- You can NOT install a floppy disk version of CPTs
  from an already installed network/hard disk version.
  Press any key to continue

- You can NOT install a hard disk version of CPTs
  from an already installed network/floppy disk version.
  Press any key to continue

- You can NOT install a network version of CPTs
  from an already installed hard disk/floppy disk version.
  Press any key to continue

- You can NOT install more tests than you have remaining
  Press any key to continue

- You can not run
  Copy Scores to Floppy Disk
  for a floppy disk version of CPTs
  Press any key to continue

- You can not select to start mathematics based on examinee background unless you ask background questions.
  Press any key to continue . . .
- You can NOT set math delivery options unless you turn on math subjects in Set Test Delivery Options.
  Press any key to continue . . .
- You can NOT turn off asking background questions if you are using them to start math testing.
  Press any key to continue . . .
- You can NOT uninstall a floppy disk version of CPTs .
  Press any key to continue
- You can NOT uninstall CPTs before it is installed!
  Press any key to continue.
- You can not use the Install/Uninstall Menu for a system set up for floppy disks.
  Press any key to continue
- You have entered an invalid date . . .
  Please Enter a date in the format: MM-DD-YY
  Press any key to continue
- You have no more CPTs tests . . .
  Please add more tests or uninstall
  and/or return disks to ETS
  Press any key to continue
- You have no more CPTs tests . . .
  Press F10 to uninstall software or press ESC to exit uninstall
- You have no tests remaining to install
  Press any key to exit install
- You must install at least one test
  Press any key to continue
- You must provide at least a drive with a colon (e.g., "C:")
  Press any key to continue
- You must provide at least a drive with a colon and backslash (e.g., "C:\")
  Press any key to continue

- You MUST run the copy scores procedure before
  you can uninstall CPTs . . .
  Press any key to continue

- You should have 2,000,000 bytes of free disk space to install
  and operate the CPTs system. Please select a different drive
  or exit and make room on this drive.
  Press any key to continue

- Your equipment indicates that you are using a monochrome adapter.
  You must have graphics to run CPTs. You should set up to run
  on Hercules . . . Press any key to continue

## Critical Error Messages

These messages usually indicate a serious problem with the system or the software. While the system may often return to the DOS prompt, it also may not. You may need to reboot your system. Review carefully what you did immediately before the message appeared. If you can not use the system successfully, note carefully the steps that led to that message. Then see the **ASSISTANCE** chapter on page 123 for information on how to contact ETS. These messages appear in alphabetical order.

- Configuration menu failed
- Couldn't remove ADM.LOG
- Disk has expired
- Error loading CptCfg variables
- Error with load_scrn( )
- Error with read_instcfg( )
- Error with read_sstcfg( )
- Install menu failed
- Invalid password
- Invalid system start up . . . Check installation and retry.
- Main menu failed
- Not enough room for REPORT.LOG on Network/Hard disk
- Problem allocating memory for messages
- Problem appending ADM.LOG to REPORT.LOG
- Problem changing to local directory . . .
- Problem copying A:INST.DEF to A:INST.CFG
- Problem copying files . . .

- Problem copying files from fileserver to user area
- Problem copying graphic drivers
- Problem copying INST.CFG to drive A:
- Problem creating A:CPT2PMS.DAT
- Problem creating CPT3.BAT file
- Problem executing C_REPORTS
- Problem executing TESTADM
- Problem installing files . . .
- Problem opening A:ADM.LOG file
- Problem opening ADM.LOG file
- Problem opening ADM.LOG for size
- Problem opening A:INST.CFG
- Problem opening A:INST.DEF
- Problem reading A:INST.CFG
- Problem reading A:INST.DEF
- Problem reading CPT.CFG
- Problem reading INST.CFG
- Problem reading SST.CFG
- Problem removing files
- Problem seeking ADM.LOG file
- Problem updating CPT.CFG
- Problem updating INST.CFG

- Problem updating SST.CFG
- Problem with CPT startup
- Problem with get_date( )
- Problem writing global variables
- Problem writing to A:INST.DEF
- Problem writing to INST.CFG
- System must be installed with drive A: as default

# ASSISTANCE

If you have questions about any aspect of the **Computerized Placement Tests**, hardware requirements, or software installation and operation that are not answered in this manual or the Coordinator's Guide, please call the assistance hotline at this telephone number:

**(609) 734-5782**

Telephone assistance is available for users with standard configurations as outlined in the **SYSTEMS REQUIREMENTS** chapter beginning on page 5. It is assumed that users will have a good working knowledge of their hardware, especially if the hardware environment involves a local area network. Additional assistance, beyond the standard configurations, will be provided on request for a consultation fee plus travel and expenses.

The hotline is open between the hours of 9:00 a.m. and 4:30 p.m. Eastern time.

To help us respond quickly and accurately when you call, please be at your computer and have the following information available:

- The exact sequence of events during which the problem was encountered
- Any messages displayed on the screen when you experienced the problem
- Computer make and model
- Type and amount of disk storage
- Amount of internal memory (RAM)
- Type of monitor and graphics board
- DOS version number
- Printer make and model
- Network (if applicable)
- CPTs Version (e.g., 3.0 or 2.0) and serial number
- The name of your institution
- Your name and telephone number

# CPTs TOTAL RIGHT SCORES
# to
# PERCENTILE RANKS

## Relationship of Computerized Placement Tests (CPTs) Total Right Scores to Estimated Percentile Ranks Among Entering College Students

The Computerized Placement Tests (CPTs) percentiles for Reading Comprehension, Sentence Skills, Arithmetic Skills, and Elementary Algebra refer to a group of 44,000 students who took the New Jersey College Basic Skills Placement Test (NJCBSPT) from February through September of 1986. All students entering state-supported colleges in New Jersey must take the NJCBSPT. The CPTs percentiles in this group were estimated by finding the NJCBSPT score corresponding to each CPTs score (generally not a whole number) and by using interpolation to determine its percentile.

The correspondence between CPTs and NJCBST scores was determined in a score comparability study, completed in September of 1987, in which 224 students at five colleges took both tests. Half the students took CPTs first; the other half took the NJCBST test first. The correspondence was computed separately for each of the four sections of the test (Reading Comprehension, Sentence Skills, Arithmetic, Elementary Algebra). The correspondence was determined by standardizing the scores in both tests—expressing each score in terms of standard deviations above or below the mean—in this group of 224 students.

For the College-Level Mathematics test, a simulation study was conducted based on a sample of 3,000 college students who took the College-Level Examination Program (CLEP) College Algebra/Trigonometry Test for college credit.

Tables of these scores appear on the following pages.

# CPTs TOTAL RIGHT SCORES to PERCENTILE RANKS

### Relationship of CPTs Total Right Scores to Estimated Percentile Ranks Among Students Entering College

| CPTs Total Right Score | Reading* Comp | Sentence* Skills | Arithmetic* Skills | Elementary* Algebra | College-** Level Math |
|---|---|---|---|---|---|
| 120 | >99 | >96 | >93 | 97 | >99 |
| 119 | >99 | >96 | >93 | 97 | >99 |
| 118 | >99 | 96 | >93 | 96 | >99 |
| 117 | >99 | 95 | >93 | 95 | >99 |

# CPTs TOTAL RIGHT SCORES
# and their
# STANDARD ERRORS OF MEASUREMENT

Although the consistency with which scores are derived from a test is usually represented by the test's reliability, measures of reliability aggregate measurement error over all score levels. Lack of consistency, or measurement error, for a test actually varies with score level in a systematic fashion that depends on the score level and the psychometric properties of the items that make up the test. Item response theory provides us with a straightforward means of estimating the conditional standard error of measurement, i.e., the standard error of measurement at each score level. An item response model was used to produce the conditional standard errors of measurement at each scaled score level for each of the CPTs. The following tables illustrate the standard errors of measurement by total right score for all the CPTs.

# CPTs TOTAL RIGHT SCORES and their STANDARD ERRORS OF MEASUREMENT

# TABLES OF COMPARABLE SCALED SCORES

## COMPUTERIZED PLACEMENT TESTS (CPTs) and the ORIGINAL DESCRIPTIVE TESTS OF LANGUAGE and MATHEMATICS SKILLS (DTLS/DTMS)

The correspondence between CPTs scores and DTLS/DTMS scores was determined in a score comparability study completed in November 1987. Approximately 200 students took each of the four CPTs sections then available (Reading Comprehension, Sentence Skills, Arithmetic, and Elementary Algebra) together with the corresponding original DTLS/DTMS test (Forms A and B). Approximately half of the students took the CPTs first and approximately half took the DTLS/DTMS test first. The correspondence between the two tests was determined separately for each of the CPTs using equipercentile scaling methods.

The tables that follow present the correspondences in both directions (i.e., CPTs to DTLS/DTMS and DTLS/DTMS to CPTs).

# CPTs TO DTLS

# TABLES OF COMPARABLE SCALED SCORES

## COMPUTERIZED PLACEMENT TESTS (CPTs) and the NEW JERSEY COLLEGE BASIC SKILLS PLACEMENT TEST (NJCBSPT)

The correspondence between CPTs scores and NJCBSPT scores was determined in a score comparability study, completed in September 1987, in which 224 students at five institutions took both tests. Half of the students took the CPTs first and the other half took NJCBSPT first. The correspondence was computed separately for each of the four sections of the test (Reading Comprehension, Sentence Skills, Arithmetic, and Elementary Algebra) then available. The correspondence was determined by standardizing the scores in both tests (i.e., expressing each score in terms of standard deviations above or below the mean) in this group of 224 students.

The tables that follow present the correspondences in both directions (i.e., CPTs to NJCBSPT and NJCBSPT to CPTs).
